(57) **CLAIM**

The ornamental design for a display screen or portion thereof with animated graphical user interface, substantially as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen or portion thereof with animated graphical user interface showing a first image of the claimed design; and, FIG. 2 is a second image thereof.

The broken line showing of text and graphic elements forms no part of the claimed design.

The outmost dot-dashed lines in the figures show a display screen or portion thereof, and form no part of the claimed design.

The appearance of the animated image transitions sequentially between the images shown in FIGS. 1-2. The process or period in which an image transitions to another forms no part of the claimed design.
