DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of the mobile terminal with graphical user interface showing an eighteenth image in a sequence; FIG. 2 is a front view of the mobile terminal with a first changed interface showing a first image in the sequence; FIG. 3 is a front view of the mobile terminal with a second changed interface showing a second image in the sequence; FIG. 4 is a front view of the mobile terminal with a third changed interface showing a third image in the sequence; FIG. 5 is a front view of the mobile terminal with a fourth changed interface showing a fourth image in the sequence; FIG. 6 is a front view of the mobile terminal with a fifth changed interface showing a fifth image in the sequence; FIG. 7 is a front view of the mobile terminal with a sixth changed interface showing a sixth image in the sequence; FIG. 8 is a front view of the mobile terminal with a seventh changed interface showing a seventh image in the sequence; FIG. 9 is a front view of the mobile terminal with an eighth changed interface showing an eighth image in the sequence; FIG. 10 is a front view of the mobile terminal with a ninth changed interface showing a ninth image in the sequence; FIG. 11 is a front view of the mobile terminal with a tenth changed interface showing a tenth image in the sequence; FIG. 12 is a front view of the mobile terminal with an eleventh changed interface showing an eleventh image in the sequence; FIG. 13 is a front view of the mobile terminal with a twelfth changed interface showing a twelfth image in the sequence; FIG. 14 is a front view of the mobile terminal with a thirteenth changed interface showing a thirteenth image in the sequence;

(Continued)

FIG. 15 is a front view of the mobile terminal with a fourteenth changed interface showing a fourteenth image in the sequence;

FIG. 16 is a front view of the mobile terminal with a fifteenth changed interface showing a fifteenth image in the sequence;

FIG. 17 is a front view of the mobile terminal with a sixteenth changed interface showing a sixteenth image in the sequence; and,

FIG. 18 is a front view of the mobile terminal with a seventeenth changed interface showing a seventeenth image in the sequence.

Portions of the mobile terminal not shown in the drawings form no part of the claimed design.

The broken lines are for the purpose of illustrating portions of the mobile terminal and form no part of the claimed design.
