(57) **CLAIM**

The ornamental design for a medical examination probe, as
shown and described.

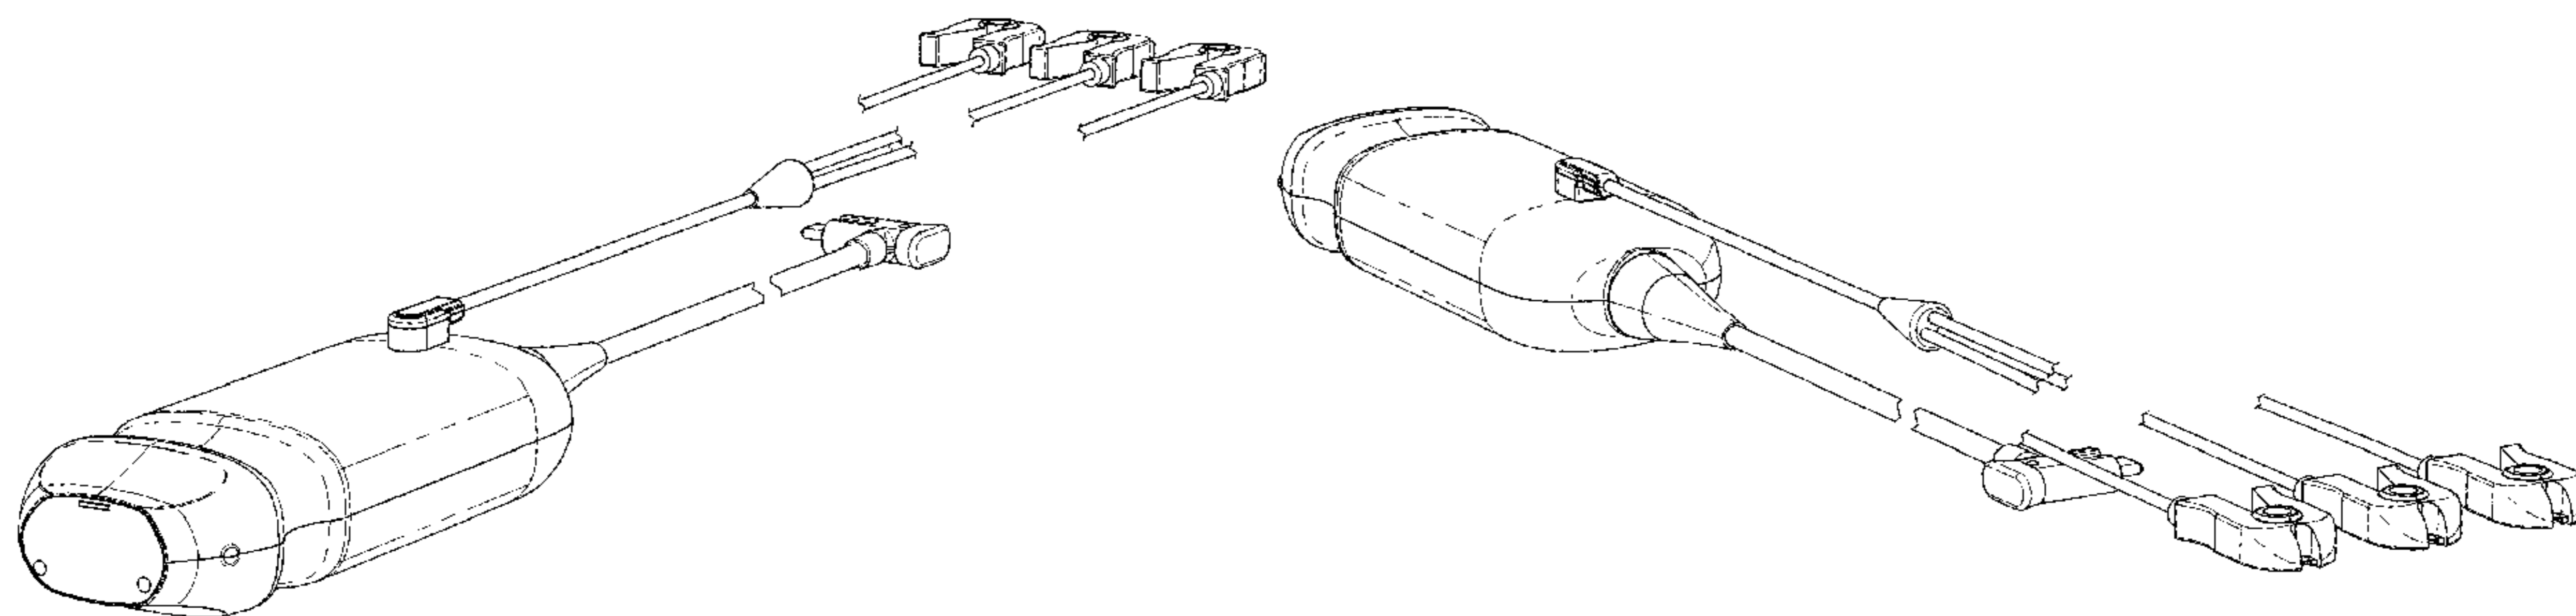

DESCRIPTION

FIG. 1 is a top, front, right perspective view of a medical
examination probe showing our new design.
FIG. 2 is a top, rear, right perspective view thereof.
FIG. 3 is a top plan view thereof.
FIG. 4 is a bottom plan view thereof.
FIG. 5 is a right side elevation view thereof.
FIG. 6 is a left side elevation view thereof.
FIG. 7 is a rear elevation view thereof; and,
FIG. 8 is a front elevation view thereof.

In the figures, the medical examination probe includes three
electrical clips that are coupled by a wired connection to a
main body, and for a portion of the wired connection, the
electrical wire coupled to the main body divides into three
electrical lead wires that are coupled to the three electrical
clips. The three electrical lead wires are shown in the figures
with break lines illustrating a symbolic break in their length.
Additionally, in the figures, the medical examination probe
includes an electrical wire that couples an electrical con-
nector to the main body. The electrical wire coupled between
the main body and the electrical connector is shown with
break lines illustrating a symbolic break in its length. The
appearance of any portion of the wires between the break
lines forms no part of the claimed design.

The broken lines in the figures are for the purpose of
illustrating portions of the medical examination probe that
form no part of the claimed design.

1 Claim, 4 Drawing Sheets
