(57) **CLAIM**

The ornamental design for a payment card with a box, as shown and described.

DESCRIPTION

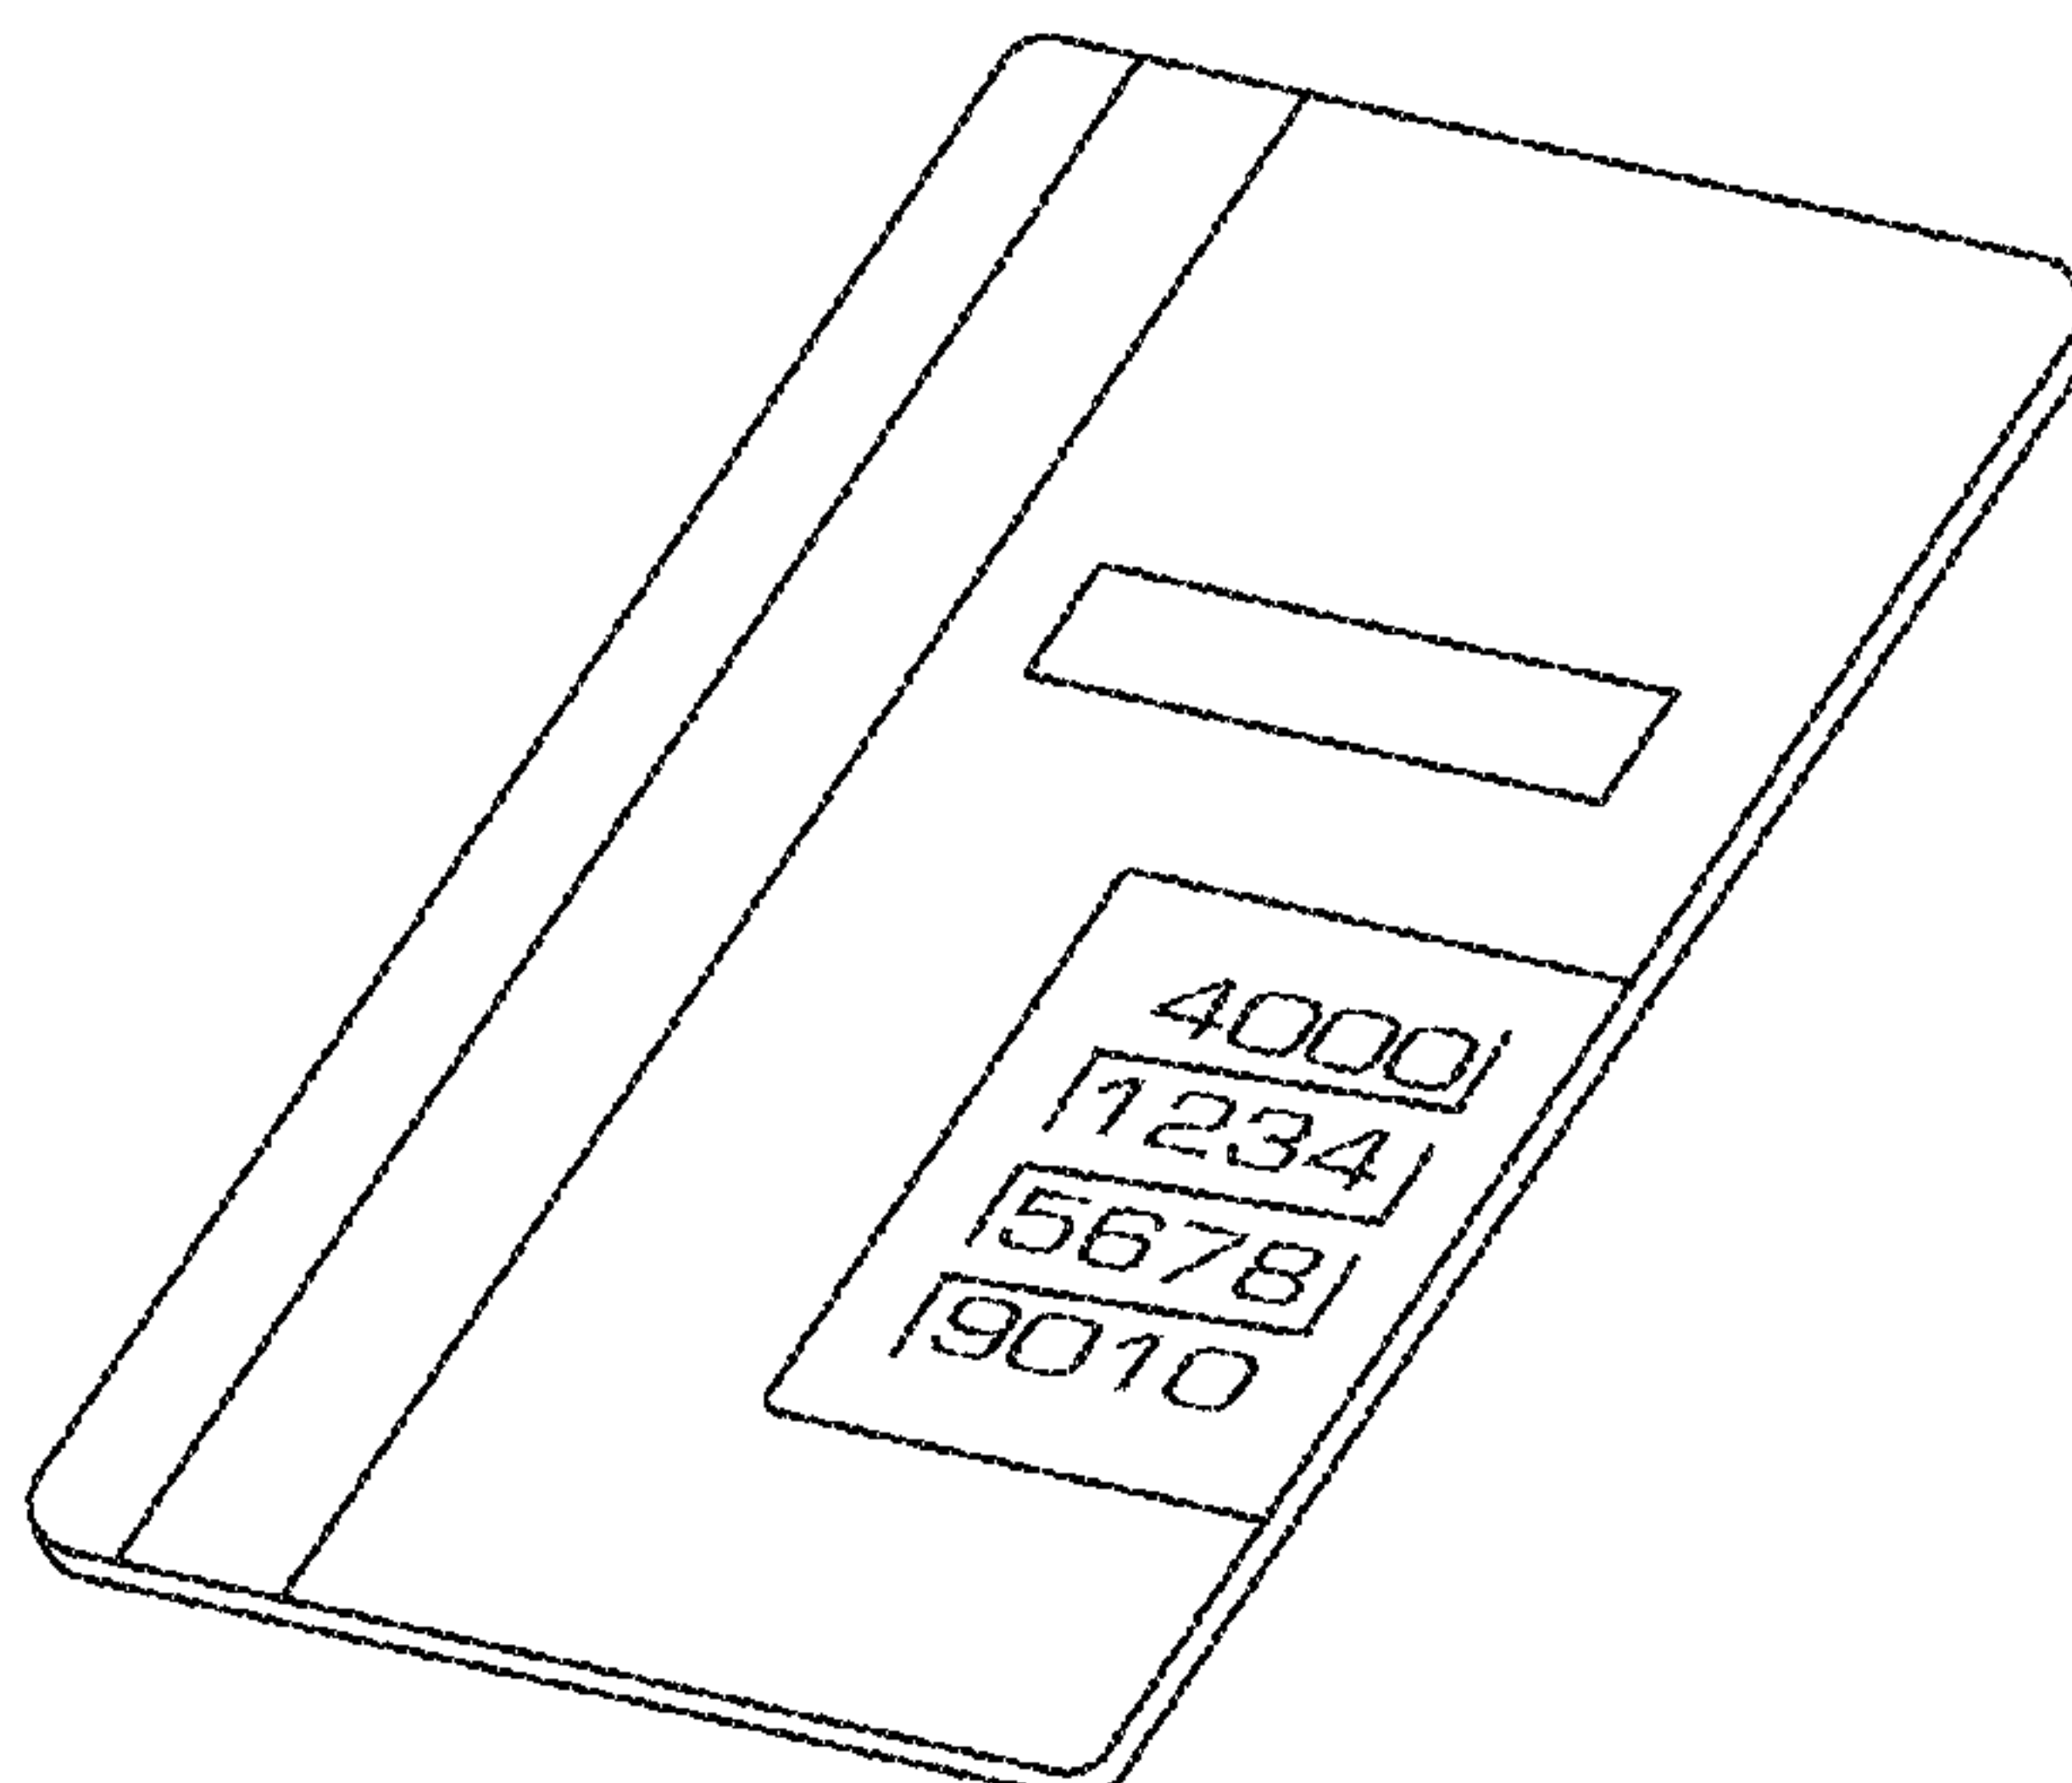

FIG. 1 is a first side perspective view of a payment card with a box showing our new design;
FIG. 2 is a second side view thereof;
FIG. 3 is a first side view thereof;
FIG. 4 is a top elevational view thereof;
FIG. 5 is a bottom elevational view thereof;
FIG. 6 is a left side elevational view thereof; and,
FIG. 7 is a right side elevational view thereof.

The first side may be either the front or the back of the payment card with a box. Likewise, the second side may be either the front or the back. For example, the first side perspective view may be a back side perspective view, the first side view may be a back side view, and the second side view may be a front side view. Alternatively, the first side perspective view may be a front side perspective view, the first side view may be a front side view, and the second side view may be a back side view.

Color may or may not form part of the claimed design. Gradients or degrees of contrast or saturation that impart a tone may or may not form part of the claimed design. Accordingly, portions of the illustrated payment card with a box may appear in one or more color, in one or more tone, or with one or more visual characteristics that differ in color and/or tone.

It should be appreciated that the nature of the claimed design may include variations from the presently illustrated design, having a substantially similar scope appropriate to the claimed design, within the bounds of the claimed region of the design, and using the same box presented in the ornamental layout of the claimed design.
