(57) CLAIM

The ornamental design for a personal computing device, as shown and described.

DESCRIPTION

FIG. 1 is a front, bottom, and left side perspective view of the personal computing device showing the new design according to a first embodiment.

FIG. 2 is a rear, top, and right side perspective view of the personal computing device showing the new design according to a first embodiment.

FIG. 3 is a top view of the personal computing device showing the new design according to a first embodiment.

FIG. 4 is a bottom view of the personal computing device showing the new design according to a first embodiment.

FIG. 5 is a left side view of the personal computing device showing the new design according to a first embodiment.

FIG. 6 is a right side view of the personal computing device showing the new design according to a first embodiment.

FIG. 7 is a front view of the personal computing device showing the new design according to a first embodiment.

FIG. 8 is a rear view of the personal computing device showing the new design according to a first embodiment.

FIG. 9 is a front, bottom, and left side perspective view of the personal computing device showing the new design according to a second embodiment.

FIG. 10 is a rear, top, and right side perspective view of the personal computing device showing the new design according to a second embodiment.

FIG. 11 is a top view of the personal computing device showing the new design according to a second embodiment.

FIG. 12 is a bottom view of the personal computing device showing the new design according to a second embodiment.

FIG. 13 is a left side view of the personal computing device showing the new design according to a second embodiment.

FIG. 14 is a right side view of the personal computing device showing the new design according to a second embodiment.

FIG. 15 is a front view of the personal computing device showing the new design according to a second embodiment; and,

FIG. 16 is a rear view of the personal computing device showing the new design according to a second embodiment.

Within the drawings, the straight-line surface shading and stippling show the character and contour of the surfaces in the claimed design of the personal computing device. The broken lines show portions of the personal computing device, that form no part of the claimed design.
