(Continued)

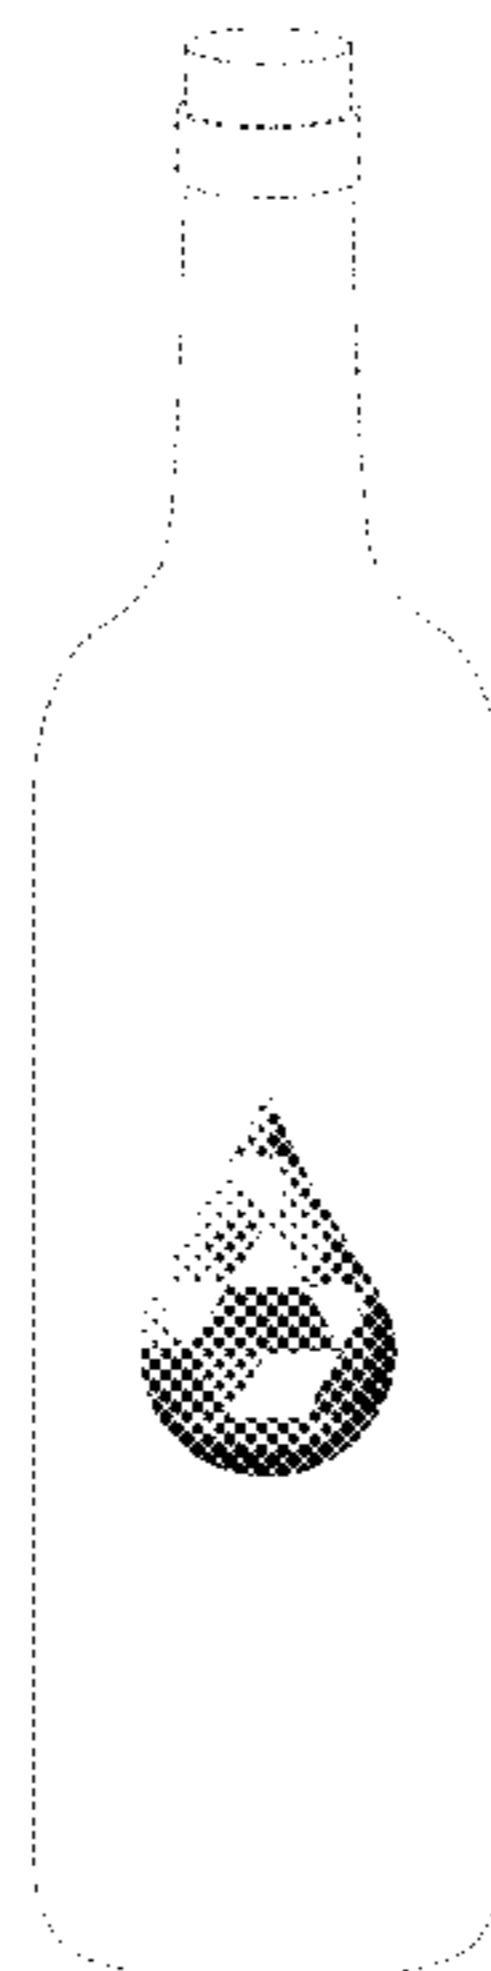

FIG. 26 is a second side view of the label for bottle shown in FIG. 22;

FIG. 27 is a top view of the label for bottle shown in FIG. 22; and,

FIG. 28 is a bottom view of the label for bottle shown in FIG. 22.

The features shown in broken lines in the figures are for the purpose of illustrating the context upon a bottle on which the label for bottle is used only and the bottle forms no part of the claimed design. The third and fourth embodiments are for the purpose of illustrating the subject design whereby the shape of the bottle forms no part of the claimed design. The surface shading around the outer portion of the subject design is to provide the appearance of a three-dimensional shape, whereby such surface shading is claimed as a feature of the ornamental design. With regards to the first and third embodiments, color forms part of the design. With regards to the second and fourth embodiments, color does not form part of the design.
