FIG. 1 is a front view of the first image in a sequence for a display screen with graphical user interface for organizing conversations by date, FIG. 2 is a second image of the sequence of the new design. FIG. 3 is a third image of the sequence of the new design, according to a first embodiment of the new design; and, FIG. 4 is a third image of the sequence of the new design, according to a second embodiment of the new design. The broken lines showing a device illustrate environmental structure and form no part of the claimed design. All other broken lines show portions of the graphical user interface and form no part of the claimed design. The outer solid line rectangle shows the display screen, which forms part of the claimed design.

See application file for complete search history.

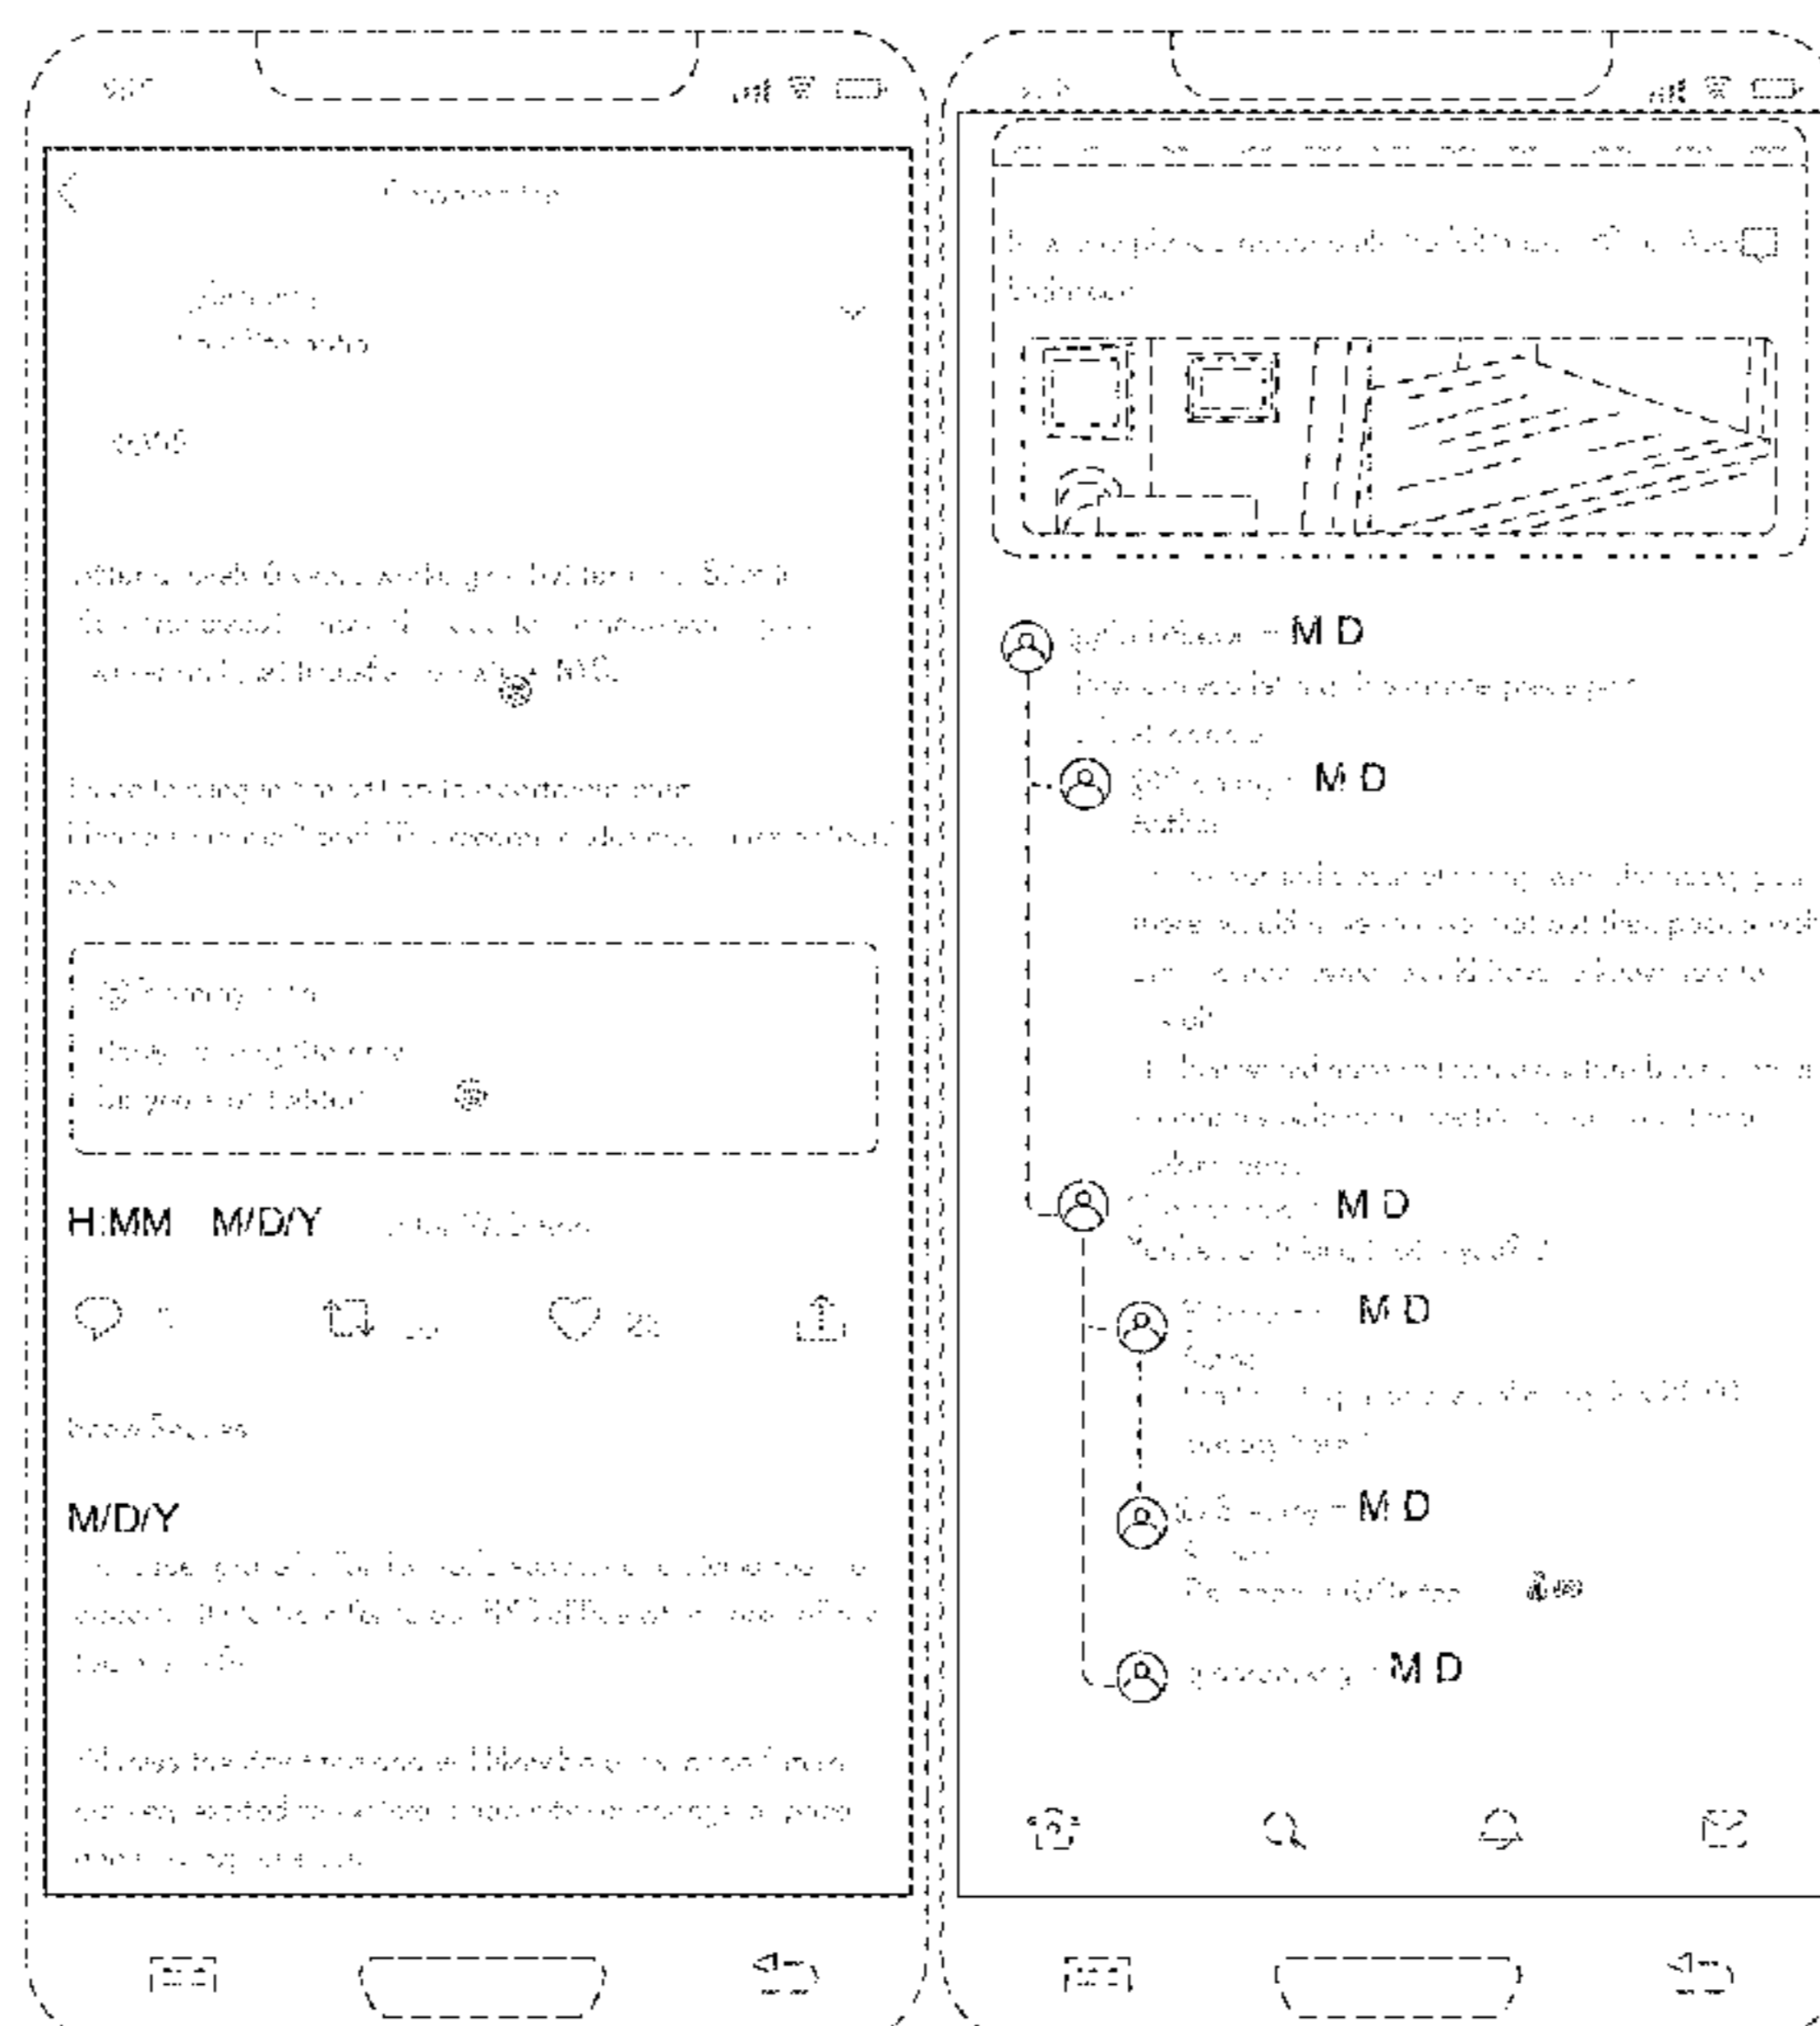

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1, 2, and 3, and between the images shown in FIGS. 1, 2, and 4. The process or period in which one image transitions to another image forms no part of the claimed design.
