(57) **CLAIM**

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface showing a first image in a sequence of the graphical user interface according to a first embodiment of the claimed design.

FIG. 2 is a front view of the display screen with graphical user interface of FIG. 1 showing a second image in the sequence of the graphical user interface.

FIG. 3 is a rear view of the display screen with graphical user interface of FIG. 1.

FIG. 4 is a left side view of the display screen with graphical user interface of FIG. 1.

FIG. 5 is a right side view of the display screen with graphical user interface of FIG. 1.

FIG. 6 is a top view of the display screen with graphical user interface of FIG. 1.

FIG. 7 is a bottom view of the display screen with graphical user interface of FIG. 1.

FIG. 8 is a front view of a display screen with graphical user interface showing a first image in a sequence of the graphical user interface according to a second embodiment of the claimed design.

FIG. 9 is a front view of the display screen with graphical user interface of FIG. 8 showing a second image in the sequence of the graphical user interface.

FIG. 10 is a rear view of the display screen with graphical user interface of FIG. 8.

FIG. 11 is a left side view of the display screen with graphical user interface of FIG. 8.

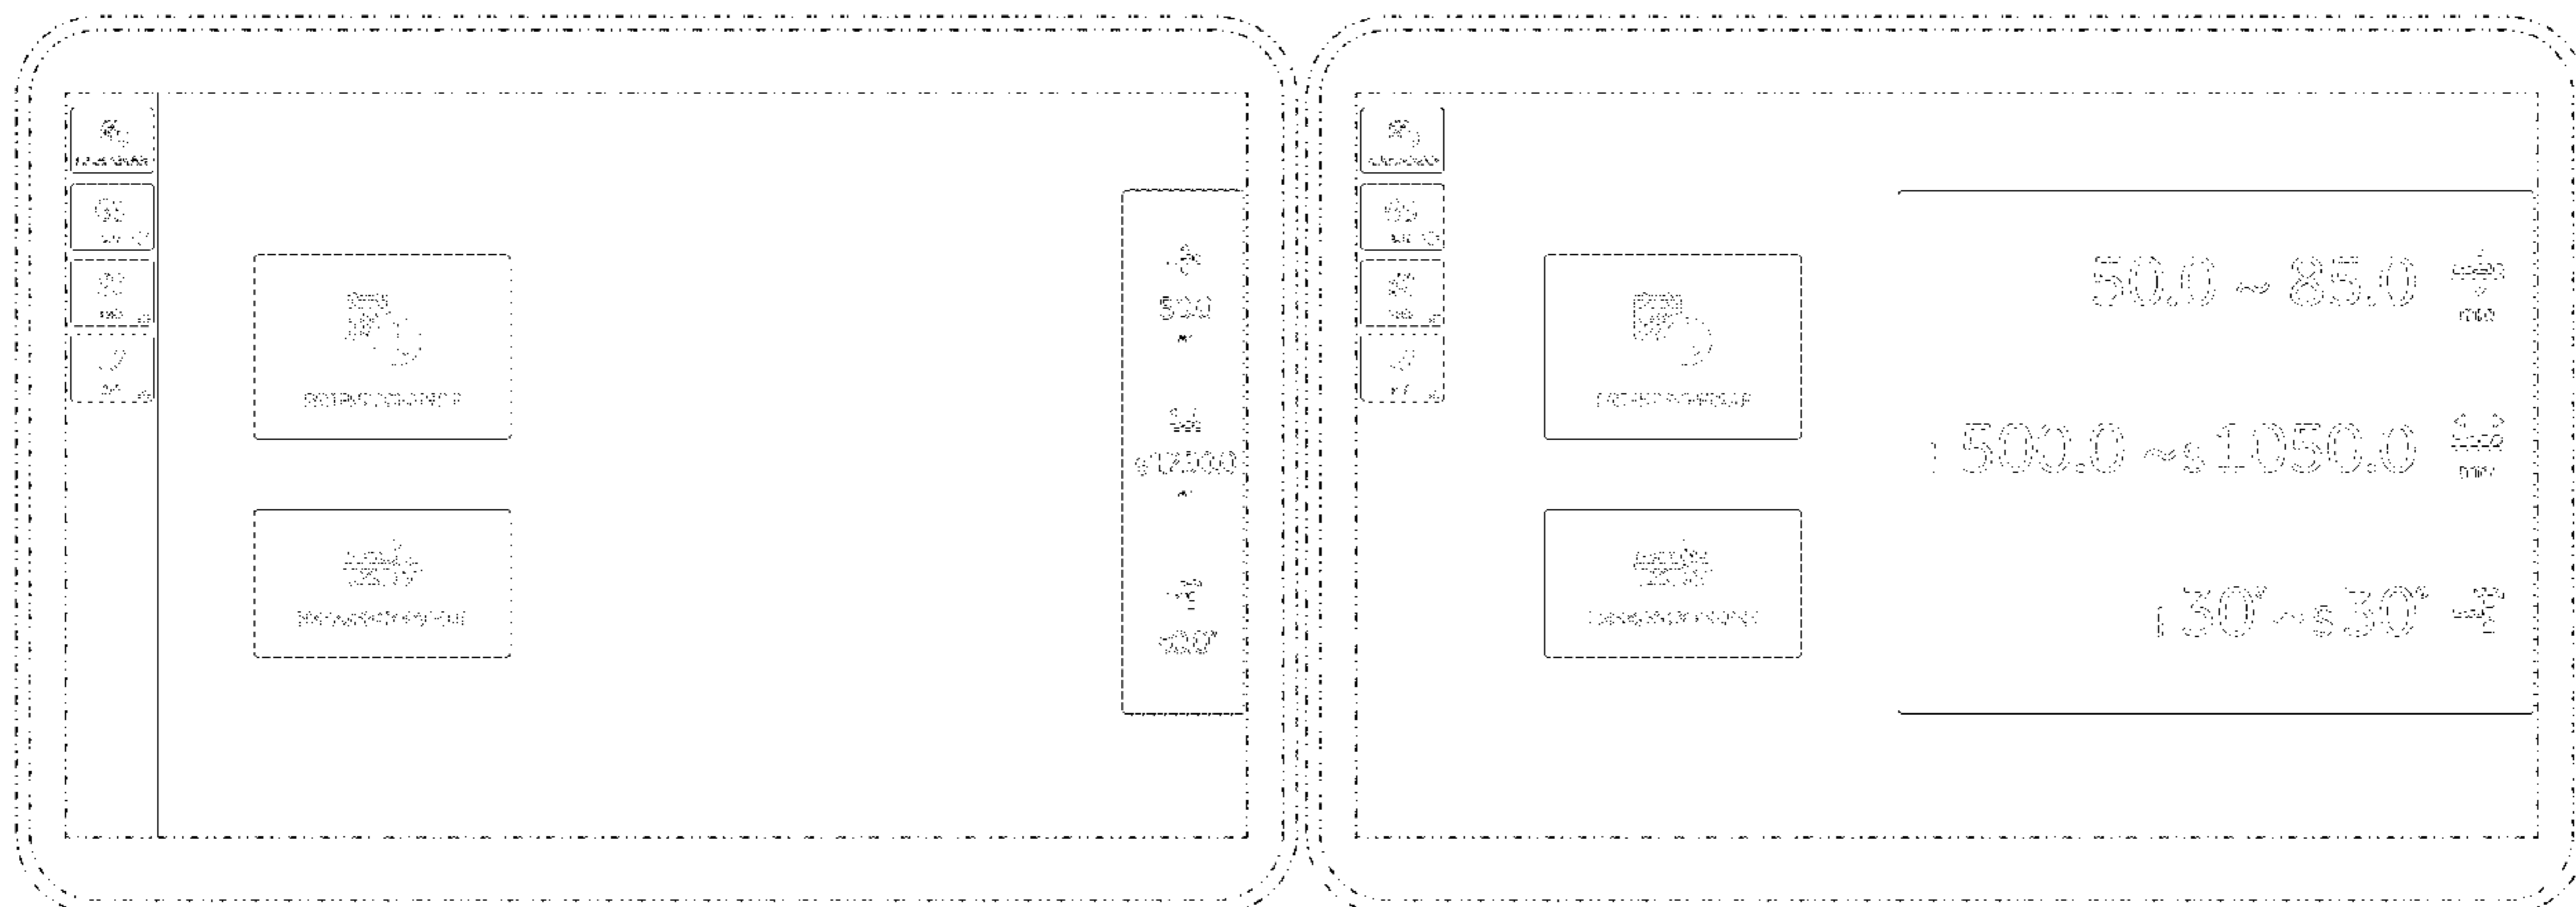

FIG. 12 is a right side view of the display screen with graphical user interface of FIG. 8.

FIG. 13 is a top view of the display screen with graphical user interface of FIG. 8; and,

FIG. 14 is a bottom view of the display screen with graphical user interface of FIG. 8.

The dash-dot-dot broken lines in the drawings showing the device and display screen illustrate portions of the article which form no part of the claimed design.

(Continued)

The evenly spaced broken lines in the drawings illustrate portions of the graphical user interface which form no part of the claimed design.

The appearance of the graphical user interface sequentially transitions between the images shown in FIGS. 1-2. The process or period in which an image transitions to another forms no part of the claimed design.

The appearance of the graphical user interface sequentially transitions between the images shown in FIGS. 8-9. The process or period in which an image transitions to another forms no part of the claimed design.

1 Claim, 14 Drawing Sheets
