(57) **CLAIM**

The ornamental design for a ground fault circuit interrupter receptacle with dual indicator lights, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a ground fault circuit interrupter receptacle with dual indicator lights, showing our new design;

FIG. 2 is a side perspective view thereof;

FIG. 3 is an opposing side perspective view thereof;

FIG. 4 is a front view thereof;

FIG. 5 is a side view thereof;

FIG. 6 is an opposing side view thereof;

FIG. 7 is another front view of a ground fault circuit interrupter receptacle with dual indicator lights, showing our new design;

FIG. 8 is a side perspective view thereof;

FIG. 9 is an opposing side perspective view thereof;

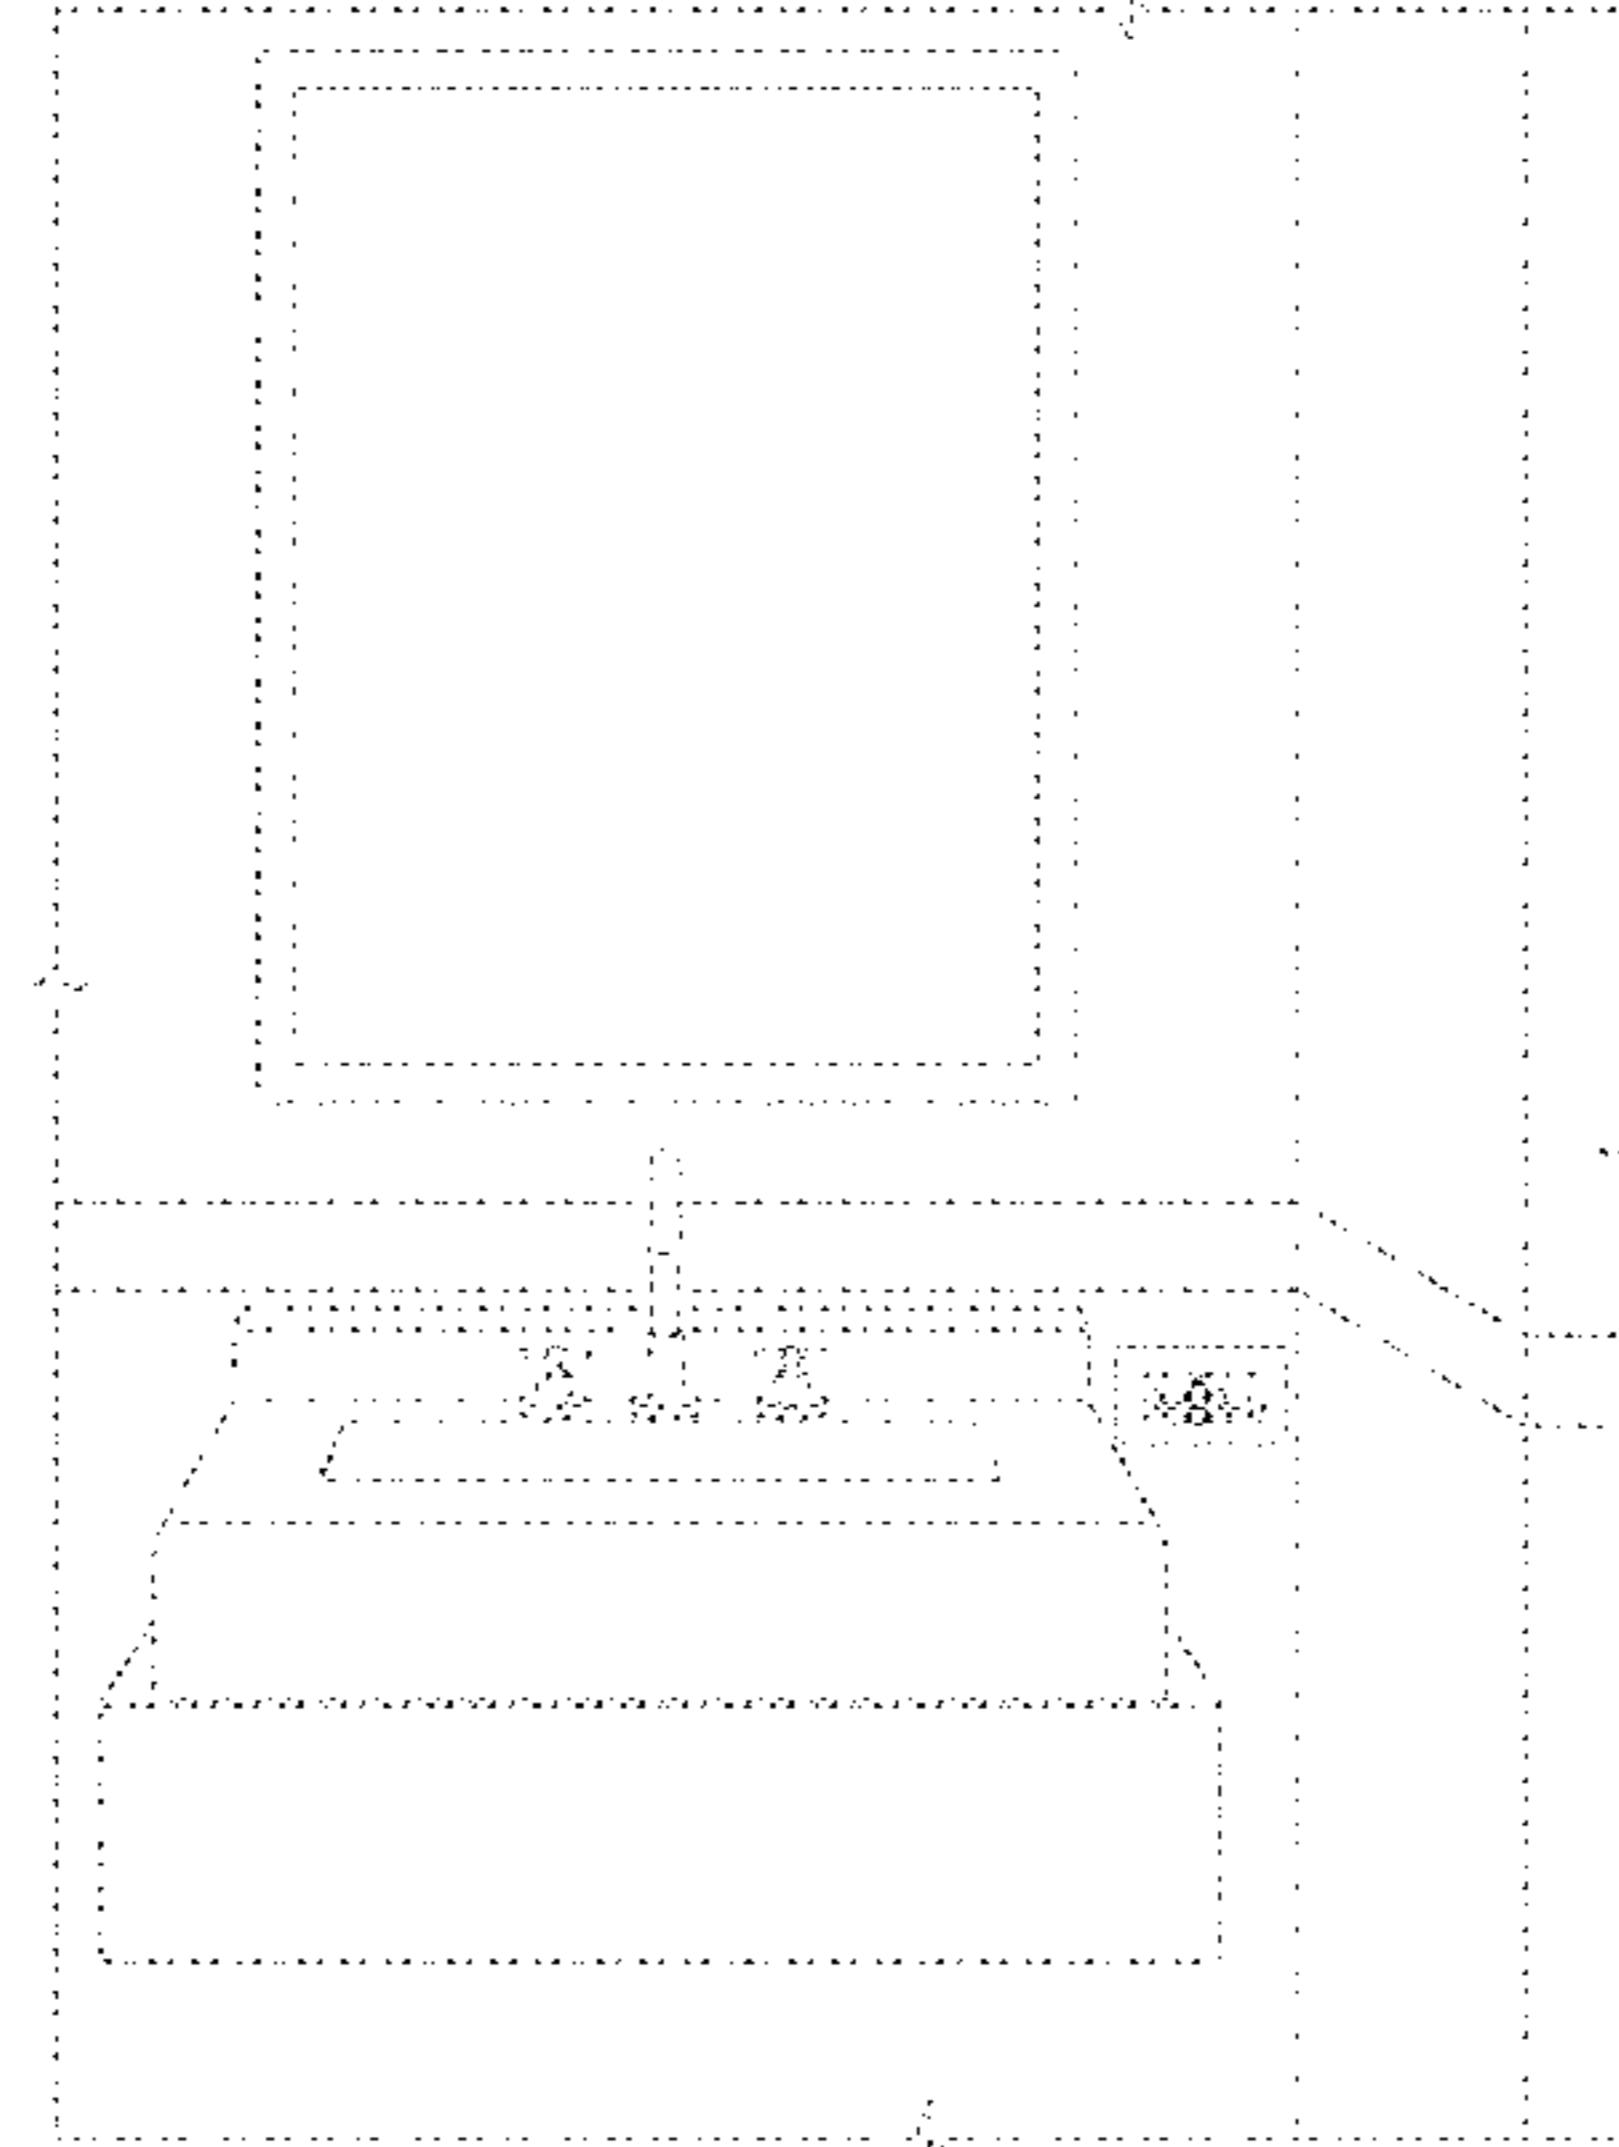

FIG. 10 is a front view thereof;

FIG. 11 is a side view thereof; and,

FIG. 12 is an opposing side view thereof.

In the drawings, the broken lines are for the purpose of illustrating portions of the ground fault circuit interrupter receptacle with dual indicator lights that form no part of the claimed design.

1 Claim, 8 Drawing Sheets
