(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front elevational view of a display screen with animated graphical user interface, showing my new design; and,
FIG. 2 is a front elevational view of a second image thereof. The broken lines showing a display screen and elements of the animated graphical user interface illustrate portions of the article, and form no part of the claimed design. The appearance of the graphical user interface transitions sequentially between the images shown. The process or period in which one image transitions to another forms no part of the claimed design.
