(57) **CLAIM**

The ornamental design for a mobile communication terminal display screen with a transitional graphical user interface, as shown and described.

**DESCRIPTION**

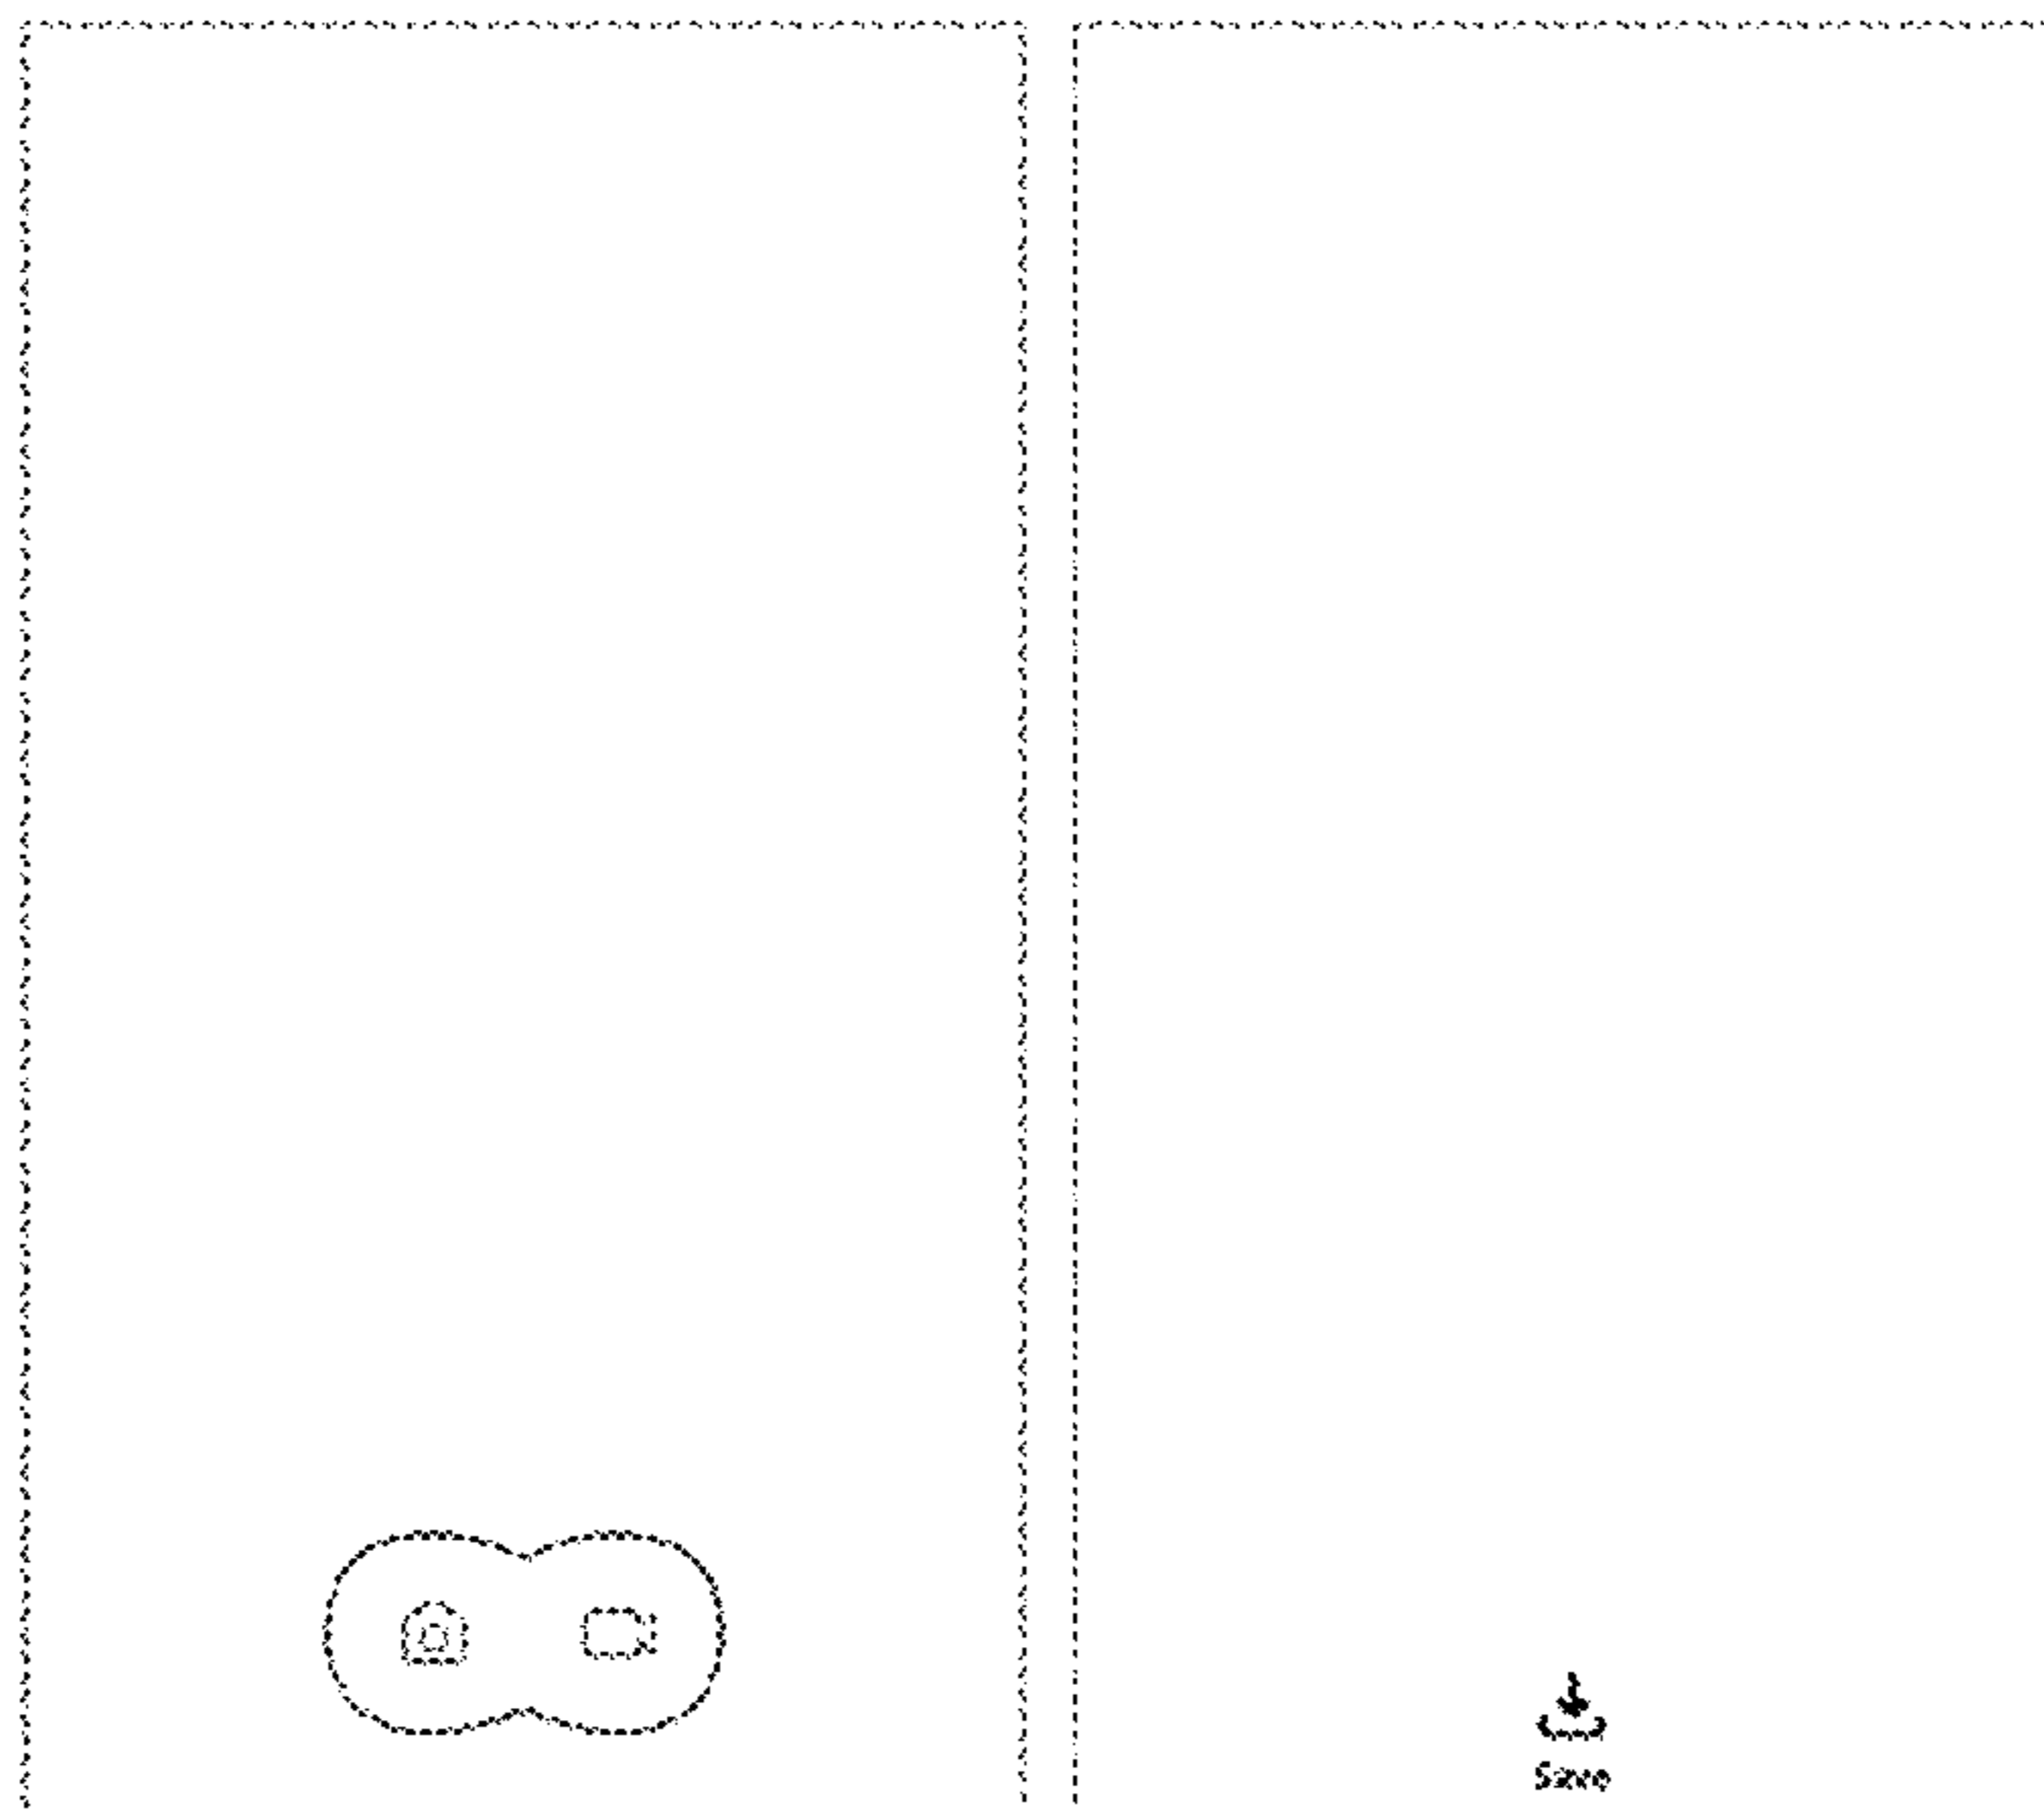

FIG. 1 is a front view of a mobile communication terminal display screen with a transitional graphical user interface showing a first image in a sequence according to our new design; and,

FIG. 2 is a second image in the sequence according to our new design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2.

The process or period in which one image transitions to another image forms no part of the claimed design.
