(57) **CLAIM**

We claim the ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is front view of a first image in a sequence for a display screen with animated graphical user interface; FIG. 2 is a front view of a second image thereof; FIG. 3 is a front view of a third image thereof; FIG. 4 is a front view of a fourth image thereof; FIG. 5 is a front view of a fifth image thereof; FIG. 6 is a front view of a sixth image thereof; FIG. 7 is a front view of a seventh image thereof; FIG. 8 is a front view of an eighth image thereof; FIG. 9 is a front view of a ninth image thereof; FIG. 10 is a front view of a tenth image thereof; FIG. 11 is a front view of an eleventh image thereof; FIG. 12 is a front view of a twelfth image thereof; and, FIG. 13 is a front view of a thirteenth image thereof.

The figures are a front view of a display screen with animated graphical user interface. The dash-dot broken lines showing the display screen are included for the purpose of illustrating environmental structure and portions of the user interface that form no part of the claimed design. The dash-dash broken lines illustrate portions of the user interface for menu navigation that form no part of the claimed design.

The shading within the figures shows the contrasting surfaces, which form part of the claimed design.

The appearance of the image transitions sequentially between the images shown in FIGS. 1-13. The process or period in which an image transitions to another forms no part of the claimed design.

1 Claim, 13 Drawing Sheets
