(57) **CLAIM**

The ornamental design for a display screen with interface for geo-networking website, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with interface for geo-networking website showing my new design; and, FIG. 2 is a front view of a second image thereof. The broken line showing of a display screen or portion thereof and graphical elements within the display screen are not part of the claimed design. The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another forms no part of the claimed design.
