(57) **CLAIM**

I claim the ornamental design for a winch handle operated bottle closure, substantially as shown and described.

DESCRIPTION

FIG. 1 is a top perspective view of a winch handle operated bottle closure, showing the cap portion separated from the sheath portion, and further showing the sheath portion in a position of use with an exemplary bottle;
FIG. 2 is a bottom perspective view thereof, showing the cap and sheath portion assembled, and further showing the exemplary bottle removed to show aspects of the design not visible when combined;
FIG. 3 is an exploded bottom perspective view thereof;
FIG. 4 is a top plan view of the cap portion and sheath portion, shown separately and side by side;
FIG. 5 is a bottom plan view thereof;
FIG. 6 is a top plan view of the closure and sheath portions shown in an assembled position of use;
FIG. 7 is a bottom plan view thereof;
FIG. 8 is an exploded left side elevation view thereof, the right side being identical thereto;
FIG. 9 is an assembled right side elevation view thereof, the left side being identical thereto;
FIG. 10 is an exploded front elevation view thereof, the back being identical thereto; and,
FIG. 11 is an assembled back view thereof, the front being identical thereto, shown in a position of use with an exemplary bottle.
The broken lines are shown for the purpose of illustrating environmental subject matter of exemplary bottles and form no part of the claimed design.
