**DESCRIPTION**

FIG. 1 is a top, front, and right side perspective view of a drill powered wire puller embodying my new design, as installed onto an environmental drill;  
FIG. 2 is a left side elevation view thereof;  
FIG. 3 is a right side elevation view thereof;  
FIG. 4 is a top plan view thereof;  
FIG. 5 is a front elevation view thereof;  
FIG. 6 is a top, rear, and right side perspective view thereof;  
FIG. 7 is a top, front, and right side perspective view thereof;  
FIG. 8 is a top, front, and left side perspective view thereof;  
FIG. 9 is a top, rear, and left side perspective view thereof in an environment of use; and,  
FIG. 10 is a top, rear, and left side perspective view thereof in an alternate environment of use.  
The even broken lines in the drawings illustrate portions of the drill powered wire puller and environmental structures of a drill and other attachments that form no part of the claimed design.  
The dot-dash-dot-dash type broken lines in the figures define the boundaries of the claimed design.
