See application file for complete search history.

FIG. 1 is a front view of a display screen portion with icon having a three-dimensional appearance showing our new design in a perspective orientation;  
FIG. 2 is another front view thereof, showing the front elevation orientation of the icon;  
FIG. 3 is another front view thereof, showing the rear elevation orientation of the icon;  
FIG. 4 is another front view thereof, showing the side elevation orientation of the icon;  
FIG. 5 is another front view thereof, showing the opposing side elevation orientation of the icon; and,  
FIG. 6 is another front view thereof, showing the top plan orientation of the icon.

The broken line showing of portions of the icon illustrate unclaimed environment and form no part of the claimed design.

Images showing the bottom of the icon are not included as the bottom is not visible during ordinary use and forms no part of the claimed design.

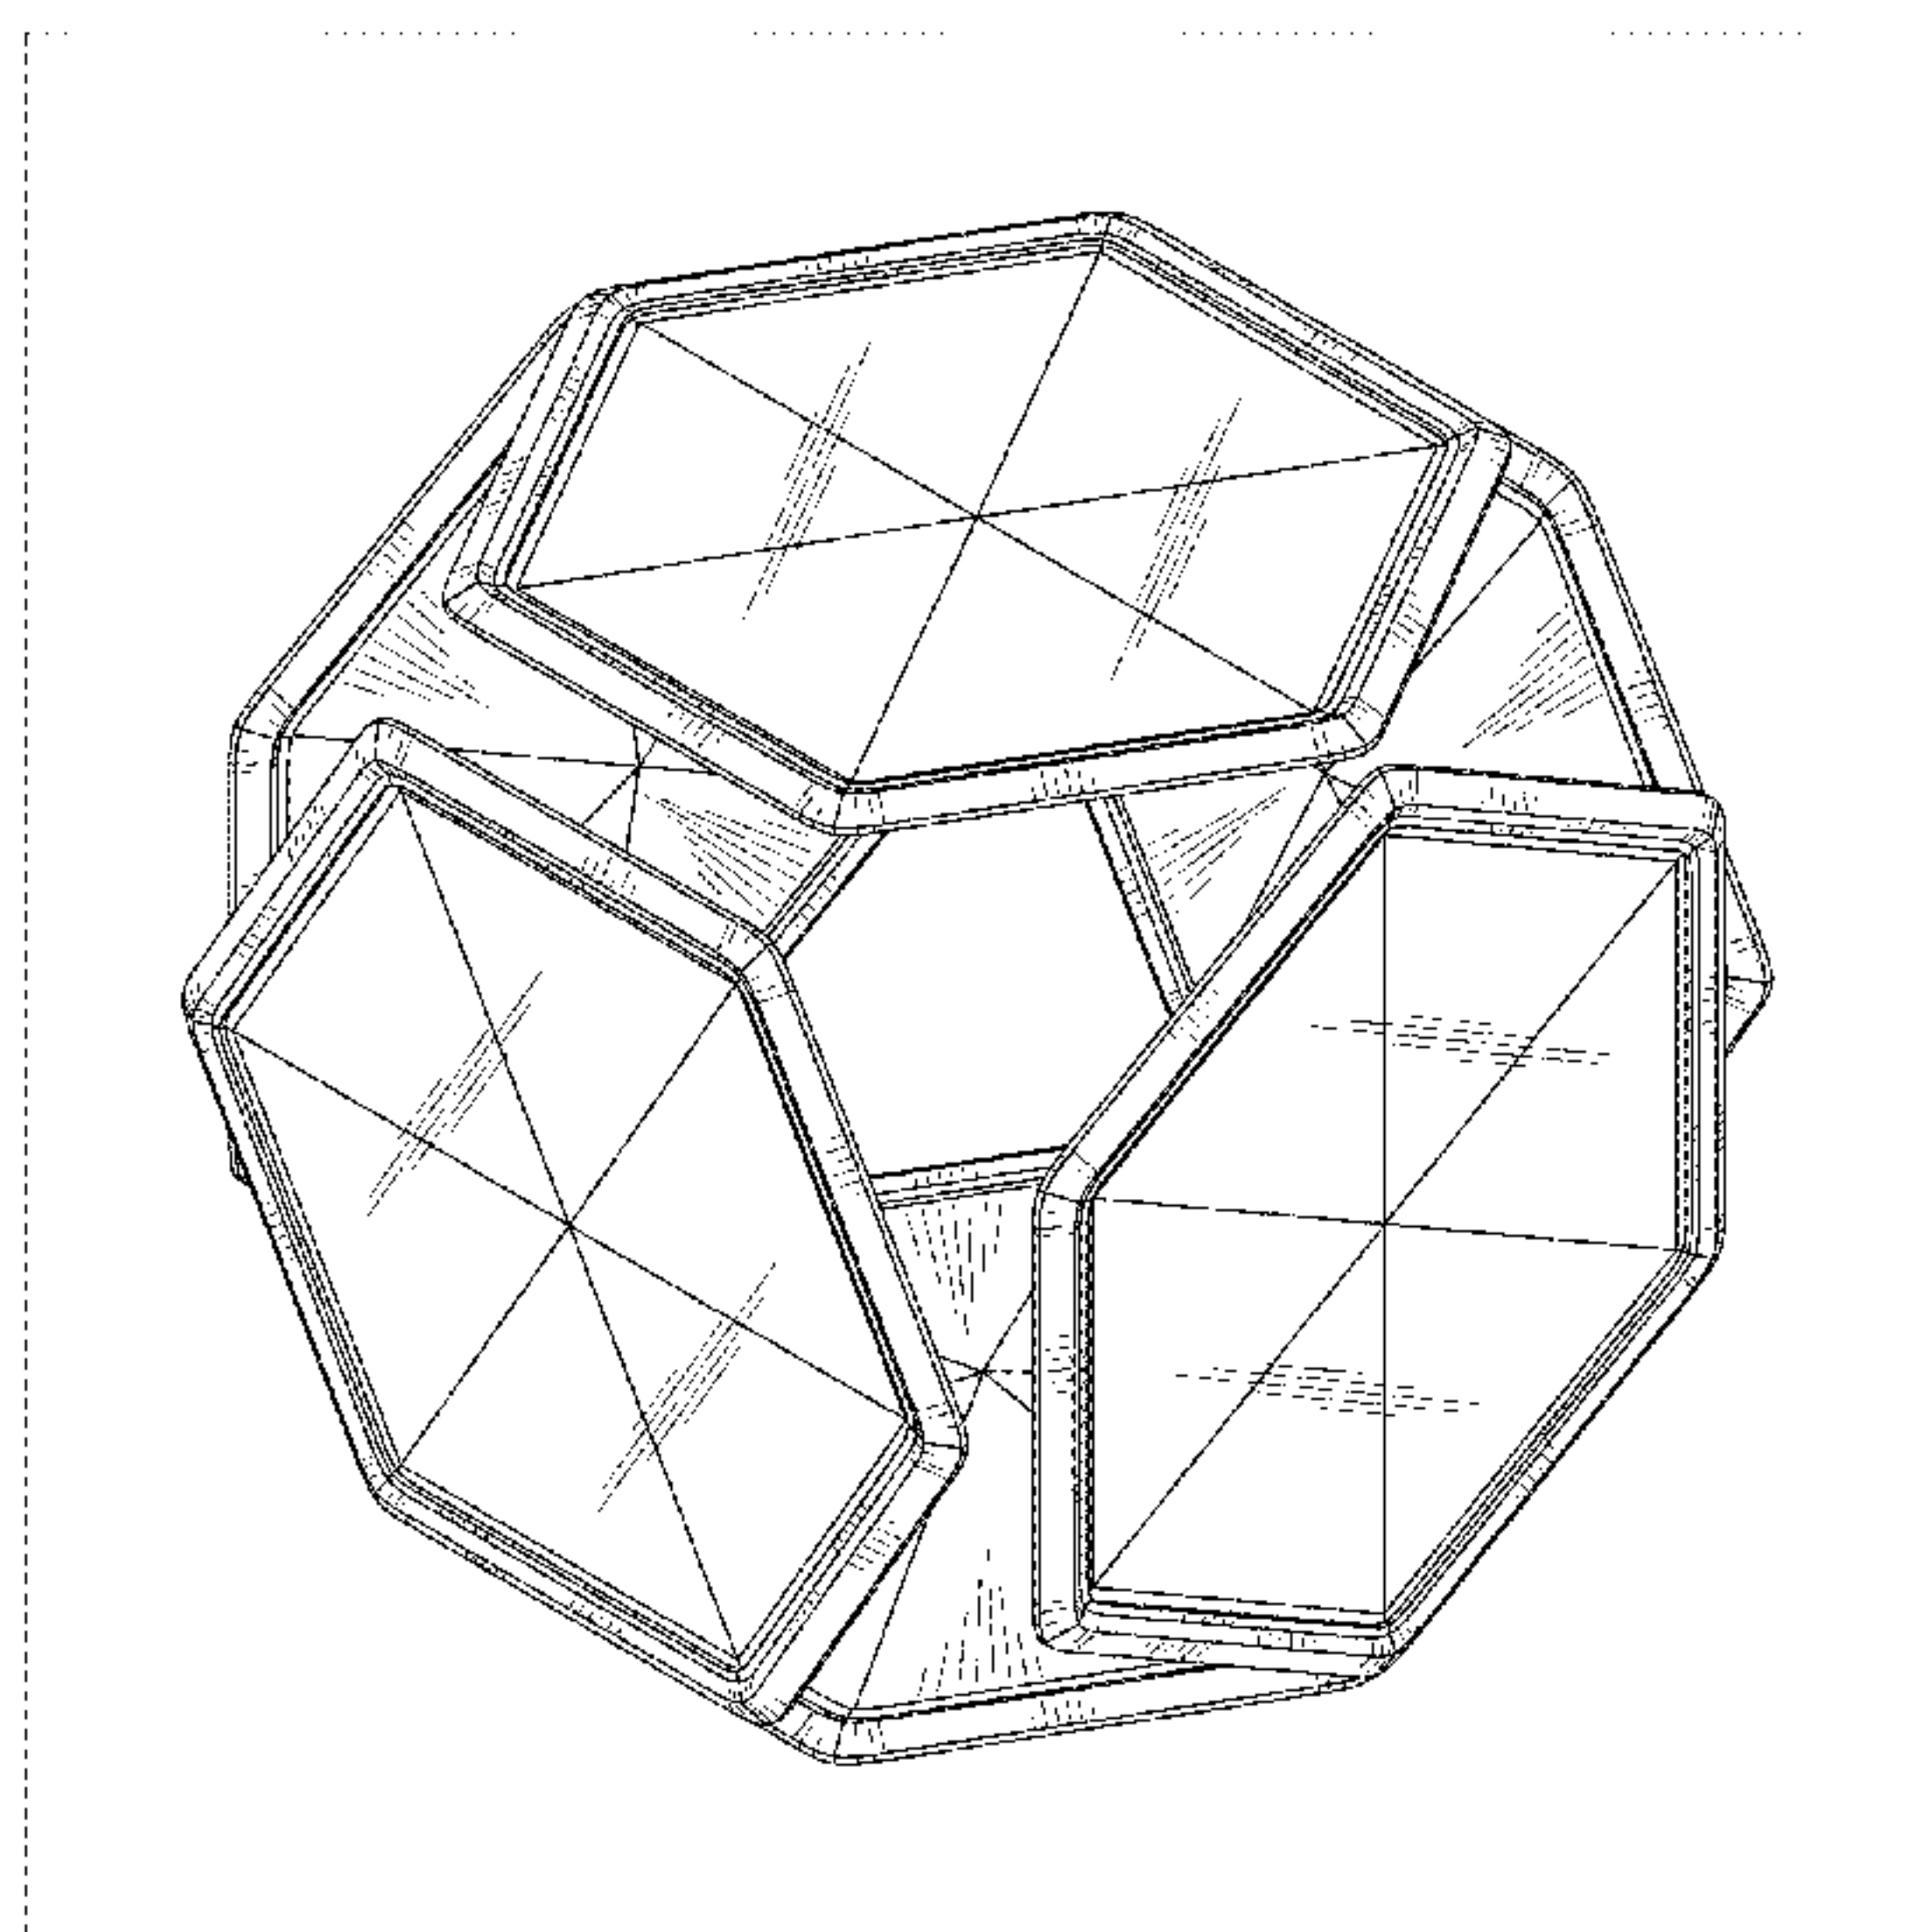

The claim is directed to a single icon embodied in a display screen portion. The appearance of the single icon includes the collection of view orientations shown and described. No ornamental aspects are associated with the transitions of one orientation to another orientation.
