(57) **CLAIM**

The ornamental design for a multi-component modular bakeware set, as shown and described.

**DESCRIPTION**

FIG. 1 is a top perspective view of a multi-component modular bakeware set showing the baking sheet, two of the square containers, and two of the rectangular containers of the new design;

FIG. 2 is a top plan view thereof;

FIG. 3 is a left side view thereof;

FIG. 4 is a right side view thereof;

FIG. 6 is a back view thereof;

FIG. 7 is a bottom view thereof;

FIG. 8 is an exploded view of the baking sheet, two square containers, and two rectangular containers of FIG. 1;

FIG. 9 is a top perspective view of one of the rectangular containers of the multi-component modular bakeware set shown separately to show aspects of the design that are not visible when combined;

FIG. 10 is a top plan view thereof;

FIG. 11 is a bottom view thereof;

FIG. 12 is a front view thereof;

FIG. 13 is a left side view thereof, the right side view being identical;

FIG. 14 is a top perspective view of one of the square containers of the multi-component modular bakeware set shown separately to show aspects of the design that are not visible when combined;

FIG. 15 is a top plan view thereof;

FIG. 16 is a bottom view thereof;

FIG. 17 is a front view thereof, the back view, left side view and right side view being identical;

FIG. 18 is a top perspective view of the baking sheet of the multi-component modular bakeware set shown separately to show aspects of the design that are not visible when combined;

FIG. 19 is a top plan view thereof;

FIG. 20 is a bottom view thereof;

FIG. 21 is a left side view thereof, the right side view being identical;

(Continued)

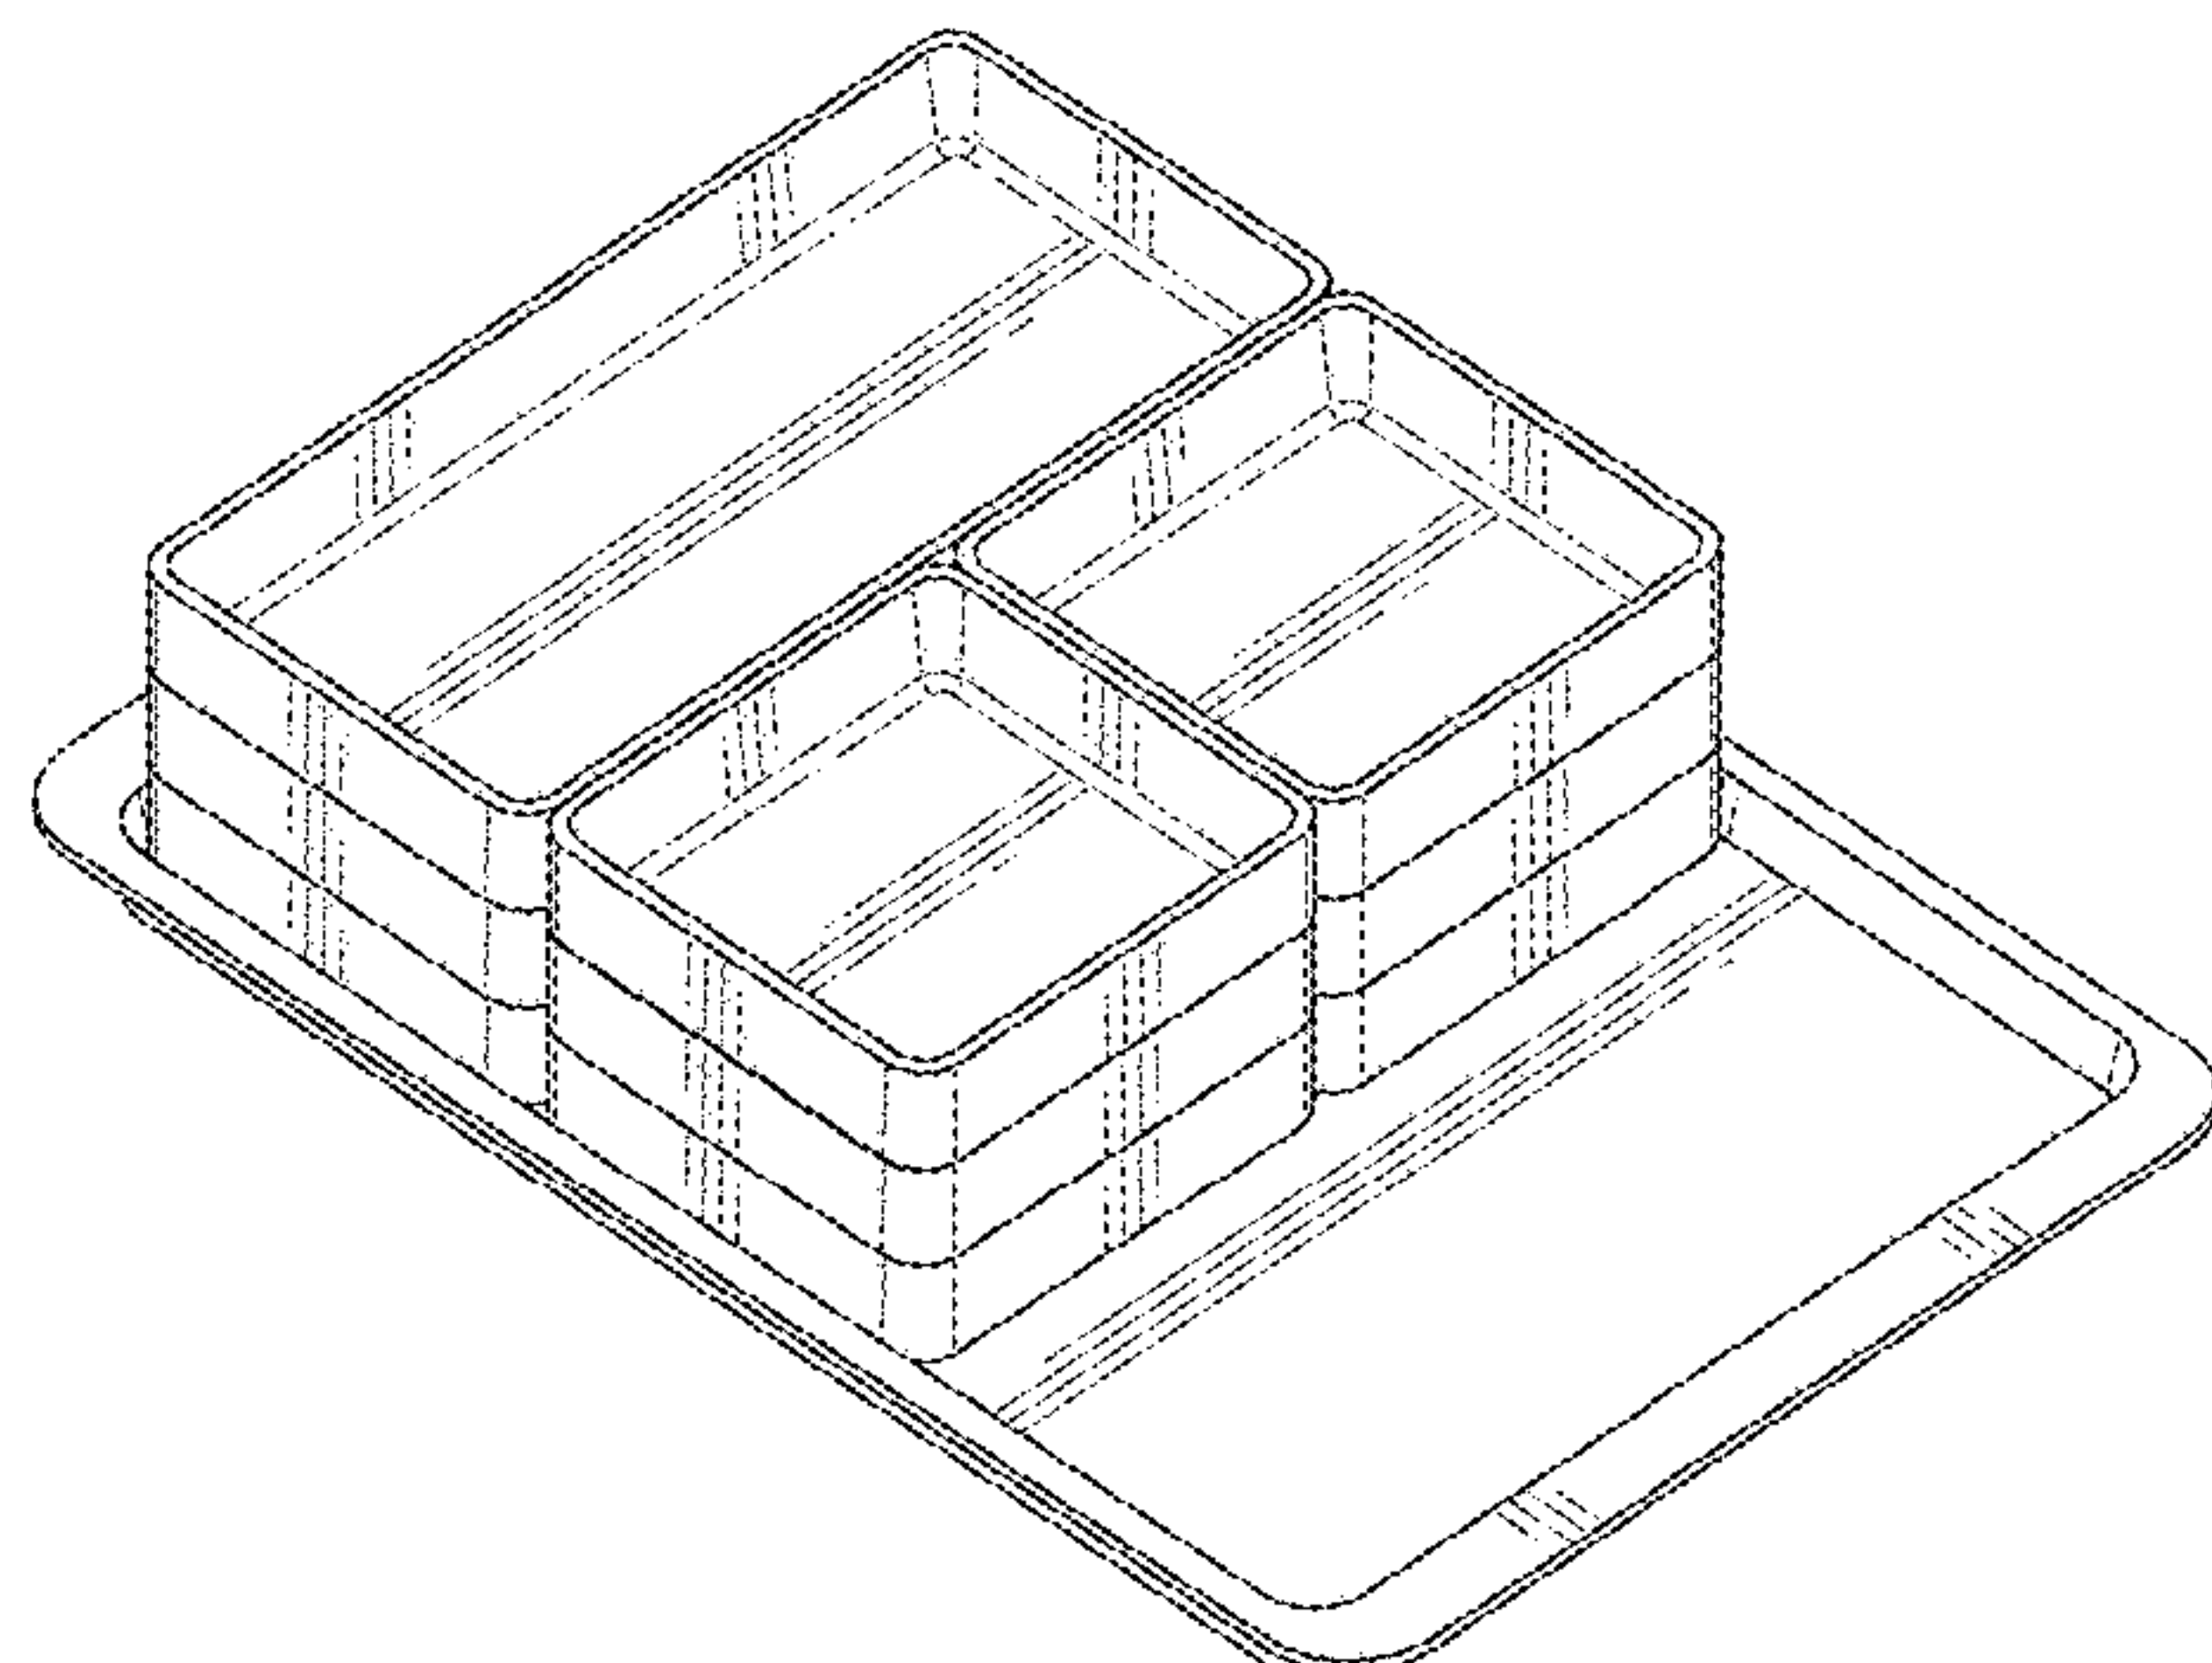

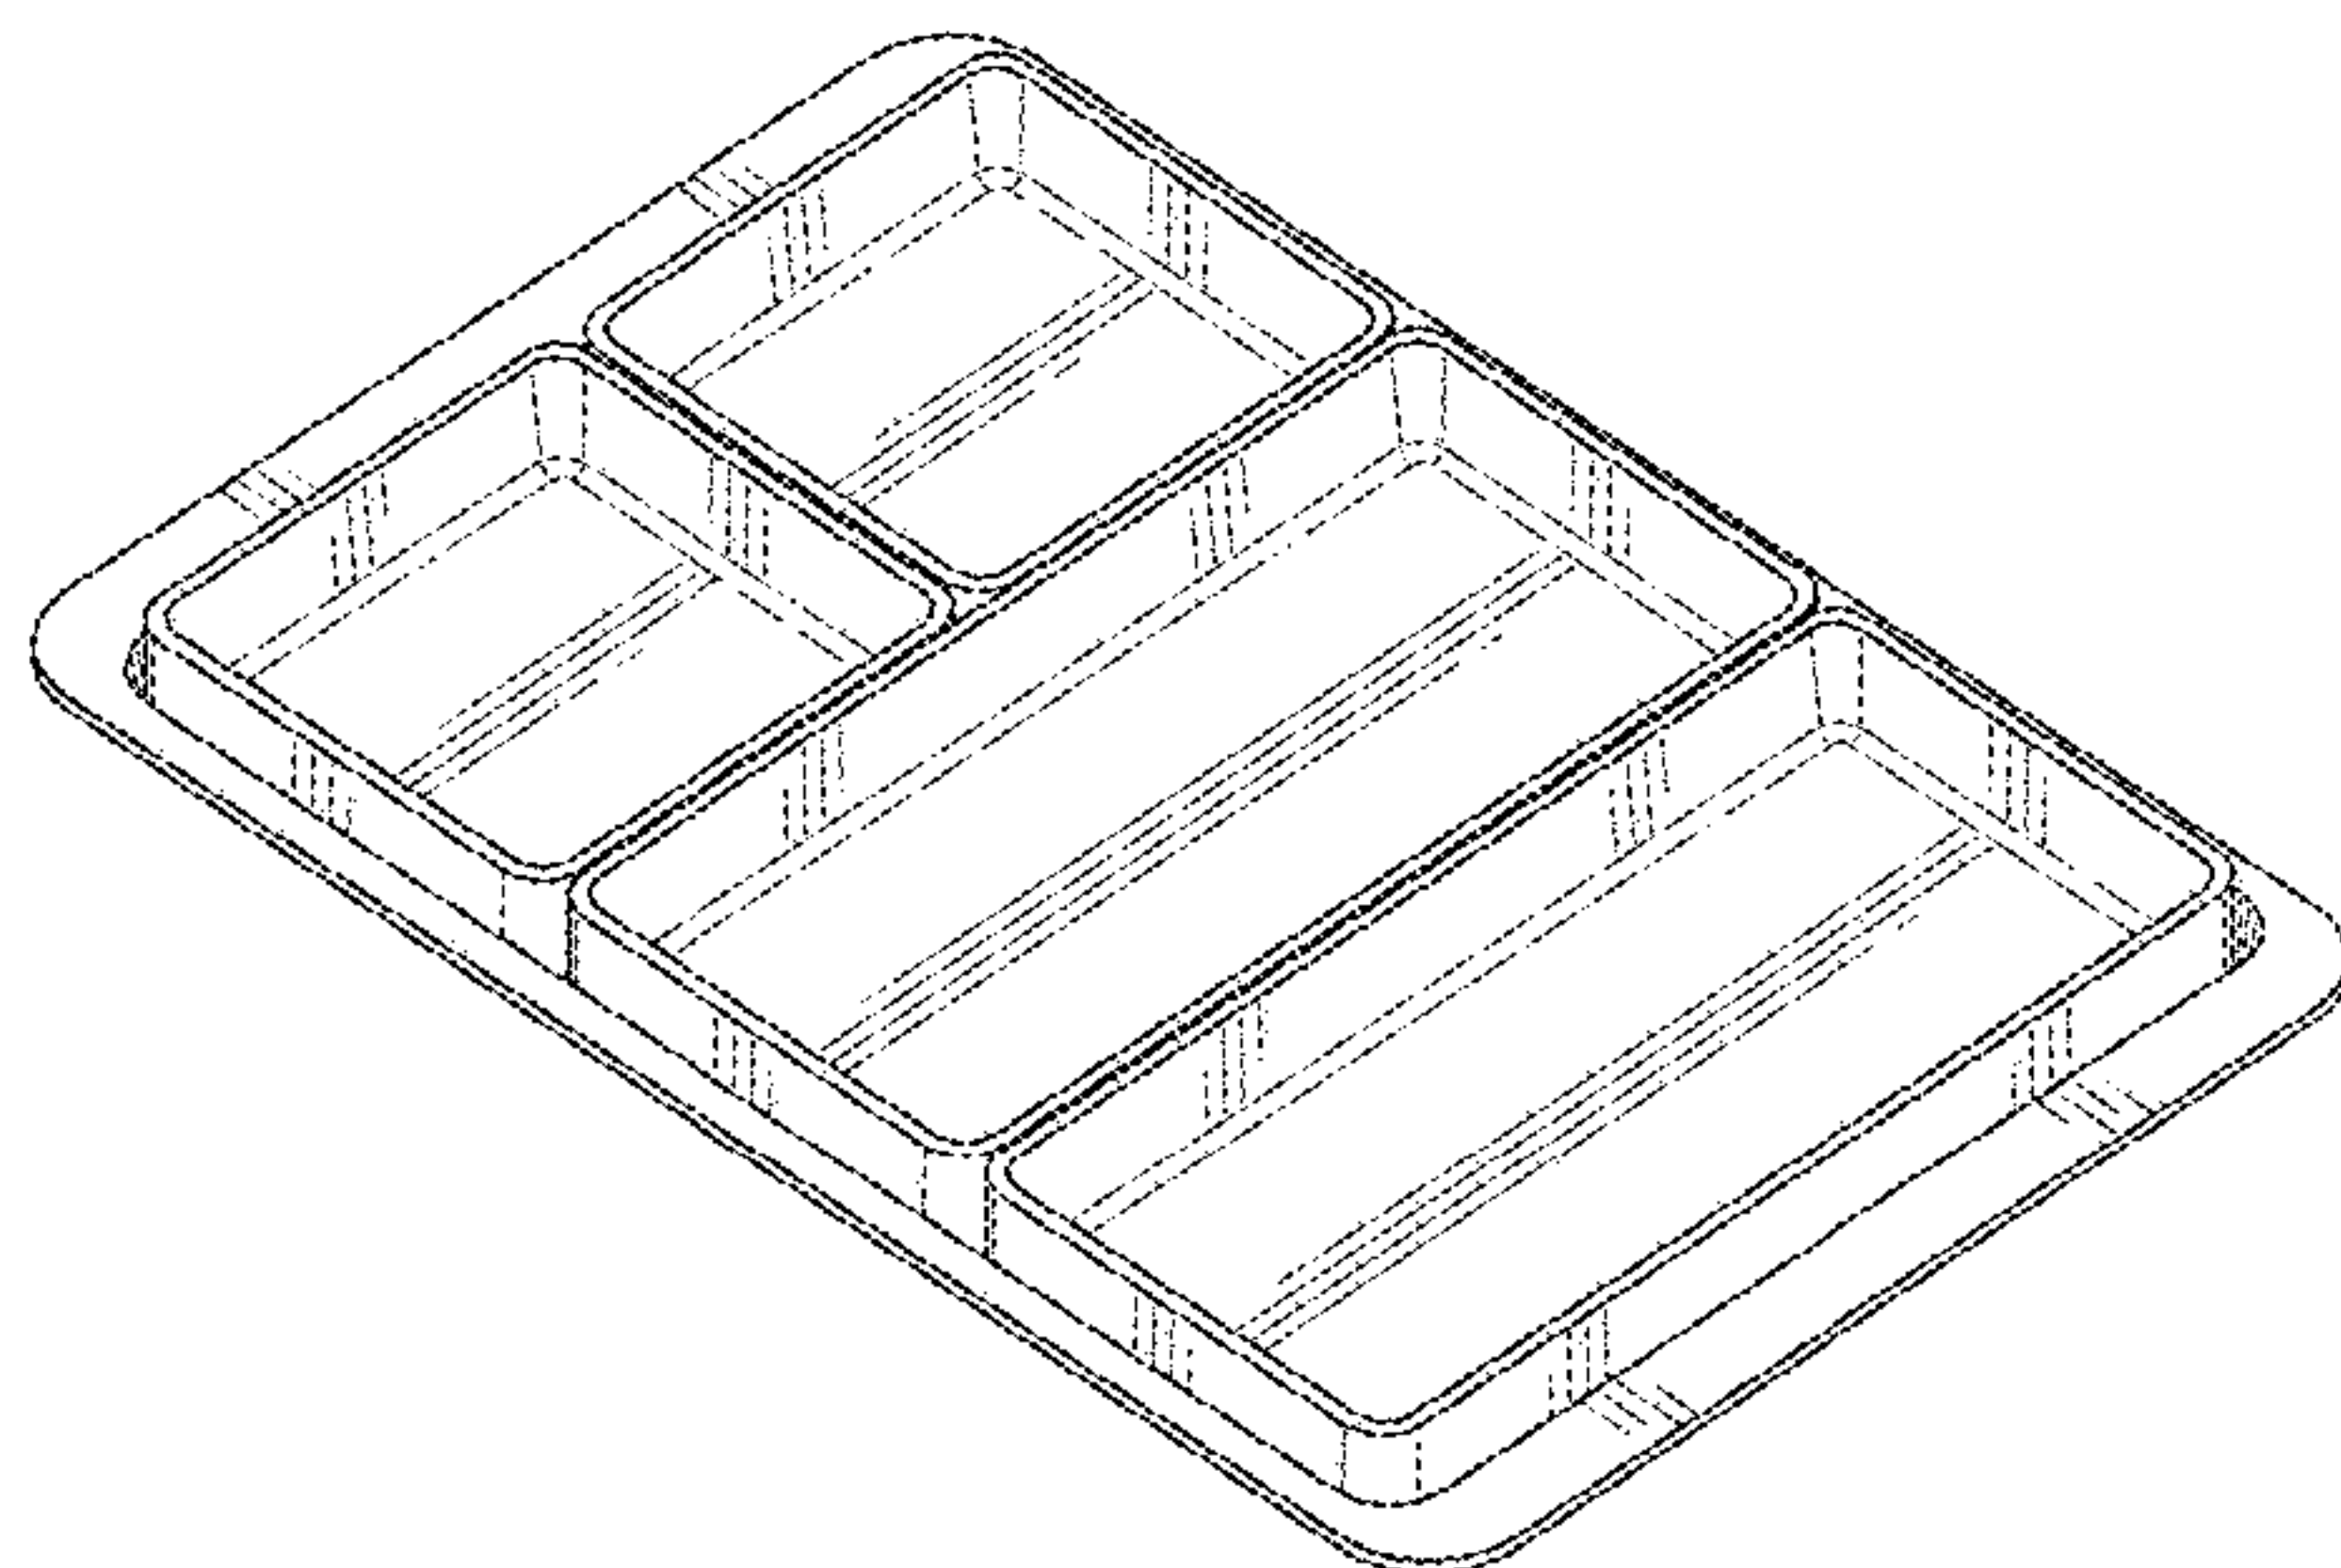

FIG. 22 is a front view thereof, the back view being identical;

FIG. 23 is a top perspective view of the multi-component modular bakeware set showing another configuration with the baking sheet and six stacked square containers, shown without the rectangular containers;

FIG. 24 is a top perspective view of the multi-component modular bakeware set showing another configuration with the baking sheet, six stacked square containers and three stacked rectangular containers;

FIG. 25 is a top perspective view of the multi-component modular bakeware set showing another configuration with the baking sheet and three rectangular containers, shown without the square containers;

FIG. 26 is a top perspective view of the multi-component modular bakeware set showing another configuration with the baking sheet, four square containers, and one rectangular container;

FIG. 27 is a top perspective view of the three stacked square containers of the multi-component modular bakeware set, shown without the baking sheet and rectangular containers in another configuration;

FIG. 28 is a top perspective view of the three stacked rectangular containers of the multi-component modular bakeware set, shown without the baking sheet and square containers in another configuration;

FIG. 29 is a top perspective view of the three rectangular containers of the multi-component modular bakeware set, shown without the baking sheet or square containers in another configuration; and,

FIG. 30 is a top perspective view of four of the square containers and one of the rectangular containers of the multi-component modular bakeware set, shown without the baking sheet in another configuration.

The broken lines shown in the drawings depict portions of the multi-component modular bakeware set that form no part of the claimed design.
