(Continued)

The broken line at the periphery of the figures illustrate a display screen, and the remainder of the broken lines illustrate portions of the transitional graphical user interface. None of the broken lines form part of the claimed design. Shading in FIGS. 4-6 depicts contrasts in appearance of the transitional graphical user interface. The appearance of the animated image sequentially transitions between the images shown in FIGS. 1 through 3 and FIGS. 4 through 6, respectively. The process or period in which one image transitions to another forms no part of the claimed design.
