(57) **CLAIM**

The ornamental design for a reinforcement arms and collar for a cannula tip, as shown and described.

DESCRIPTION

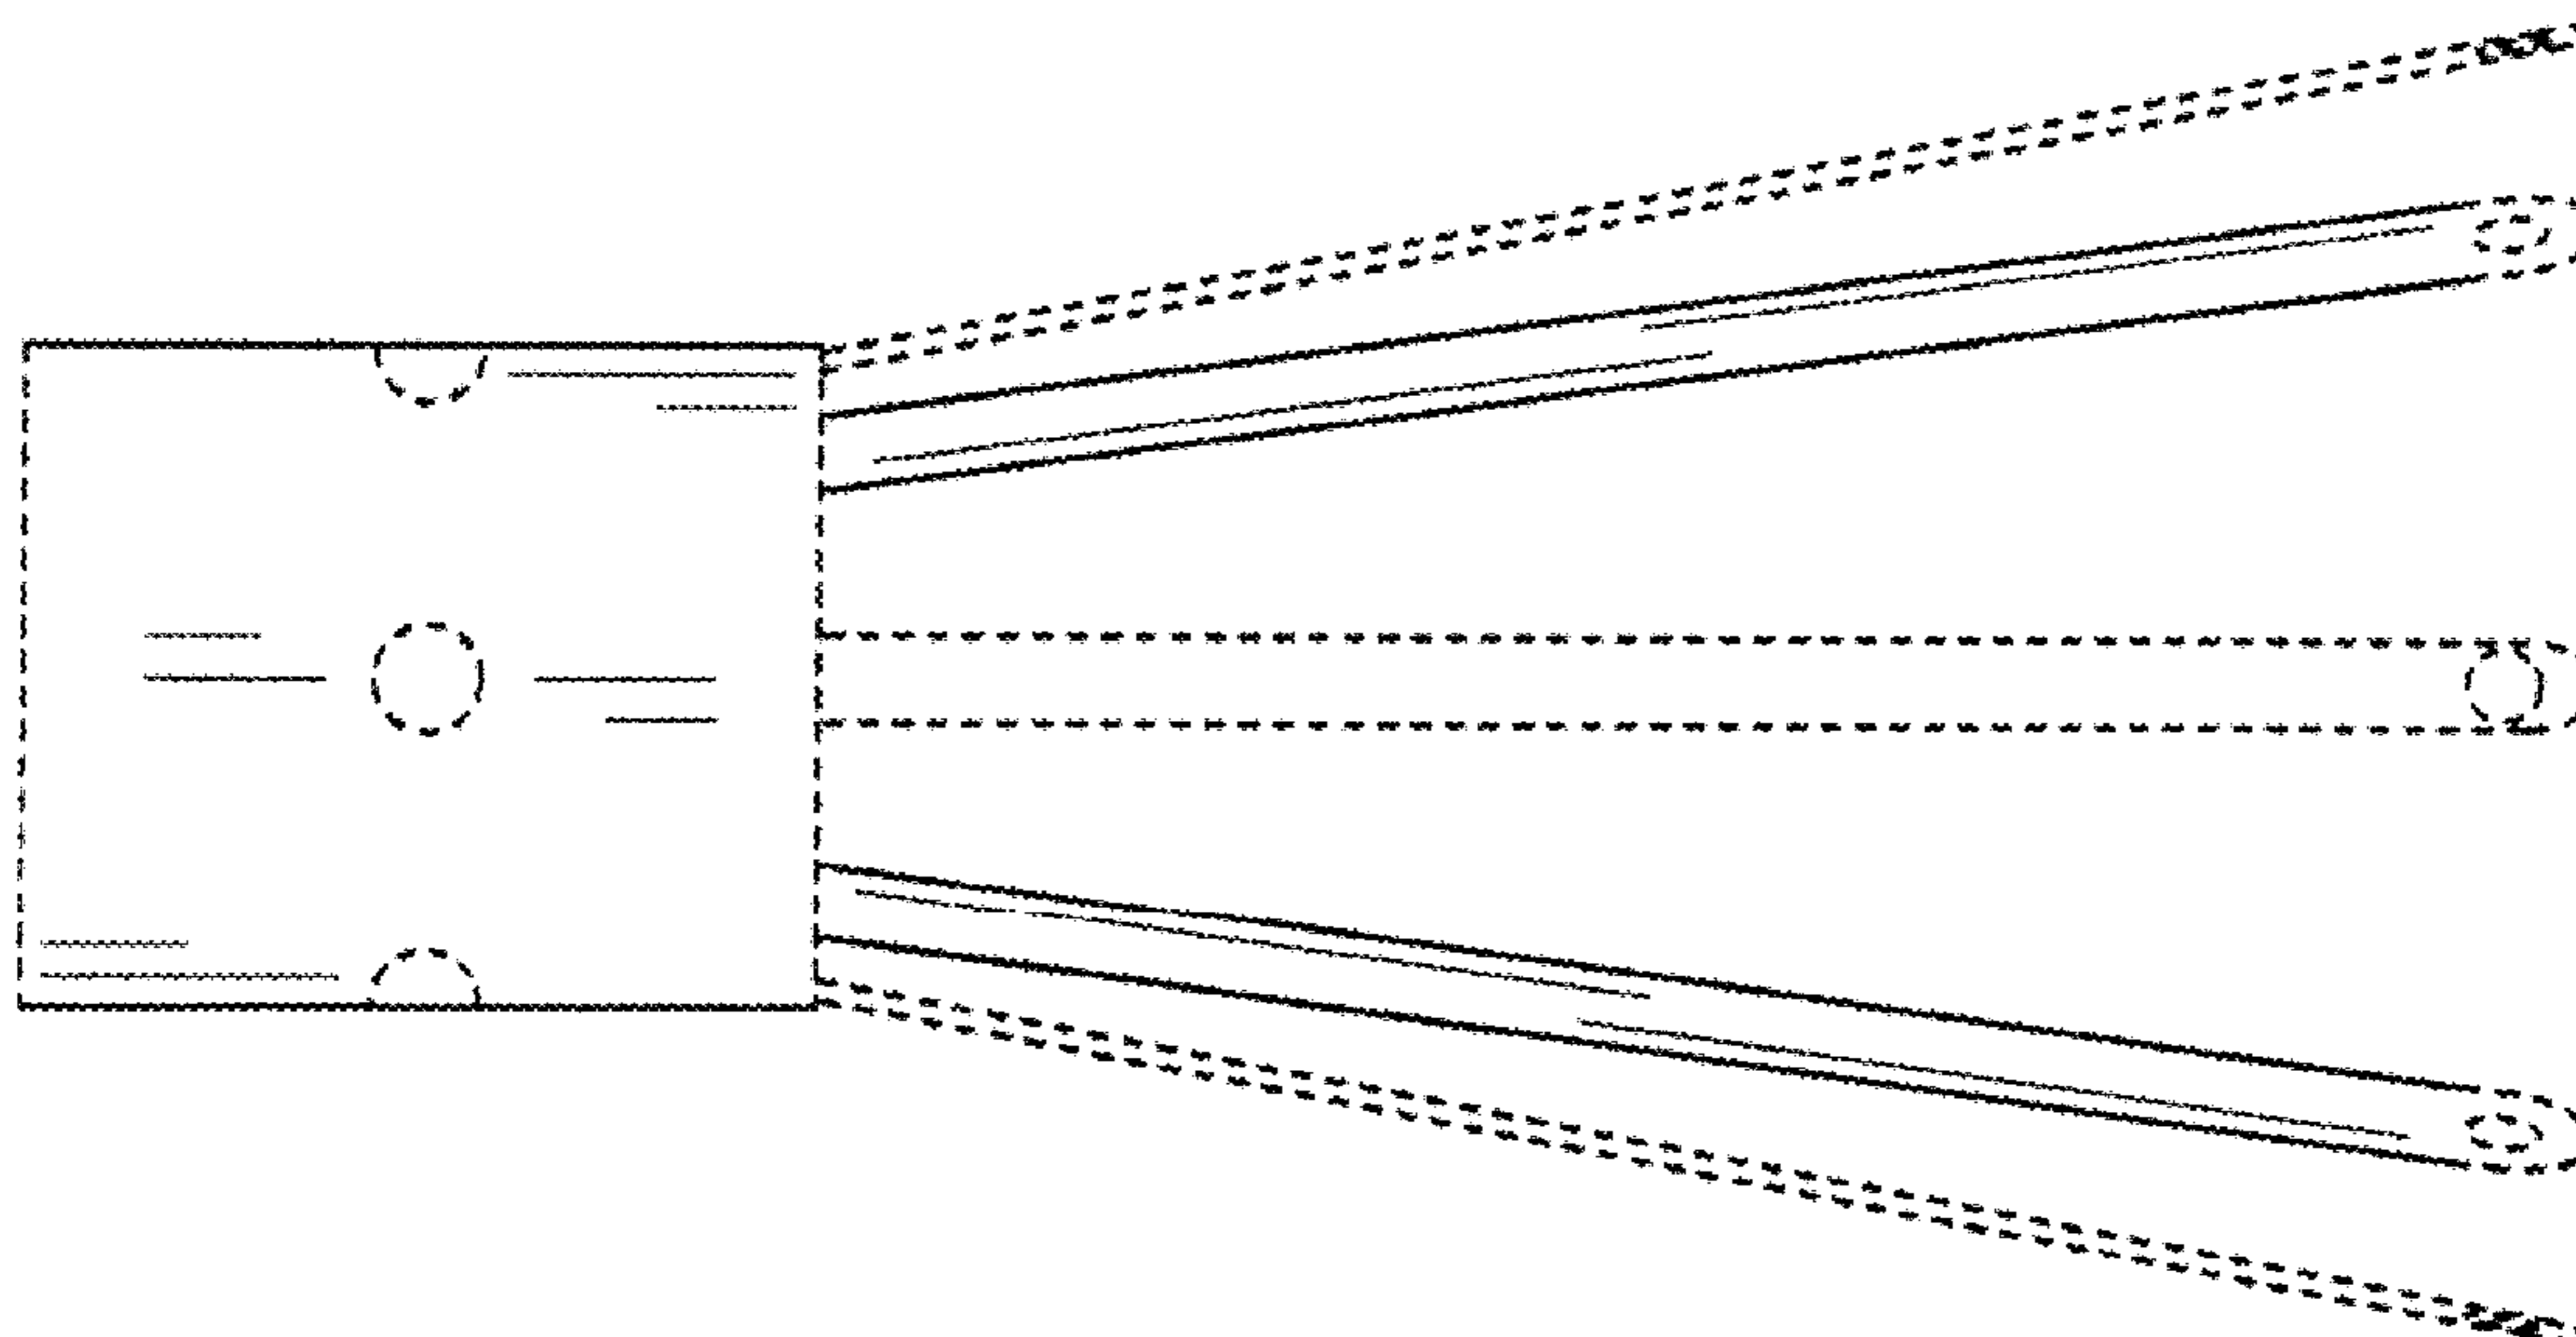

FIG. 1 is a side view of reinforcement arms and collar for a cannula tip comprising the new design;
FIG. 2 is a partial isometric view of a multiple suction cancan device including the reinforcement arms and collar for a cannula tip of FIG. 1;
FIG. 3 is a side view of the multiple suction cancan device of FIG. 2 including the reinforcement arms and collar for a cannula tip of FIG. 1; and,
FIG. 4 is a front-end view of the multiple suction cancan device of FIG. 2 including the reinforcement arms and collar for a cannula tip of FIG. 1.
The broken line showing is included for the purpose of illustrating portions of the article and forms no part of the claimed design.
