(57) **CLAIM**

The ornamental design for an adjustable transition mount, as shown and described.

DESCRIPTION

FIG. 1 is a top right perspective of an adjustable transition mount, according to the present invention.
FIG. 2 is a top left perspective of the adjustable transition mount of FIG. 1;
FIG. 3 is a bottom left perspective of the adjustable transition mount of FIG. 1;
FIG. 4 is a left side elevation view of the adjustable transition mount of FIG. 1;
FIG. 5 is a right side elevation view of the adjustable transition mount of FIG. 1;
FIG. 6 is a front elevation view of the adjustable transition mount of FIG. 1;
FIG. 7 is a back elevation view of the adjustable transition mount of FIG. 1;
FIG. 8 is a top plan view of the adjustable transition mount of FIG. 1; and,
FIG. 9 is a bottom plan view of the adjustable transition mount of FIG. 1.
