(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface for electronic door, as shown and described.

**DESCRIPTION**

1. Electronic door having a display screen with animated graphical user interface

**1.1** is a front elevation view of a display screen with animated graphical user interface for electronic door embodying our new design showing a first image;

**1.2** is a front elevation view thereof showing a second image;

**1.3** is a front elevation view thereof showing a third image; and

**1.4** is a front elevation view of an electronic door in which the display screen with animated graphical user interface as shown in **1.1** is embedded.

The appearance of the transitional image sequentially transitions between the images shown in reproductions **1.1-1.3**. The process or period in which one image transitions to another image forms no part of the claimed design.

The broken lines in the reproductions illustrate portions of the display screen with animated graphical user interface and an environmental electronic door that do not form part of the claimed design.
