FIG. 1 is a front view of a display screen or portion thereof with a first image in a sequence of an animated graphical user interface, showing the design;
FIG. 2 is a front view of the display screen or portion thereof with the second image thereof;
FIG. 3 is a front view of the display screen or portion thereof with the third image thereof;
FIG. 4 is a front view of the display screen or portion thereof with the fourth image thereof;
FIG. 5 is a front view of the display screen or portion thereof with the fifth image thereof.
FIG. 6 is a front view of the display screen or portion thereof with the sixth image thereof; and,
FIG. 7 is a front view of the display screen or portion thereof with the seventh image thereof.

The outermost broken line rectangle showing of the display screen or portion thereof and all other broken lines showing portions of the graphical user interface are included for the purpose of illustrating portions of the article and form no part of the claimed design.

The appearance of the animated image on the display screen or portion thereof sequentially transitions between the images shown in FIGS. 1-7. The process in which, and the period during which, one image transitions to another image forms no part of the claimed design.
