(57) **CLAIM**

The ornamental design for a computer display with animated graphical user interface showing a risk score, as shown and described.

DESCRIPTION

The file of this patent contains at least one drawing executed in color. Copies of this patent with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a first image in a first sequence for a computer display with animated graphical user interface showing a risk score;

FIG. 2 is a second image in the first sequence;

FIG. 3 is a third image in the first sequence;

FIG. 4 is a fourth image in the first sequence;

FIG. 5 is a first image in a second sequence for a computer display with animated graphical user interface showing a risk score;

FIG. 6 is second image in the second sequence;

FIG. 7 is a third image in the second sequence; and,

FIG. 8 is a fourth image in the second sequence.

In each Figure, the broken line showing of the computer display or portion thereof and portions of the graphical user interface illustrate the environment of the claimed design and form no part thereof.

The appearance of the animated graphical user interface sequentially transitions between the images shown in FIGS. 1-4 and between the images shown in FIG. 5-8. The process or period in which one image transitions to another image forms no part of the claimed design.
