(57) CLAIM

The ornamental design for a display panel or portion thereof with a transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display panel or portion thereof with a graphical user interface showing a first image in a sequence of our design;

FIG. 2 is a front view of a display panel or portion thereof with the graphical user interface showing a second image in the sequence thereof;

FIG. 3 is a front view of a display panel or portion thereof with the graphical user interface showing a third image in the sequence thereof;

FIG. 4 is a front view of a display panel or portion thereof with the graphical user interface showing a fourth image in the sequence thereof;

FIG. 5 is a front view of a display panel or portion thereof with the graphical user interface showing a fifth image in the sequence thereof;

FIG. 6 is a front view of a display panel or portion thereof with the graphical user interface showing a sixth image in the sequence thereof;

FIG. 7 is a front view of a display panel or portion thereof with the graphical user interface showing a seventh image in the sequence thereof; and,

FIG. 8 is a front view of a display panel or portion thereof with the graphical user interface showing an eighth image in the sequence thereof.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-8. The process or period in which one image transitions to another image forms no part of the claimed design.

The outermost broken line rectangle illustrates a display panel or portion thereof that forms no part of the claimed design. The remaining broken lines, including all text, illustrate portions of the graphical user interface and mixed reality environment that form no part of the claimed design.
