(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with transitional graphical user interface, showing our new design and illustrating a first image of the transitional icon.

FIG. 2 is a front view of the display screen with transitional graphical user interface, showing our new design and illustrating a second image of the transitional icon.

FIG. 3 is a front view of the display screen with transitional graphical user interface, showing our new design and illustrating a third image of the transitional icon.

FIG. 4 is a front view of the display screen with transitional graphical user interface, showing our new design and illustrating a fourth image of the transitional icon.

FIG. 5 is a front view of the display screen with transitional graphical user interface, showing our new design and illustrating a fifth image of the transitional icon.

FIG. 6 is a front view of the display screen with transitional graphical user interface, showing our new design and illustrating a sixth image of the transitional icon.

FIG. 7 is a front view of the display screen with transitional graphical user interface, showing our new design and illustrating a seventh image of the transitional icon.

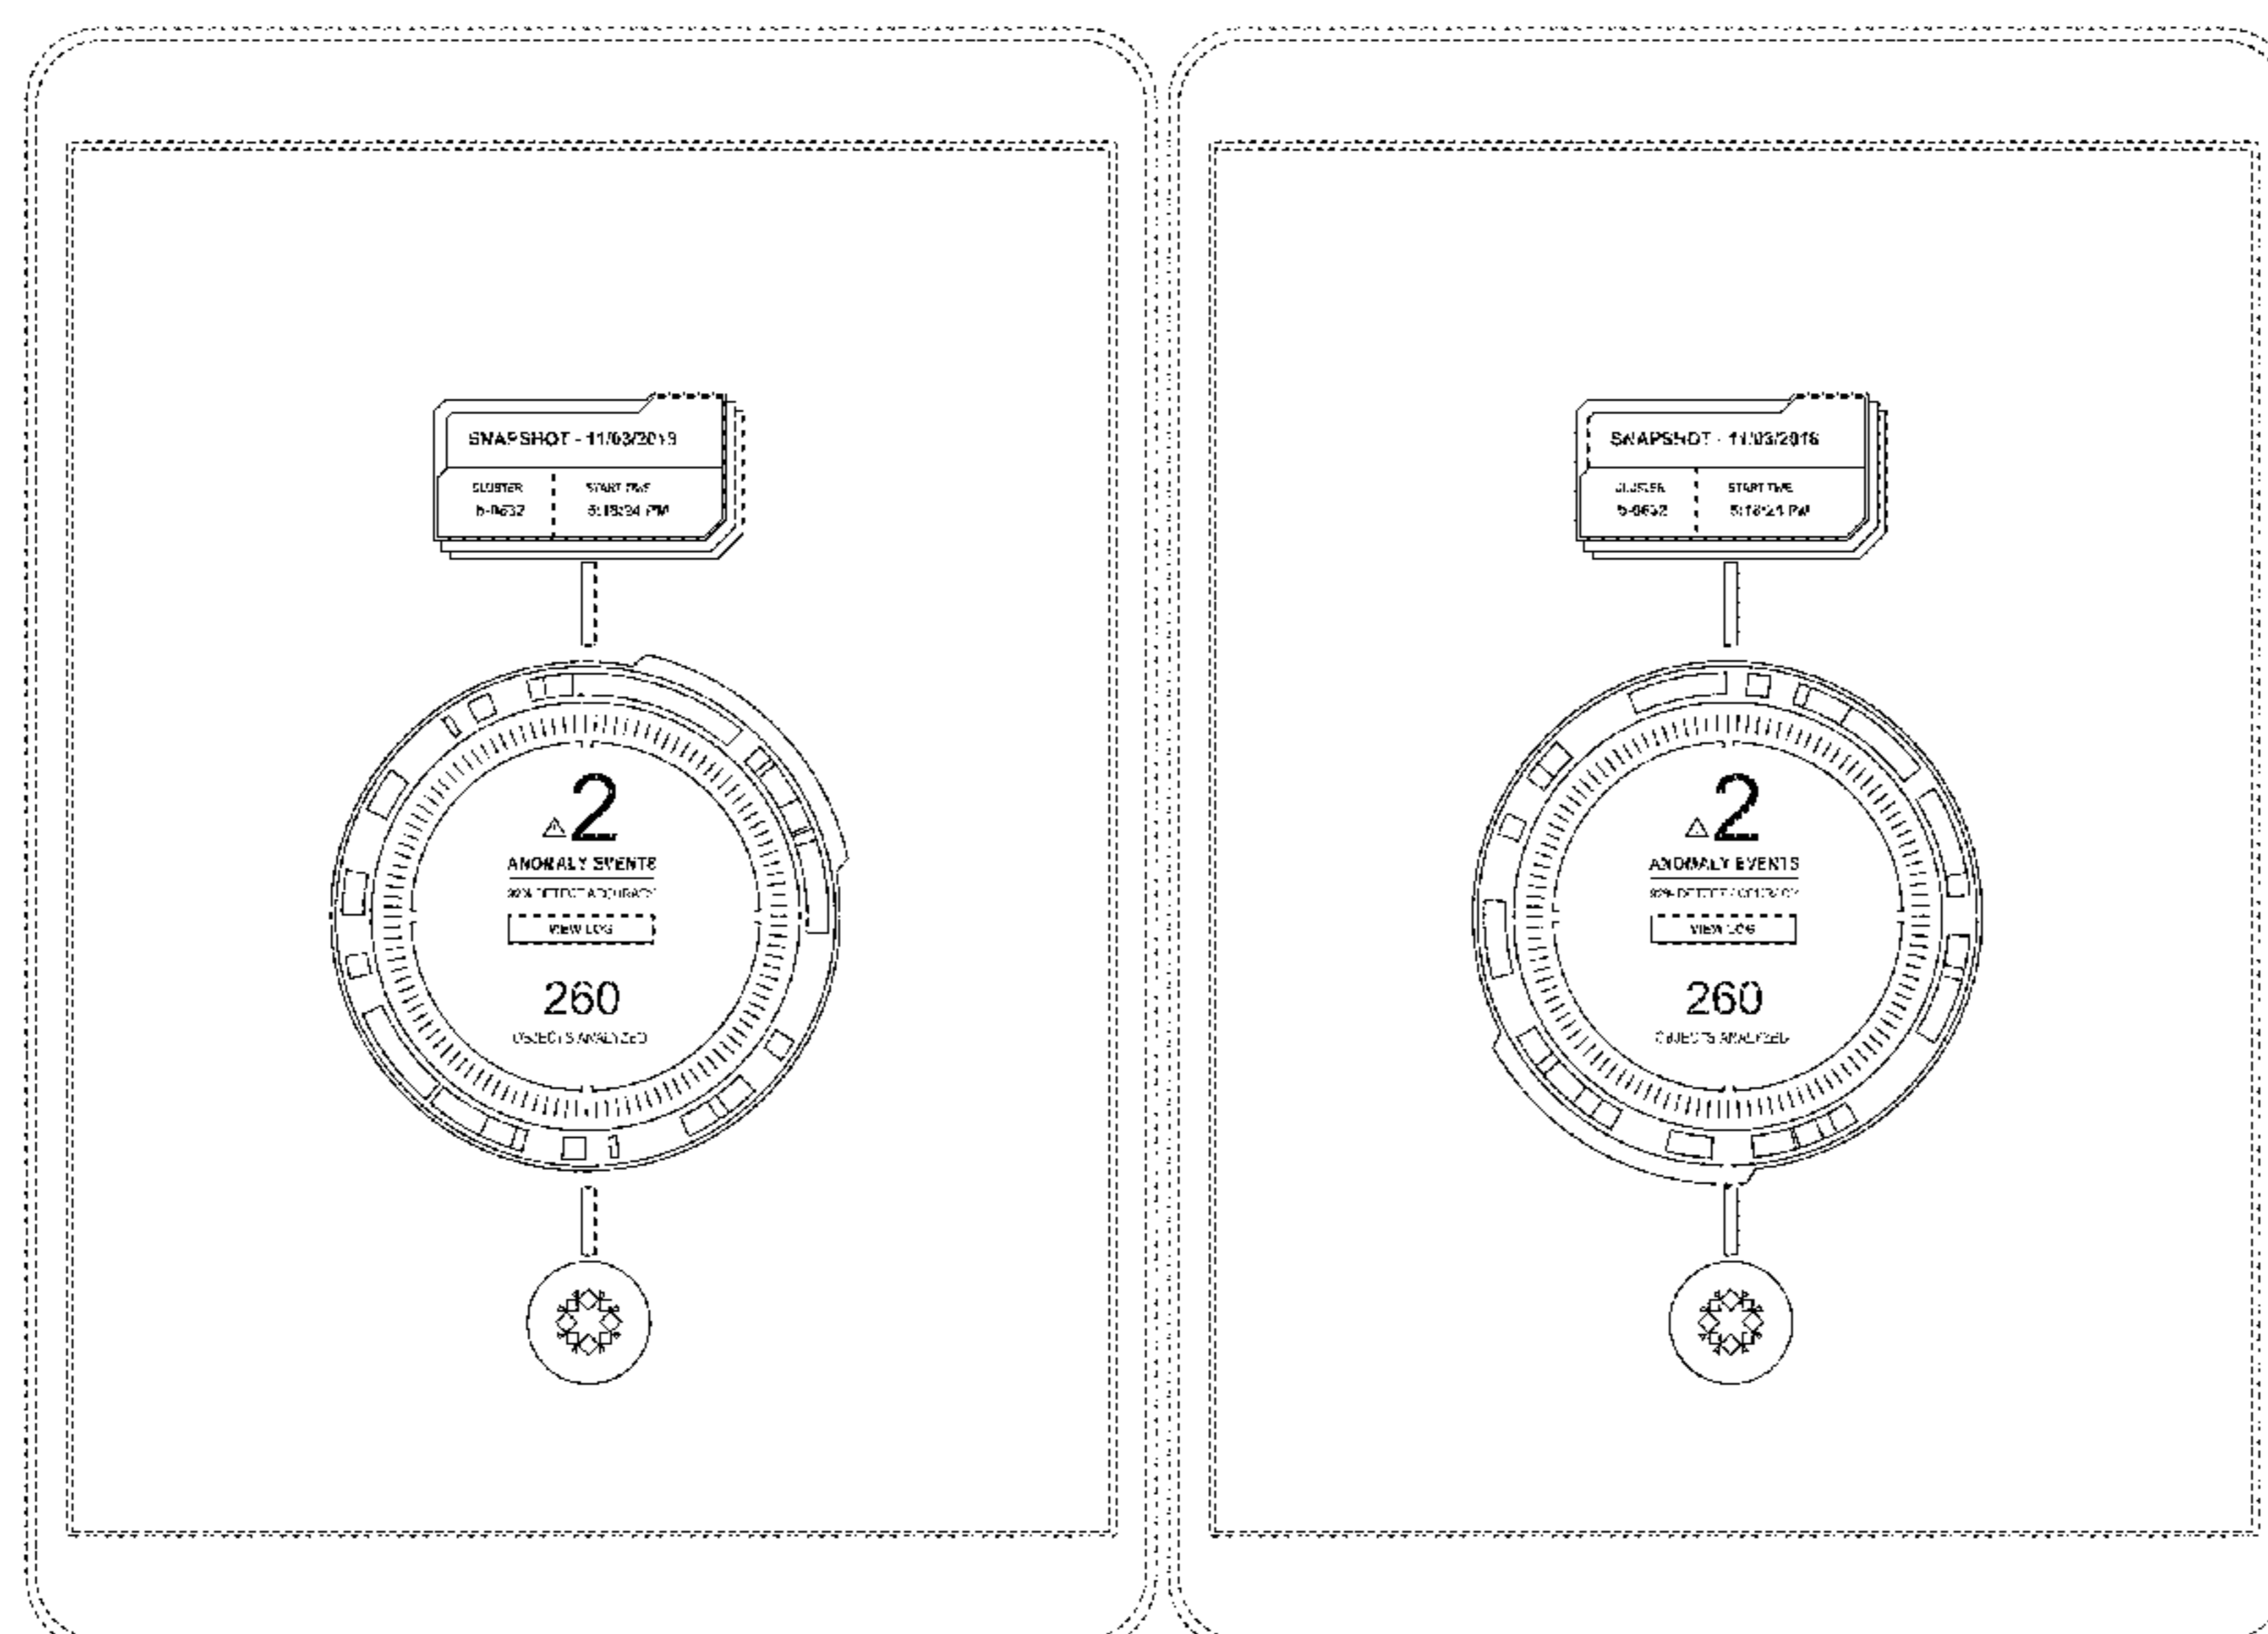

FIG. 8 is a front view of the display screen with transitional graphical user interface, showing our new design and illustrating an eighth image of the transitional icon; and,

FIG. 9 is a front view of the display screen with transitional graphical user interface, showing our new design and illustrating a ninth image of the transitional icon.

The broken lines in the drawings illustrate a display screen and form no part of the claimed design.

The appearance of the graphical user interface sequentially transitions between the images shown in FIGS. 1-9. The process or period in which one image transitions to another image forms no part of the claimed design.
