(57) CLAIM

The ornamental design for a measurement device display screen with a graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a measurement device display screen with a graphical user interface showing a first embodiment of our new design.
FIG. 2 is a front view of a measurement device display screen with a graphical user interface showing a second embodiment of our new design.
FIG. 3 is a front view of a measurement device display screen with a graphical user interface showing a third embodiment of our new design; and,
FIG. 4 is a front view of a measurement device display screen with a graphical user interface showing a fourth embodiment of our new design.
The linear broken lines shown in the drawings illustrate portions of the measurement device display screen with a graphical user interface that form no part of the claimed design.
