(Continued)

The figures are a front view of a computer screen with an animated graphical user interface. The dashed broken line perimeter is included for the purpose of illustrating a computer screen and forms no part of the claimed design. The dashed and square-dotted broken line indicia is included for the purpose of illustrating an animated graphical user interface and forms no part of the claimed design.

The dashed hatching, dotted hatching, and tonal shading are included for the purpose of illustrating a contrast in appearance and form a part of the claimed design.

(Continued)

The appearance of the image transitions sequentially between the images shown in FIGS. 1-19. The process or period in which an image transitions to another forms no part of the claimed design.
