(57) **CLAIM**

The ornamental design for a vehicle display with graphical user interface, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing/photograph executed in color. Copies of this patent with color drawing(s)/photograph(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a first image of a first embodiment of a vehicle display with graphical user interface, showing my new design;

FIG. 2 is a second image thereof;

FIG. 3 is a third image thereof; and

FIG. 4 is a fourth image thereof.

FIG. 5 is a first image of a second embodiment of a vehicle display with graphical user interface, showing my new design;

FIG. 6 is a second image thereof;

FIG. 7 is a third image thereof; and,

FIG. 8 is a fourth image thereof.

In the first embodiment, the appearance of the vehicle display with graphical user interface sequentially transitions between the images shown in FIG. 1 through FIG. 4. In the second embodiment, the appearance sequentially transitions between the images shown in FIG. 5 through 8. The process or period in which one image transitions to another image forms no part of the claimed design.

The outermost broken lines are for the purpose of illustrating an environmental vehicle dashboard and form no part of the claimed design.
