(57) **CLAIM**

The ornamental design for a display screen or portion thereof with transitional graphical user interface, as shown and described.

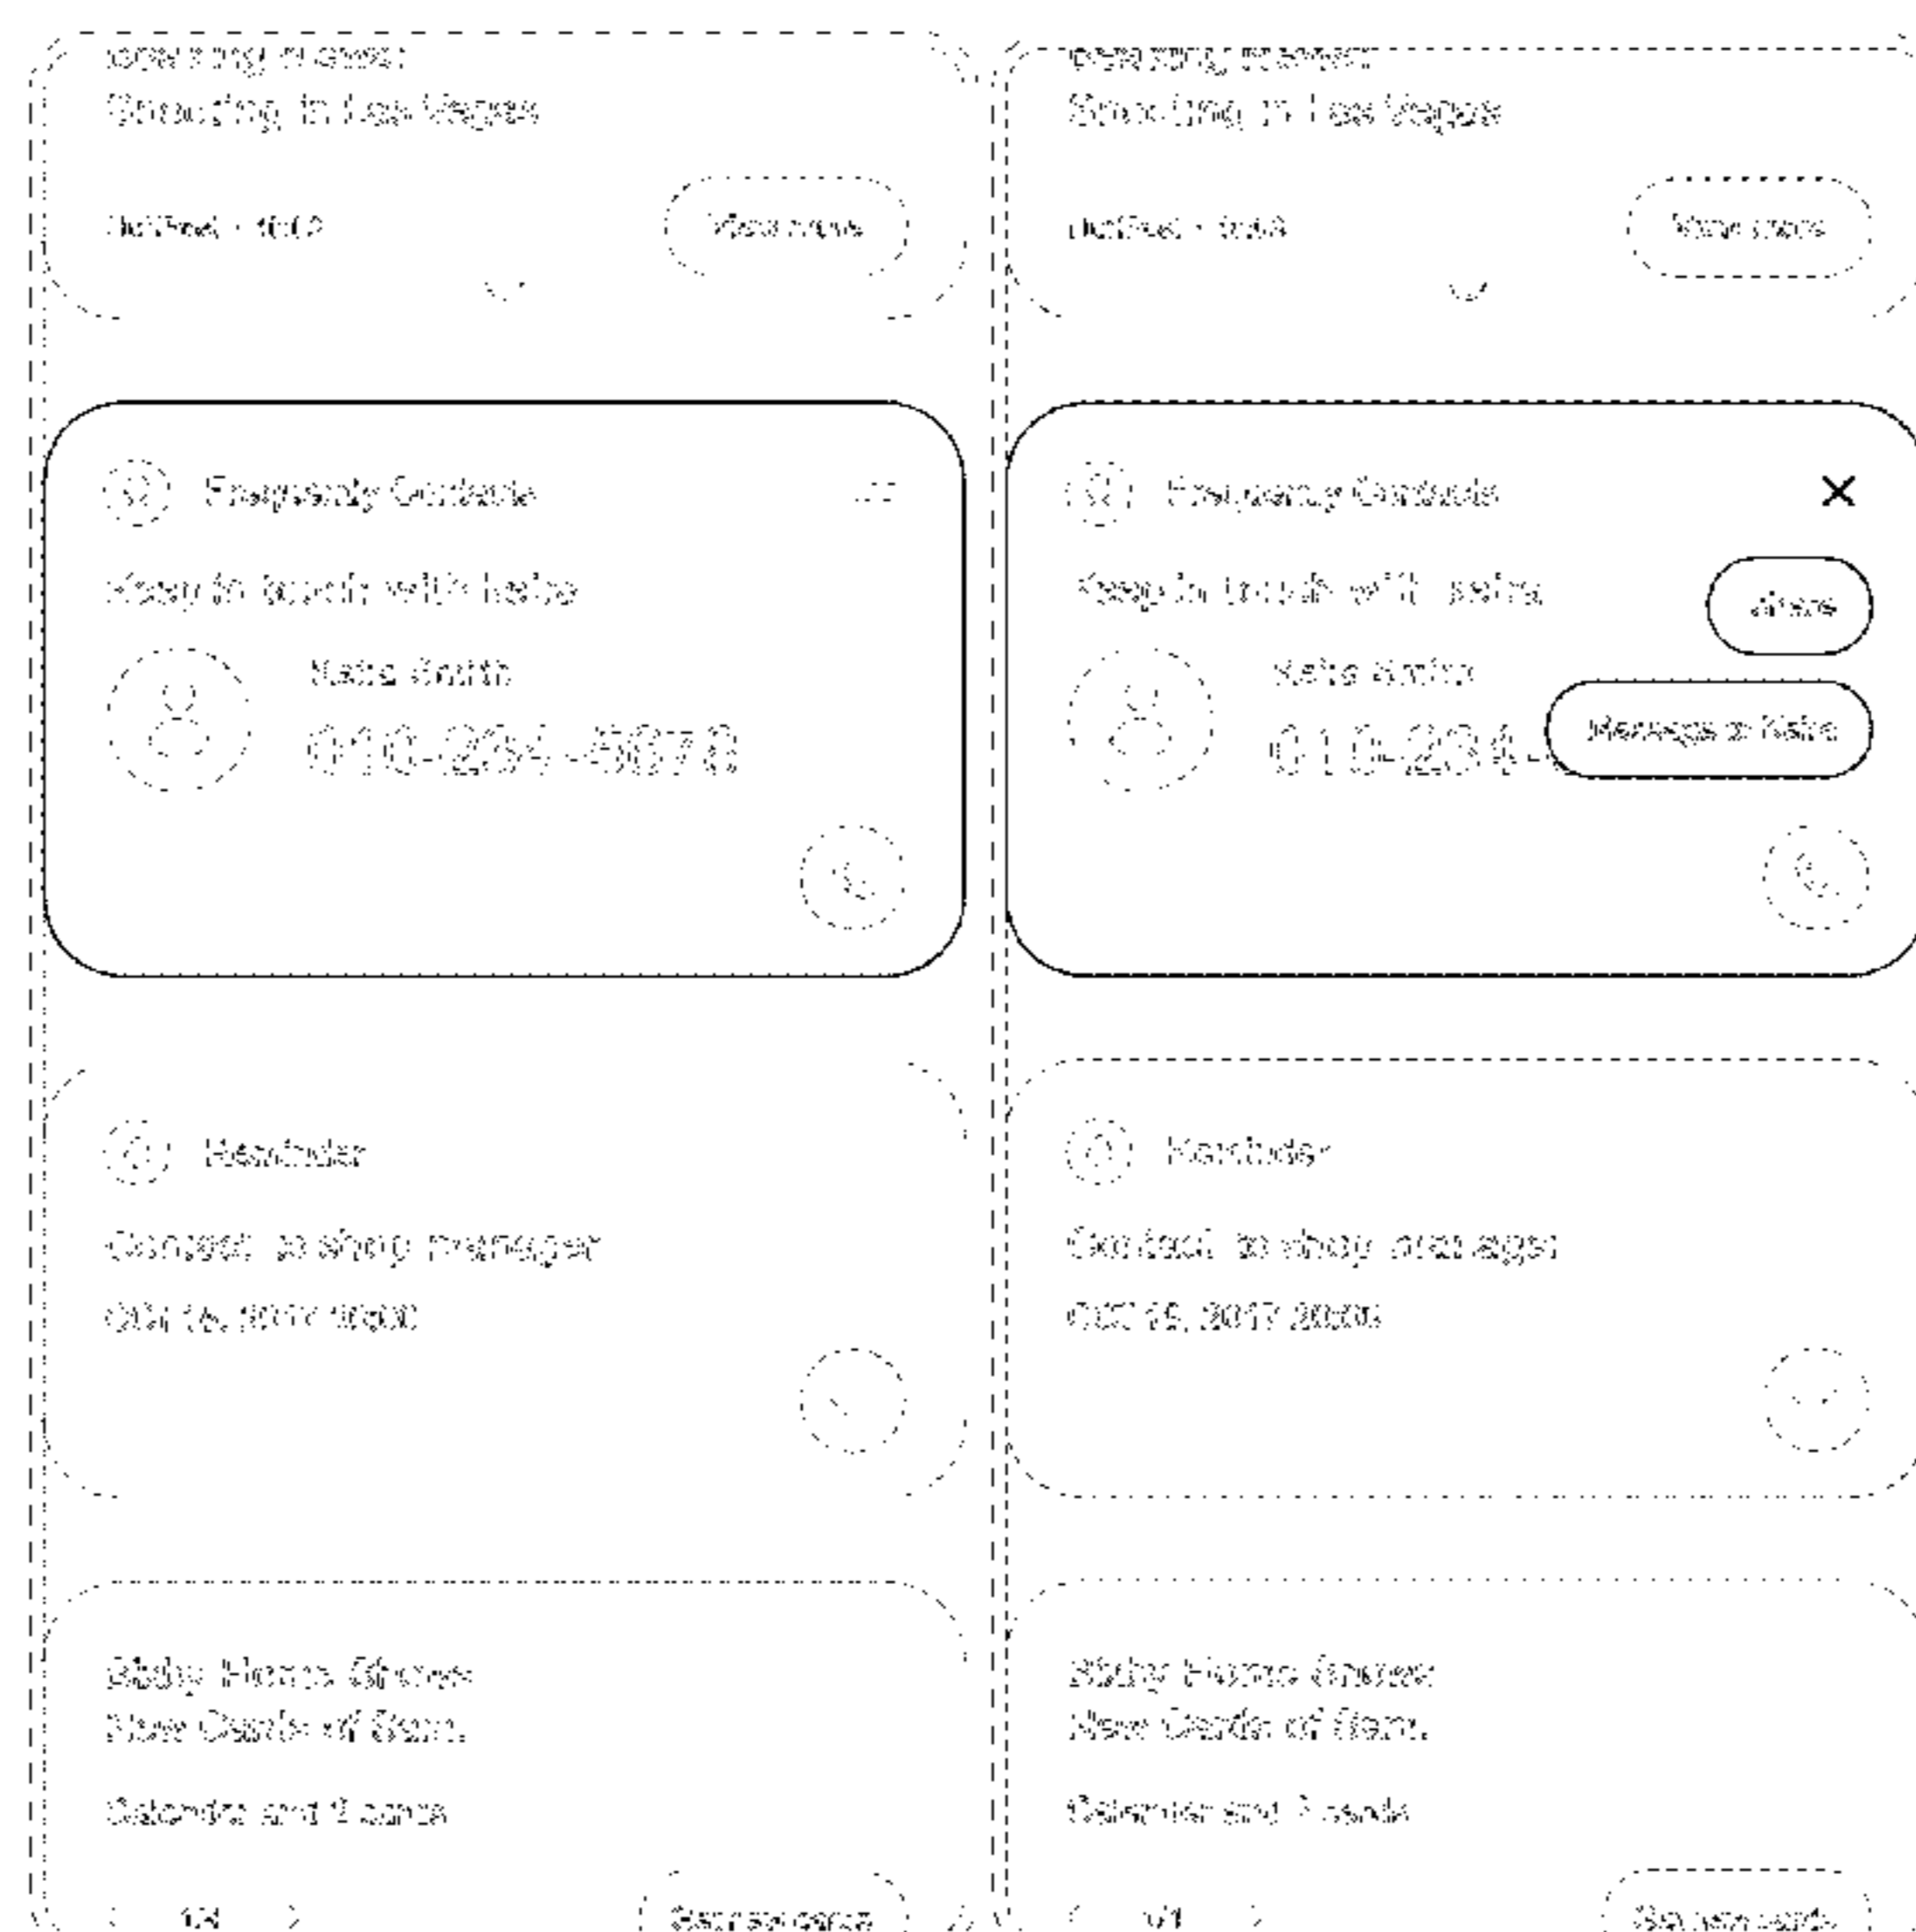

**DESCRIPTION**

FIG. 1 is the first image in a sequence for a display screen or portion thereof with transitional graphical user interface showing our new design; and, FIG. 2 is the second image thereof.

The outer perimeter shown in broken lines in the drawings illustrates a display screen or portion thereof and forms no part of the claimed design. The remaining broken lines in the drawings illustrate portions of the graphical user interface that form no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another image forms no part of the claimed design.
