(57) **CLAIM**

The ornamental design for a display screen or portions thereof with animated graphical user interface, as shown and described.

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a first image in a sequence of a display screen or portions thereof with animated graphical user interface showing our new design according to a first embodiment; FIG. 2 is a second image thereof; FIG. 3 is a third image thereof; FIG. 4 is a fourth image thereof; and, FIG. 5 is a fifth image thereof.

The outermost dashed broken lines in the figures illustrate a display device comprising a display screen or a portion thereof, and form no part of the claimed design. The additional dashed broken lines within the outermost dashed broken lines represent elements or aspects of the graphical user interface that form no part of the claimed design. The dotted lines in FIGS. 1-2 and FIG. 5 form no part of the claimed design.

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-5. The process or period in which one image transitions to another image forms no part of the claimed design.
