(57) CLAIM

The ornamental design for an absorbent article package, as shown and described.

DESCRIPTION

FIG. 1 is a perspective front view of an embodiment of an absorbent article package embodying the new design; FIG. 2 is a front view of the design shown in FIG. 1; and FIG. 3 is a right side view of the design shown in FIG. 1; the left side, top, bottom, and back views are similar and thus omitted.

FIG. 4 is a perspective front view of another embodiment of an absorbent article package embodying the new design; FIG. 5 is a front view of the design shown in FIG. 4; and FIG. 6 is a right side view of the design shown in FIG. 4; the left side, top, bottom, and back views are similar and thus omitted.

FIG. 7 is a perspective front view of another embodiment of an absorbent article package embodying the new design; FIG. 8 is a front view of the design shown in FIG. 7; and FIG. 9 is a right side view of the design shown in FIG. 7; the left side, top, bottom, and back views are similar and thus omitted.

FIG. 10 is a perspective front view of another embodiment of an absorbent article package embodying the new design; FIG. 11 is a front view of the design shown in FIG. 10; and FIG. 12 is a right side view of the design shown in FIG. 10; the left side, top, bottom, and back views are similar and thus omitted.

FIG. 13 is a perspective front view of another embodiment of an absorbent article package embodying the new design; FIG. 14 is a front view of the design shown in FIG. 13; and FIG. 15 is a right side view of the design shown in FIG. 13; the left side, top, bottom, and back views are similar and thus omitted.

FIG. 16 is a perspective front view of another embodiment of an absorbent article package embodying the new design; FIG. 17 is a front view of the design shown in FIG. 16; and, FIG. 18 is a right side view of the design shown in FIG. 16; the left side, top, bottom, and back views are similar and thus omitted.

Further embodiments of the claimed design include the mirror images of the embodiments described above.

Where stippling is shown, stippling indicates a color or pattern of a first portion contrasting with a color or pattern of an adjacent portion shown without stippling. Where differing stippling patterns are shown in adjacent first and second portions, this indicates colors or patterns in respective adjacent first and second portions, that contrast with each other.

Broken lines shown in the figures described above are for purposes of illustrating environmental structure and form no part of the claimed design.
