(57) **CLAIM**
I claim the ornamental design for casement window operator cover and handle, as shown and described.

DESCRIPTION

FIG. 1. is a right side isometric view of a cover portion of a casement window operator cover and handle with left-handed operation according to a first embodiment of the invention;

FIG. 2. is a left side isometric view of the cover portion of the casement window operator cover and handle depicted in FIG. 1;

FIG. 3. is a front elevation view of the cover portion of the casement window operator cover and handle depicted in FIG. 1;

FIG. 4. is a top plan view of the cover portion of the casement window operator cover and handle depicted in FIG. 1;

FIG. 5. is a left side elevation view of the cover portion of the casement window operator cover and handle depicted in FIG. 1;

FIG. 6. is a right side elevation view of the cover portion of the casement window operator cover and handle depicted in FIG. 1;

FIG. 7. is a right side isometric view of the casement window operator cover and handle of FIG. 1 with the handle shown;

FIG. 8. is a left side isometric view of the casement window operator cover and handle of FIG. 1 with the handle shown;

FIG. 9. is a front elevation view of the casement window operator cover and handle depicted in FIG. 1 with the handle shown;

FIG. 10. is a top plan view of the casement window operator cover and handle depicted in FIG. 1 with the handle shown;

FIG. 11. is a left side elevation view of the of the casement window operator cover and handle depicted in FIG. 1 with the handle shown;

FIG. 12. is a right side elevation view of the casement window operator cover and handle depicted in FIG. 1 with the handle shown;

FIG. 13. is a left side isometric view of a cover portion of a casement window operator cover and handle with right-handed operation according to a second embodiment of the invention;

FIG. 14. is a right side isometric view of the cover portion of the casement window operator cover and handle depicted in FIG. 13;

FIG. 15. is a front elevation view of the cover portion of the casement window operator cover and handle depicted in FIG. 13;

(Continued)

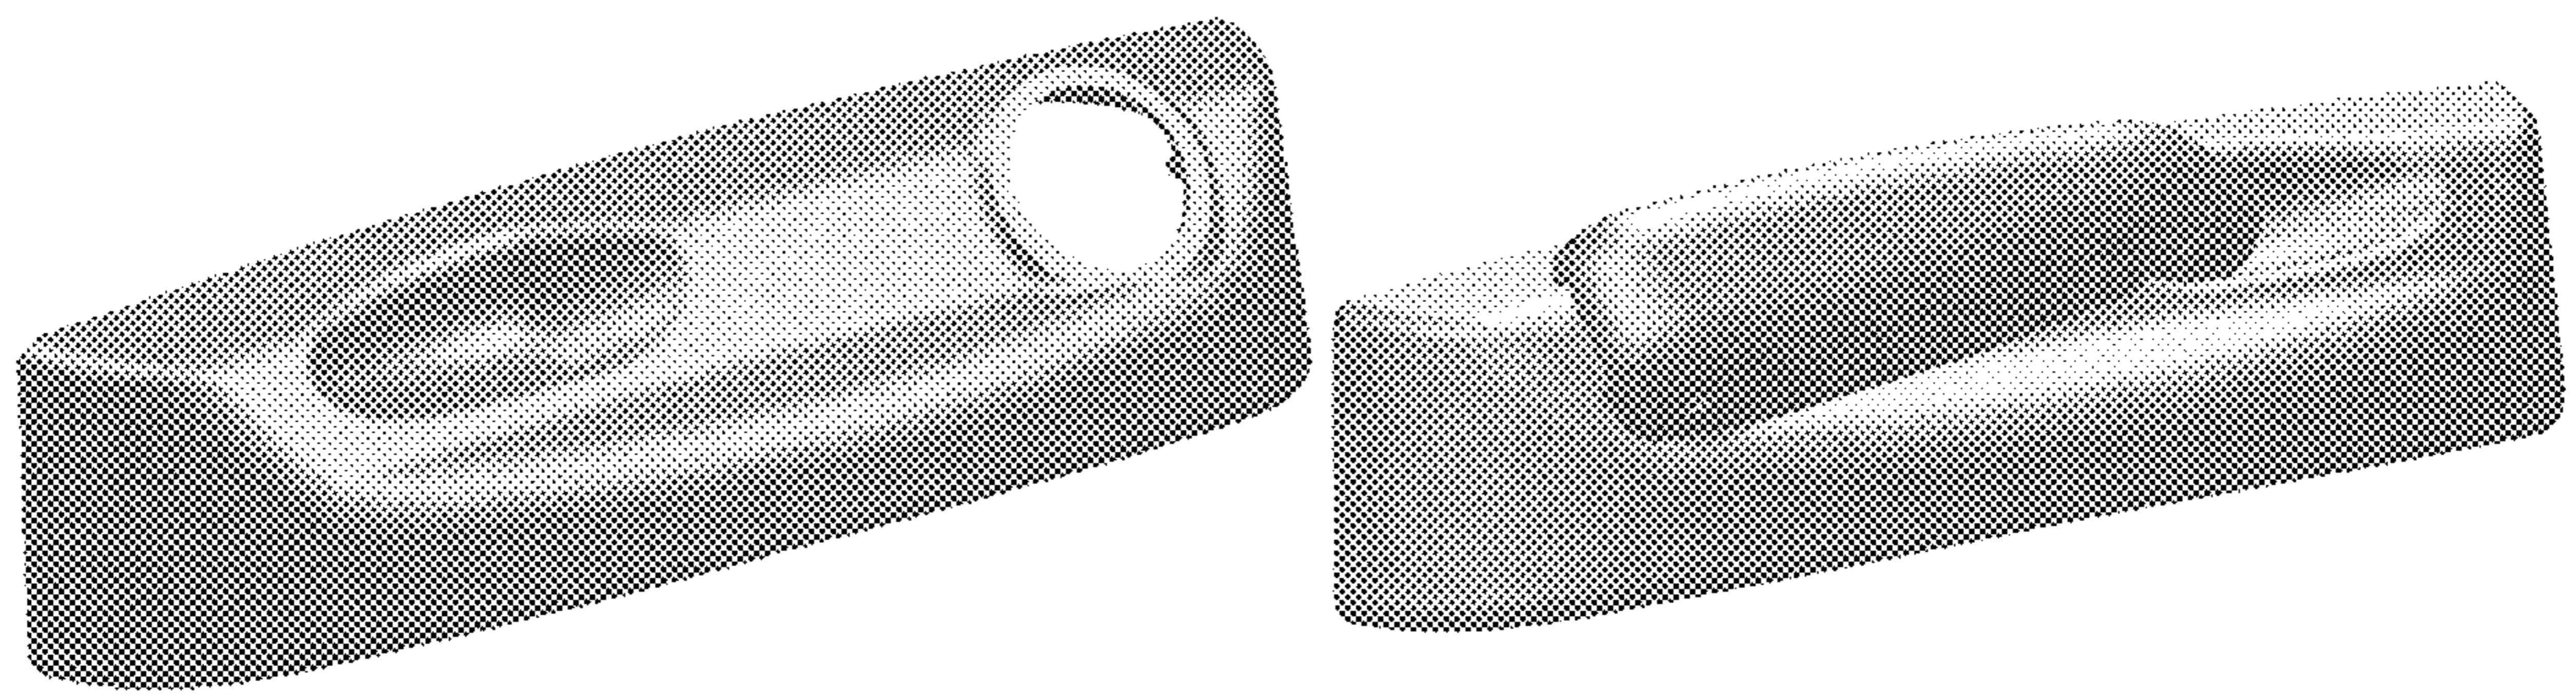

FIG. 16. is a top plan view of the cover portion of the casement window operator cover and handle depicted in FIG. 13;
 FIG. 17. is a left side elevation view of the cover portion of the casement window operator cover and handle depicted in FIG. 13;
 FIG. 18. is a right side elevation view of the cover portion of the casement window operator cover and handle depicted in FIG. 13;
 FIG. 19. is a left side isometric view of the casement window operator cover and handle of FIG. 13 with the handle shown;
 FIG. 20. is a right side isometric view of the casement window operator cover and handle of FIG. 13 with the handle shown;
 FIG. 21. is a front elevation view of the casement window operator cover and handle depicted in FIG. 13 with the handle shown;
 FIG. 22. is a top plan view of the casement window operator cover and handle depicted in FIG. 13 with the handle shown;
 FIG. 23. is a left side elevation view of the of the casement window operator cover and handle depicted in FIG. 13 with the handle shown; and,
 FIG. 24. is a right side elevation view of the casement window operator cover and handle depicted in FIG. 13 with the handle shown.
