(57) **CLAIM**

The ornamental design for a container for receiving high temperature material, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a container for receiving high temperature material showing my new design;
FIG. 2 is a top view thereof;
FIG. 3 is a side view thereof; and,
FIG. 4 is a bottom view thereof.
The even dashed broken lines shown in the drawings represent portions of the container for receiving high temperature material that form no part of the claimed design.
The mid-section of the container for receiving high temperature material is shown broken away to indicate that no particular length is claimed. The portion between the break lines is not shown and forms no part of the claimed design.
