(57) **CLAIM**

The ornamental design for a display screen with transitional graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a first image of a display screen with transitional graphical user interface showing my new design; FIG. 2 is a second image thereof; and, FIG. 3 is a third image thereof. The broken line showing of a display screen with graphical user interface is included for the purpose of showing portions of the article which form no part of the claimed design. The subject matter in this patent includes a process or period in which an image changes into another image. This process or period forms no part of the claimed design.
