283/115

FIG. 1 is a front view of an electronic display screen with graphical user interface with a first example of a patient orientation element; and,

FIG. 2 is an enlarged view of the patient orientation element of FIG. 1.

The broken rectangular lines showing the electronic display screen form no part of the claimed design. The regular dashed broken lines and long-short dashed broken lines showing the unclaimed environment of the graphical user interface with patient orientation element form no part of the claimed design.
