FIG. 1 is a front perspective view of a gaming machine radio interface design showing our new design; FIG. 2 is a front view of the gaming machine radio interface design shown in FIG. 1; and, FIG. 3 is a close-up view of the gaming machine radio interface design shown in FIG. 1; In these drawings, the solid lines illustrate the claimed ornamental design, whereas the broken lines illustrate unclaimed environmental features and form no part of the claimed design. The claimed design extends along the entire surface of, and to the edges shown in solid lines of, the generally rectangular gaming machine radio design interface. Additional claimed ornamental features are shown in discrete solid lines on the surface of the generally rectangular gaming machine radio design interface. The broken lines within the claimed ornamental features illustrate unclaimed displayable elements of the gaming machine radio interface that are planar with the claimed ornamental features.
