(57) **CLAIM**

We claim the ornamental design for a sample processing apparatus, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a sample processing apparatus of the present invention.

FIG. 2 is a front elevation view of the sample processing apparatus of FIG. 1.

FIG. 3 is a rear elevation view of the sample processing apparatus of FIG. 1

FIG. 4 is a left side elevation view of the sample processing apparatus of FIG. 1.

FIG. 5 is a right side elevation view of the sample processing apparatus of FIG. 1.

FIG. 6 is a top plan view of the sample processing apparatus of FIG. 1.

FIG. 7 is a bottom plan view of the sample processing apparatus of FIG. 1.

FIG. 8 is a front elevation view of the sample processing apparatus of FIG. 1 with the front cover in an open position showing the arrangement of the internal processing platform of the apparatus.

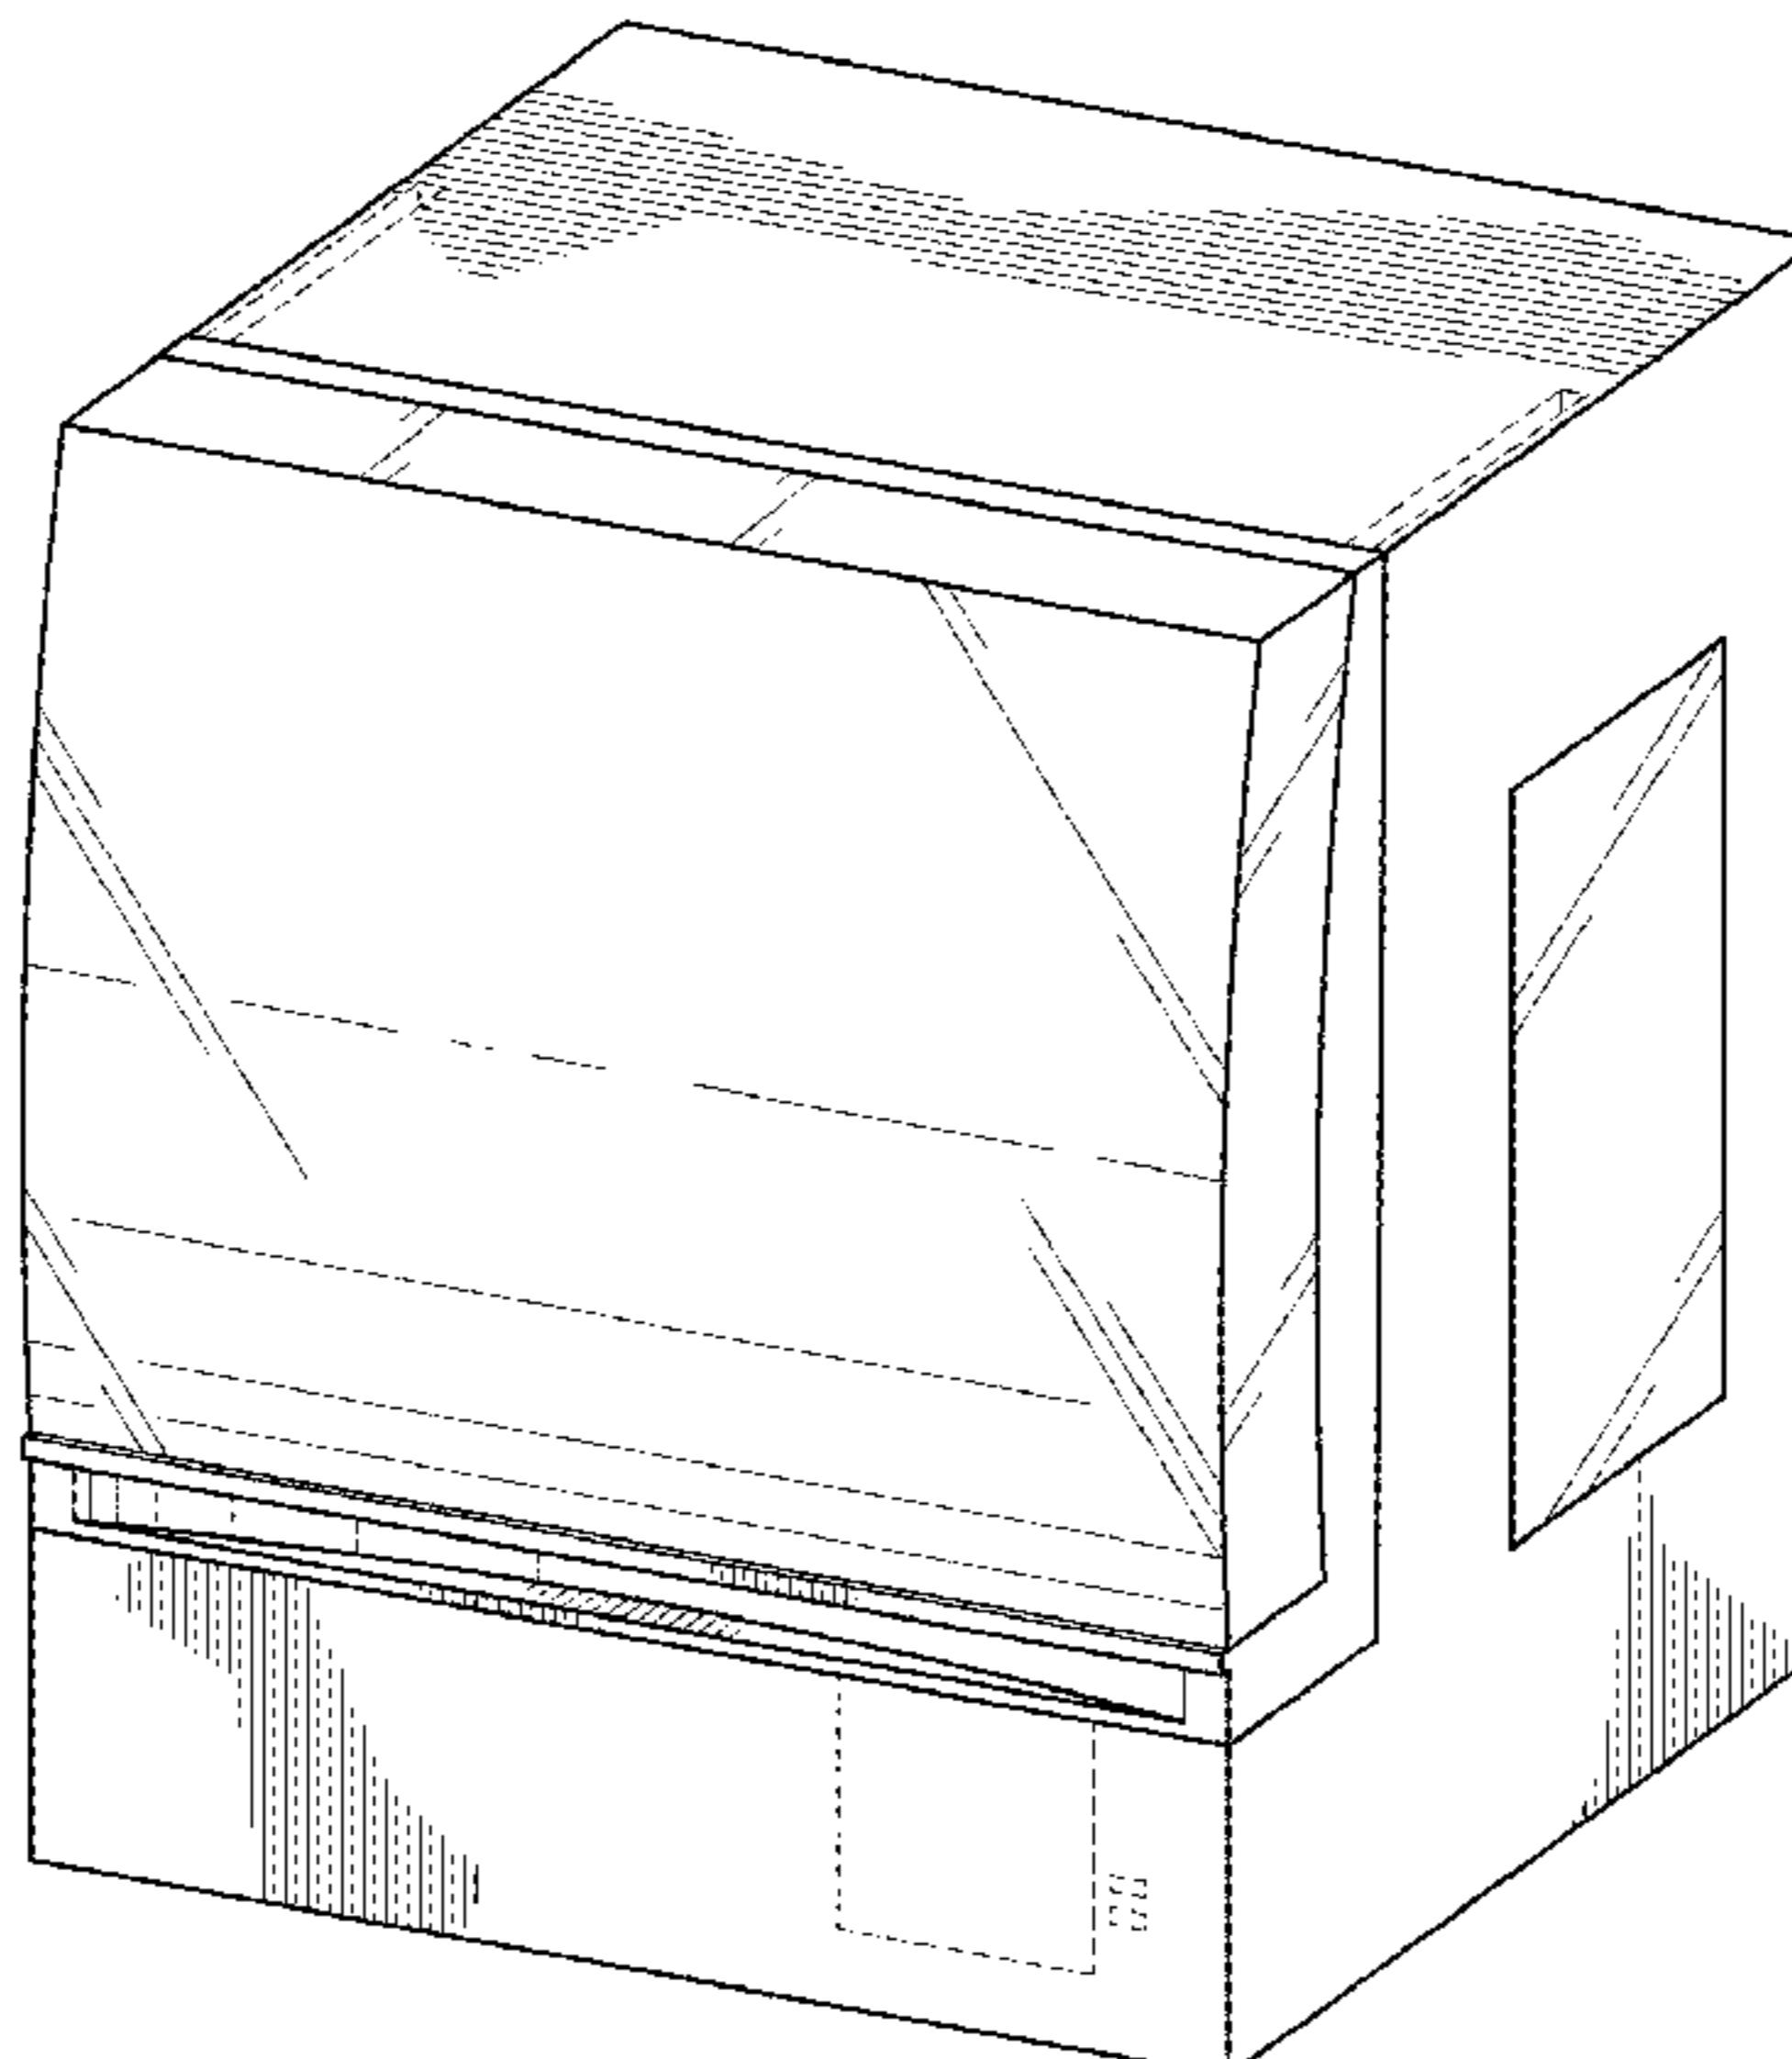

FIG. 9 a left side elevation view of the sample processing apparatus of FIG. 8.

FIG. 10 a right side elevation view of the sample processing apparatus of FIG. 8; and,

FIG. 11 is a cross-sectional plan of the sample processing apparatus of FIG. 8 taken along line 11-11 of FIG. 8 further showing the arrangement of the internal processing platform of the apparatus.

In the drawings, the broken lines depict portions of the sample processing apparatus that form no part of the claimed design.

1 Claim, 8 Drawing Sheets
