(57) **CLAIM**

The ornamental design for a wine rack, as shown and described.

DESCRIPTION

FIG. **1** is a front, left isometric view of the wine rack according to a first embodiment of the present invention.

FIG. **2** is another front, left isometric view of the wine rack according to the first embodiment of the present invention.

FIG. **3** is a front view of the wine rack according to the first embodiment of the present invention.

FIG. **4** is a left view of the wine rack according to the first embodiment of the present invention.

FIG. **5** is a right view of the wine rack according to the first embodiment of the present invention.

FIG. **6** is a top view of the wine rack according to the first embodiment of the present invention.

FIG. **7** is a bottom view of the wine rack according to the first embodiment of the present invention.

FIG. **8** is a front, left isometric view of the wine rack according to a first alternative embodiment of the present invention.

FIG. **9** is another front, left isometric view of the wine rack according to the first alternative embodiment of the present invention.

FIG. **10** is a front view of the wine rack according to the first alternative embodiment of the present invention.

FIG. **11** is a left side view of the wine rack according to the first alternative embodiment of the present invention.

FIG. **12** is a right side view of the wine rack according to the first alternative embodiment of the present invention.

FIG. **13** is a top view of the wine rack according to the first alternative embodiment of the present invention.

FIG. **14** is a bottom view of the wine rack according to the first alternative embodiment of the present invention.

FIG. **15** is a front, left isometric view of the wine rack according to a second alternative embodiment of the present invention.

FIG. **16** is another front, left isometric view of the wine rack according to the second alternative embodiment of the present invention.

FIG. **17** is a front view of the wine rack according to the second alternative embodiment of the present invention.

FIG. **18** is a left side view of the wine rack according to the second alternative embodiment of the present invention.

FIG. **19** is a right, side view of the wine rack according to the second alternative embodiment of the present invention.

FIG. **20** is a top view of the wine rack according to the second alternative embodiment of the present invention.

(Continued)

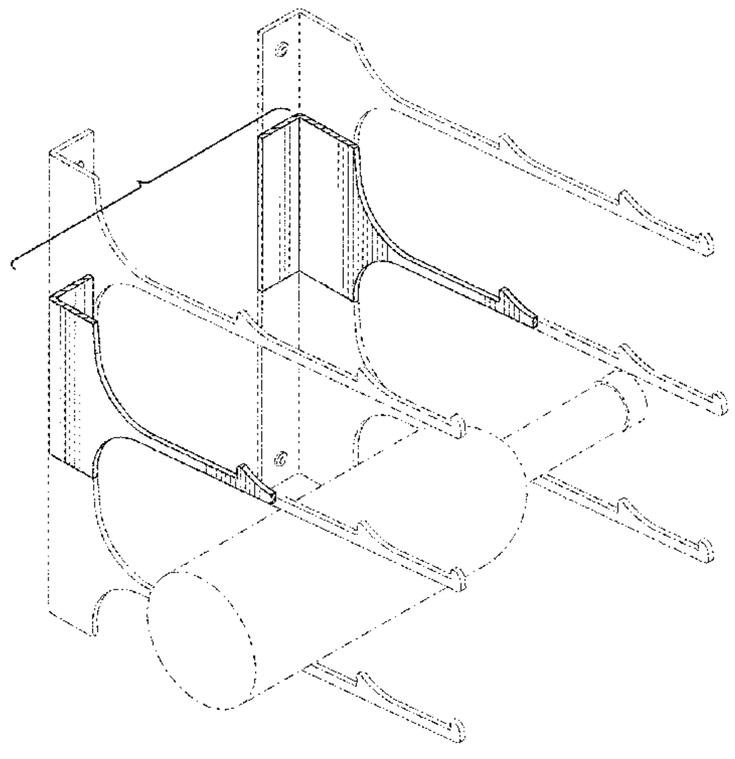

FIG. **21** is a bottom view of the wine rack according to the second alternative embodiment of the present invention.

FIG. **22** is a front, left isometric view of the wine rack according to a third alternative embodiment of the present invention.

FIG. **23** is another front, left isometric view of the wine rack according to the third alternative embodiment of the present invention.

FIG. **24** is a front view of the wine rack according to the third alternative embodiment of the present invention.

FIG. **25** is a left side view of the wine rack according to the third alternative embodiment of the present invention.

FIG. **26** is a right, side view of the wine rack according to the third alternative embodiment of the present invention.

FIG. **27** is a top view of the wine rack according to the third alternative embodiment of the present invention; and,

FIG. **28** is a bottom view of the wine rack according to the third alternative embodiment of the present invention.

The broken dot-dash lines in the figures are for illustrative purposes only and represent non-claimed environmental subject matter. Neither the portions of the invention shown in broken dot-dash line nor the broken dot-dash lines themselves form any part of the claimed invention.
