(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is front view of a display screen with transitional graphical user interface showing a first image in a sequence according to a first embodiment of the claimed design; FIG. 2 is a second image thereof; FIG. 3 is a third image thereof; FIG. 4 is a fourth image thereof; FIG. 5 is front view of a display screen with transitional graphical user interface showing a first image in a sequence according to a second embodiment of the claimed design; FIG. 6 is a second image thereof; FIG. 7 is a third image thereof; and, FIG. 8 is a fourth image thereof.

The appearance of the transition is sequential from FIG. 1 to FIG. 4 in the first embodiment and from FIG. 5 to FIG. 8 in the second embodiment of the claimed transitional graphical user interface.

The process or period in which an image transitions to another image forms no part of the claimed design.

The outermost broken line illustrates the display screen and a boundary, and the remaining broken lines illustrate portions of the transitional graphical user interface. None of the broken lines form part of the claimed design.
