FIG. 1 is a front view of a display screen or portion thereof with a first image in a sequence for an animated graphical user interface in accordance with a first embodiment; FIG. 2 is a front view of a display screen or portion thereof with a second image in a sequence for an animated graphical user interface in accordance with the first embodiment; FIG. 3 is a front view of a display screen or portion thereof with a third image in a sequence for an animated graphical user interface in accordance with the first embodiment; FIG. 4 is a front view of a display screen or portion thereof with a first image in a sequence for an animated graphical user interface in accordance with a second embodiment; FIG. 5 is a front view of a display screen or portion thereof with a second image in a sequence for an animated graphical user interface in accordance with the second embodiment; and, FIG. 6 is a front view of a display screen or portion thereof with a third image in a sequence for an animated graphical user interface in accordance with the second embodiment. The outermost broken lines illustrate a display screen or portion thereof and form no part of the claimed design. The remaining broken lines, illustrating portions of the animated graphical user interface, form no part of the claimed design. The appearance of the animated image sequentially transitions between the images shown in FIGS. 1 through 3 in the first embodiment and in FIGS. 4 through 6 in the second embodiment. The process or period in which one image transitions to another forms no part of the claimed design.
