In the drawings, the connecting portion located at one end of the shoulder strap forms no part of the claimed design. Lighter broken lines depicting the connectors located at each end of the straps forms no part of the claimed design. The heavier broken lines represent stitching and are part of the claimed design. In FIGS. 1, 3, and 6, portions of the straps are shown broken away and set-off by brackets and wavy-like lines. The appearance of any portion of the article between the break lines forms no part of the claimed design. Any contrast in color intensity or darkness as between stippling shown in the central portion of the shoulder strap versus stippling in the other regions of the strap represents a difference in visual appearance there between.
