1.10 : Reference view

The present design is a container for a liquid sample that can be used in various spectroscopic measurements; the present design is set in a sample chamber of a spectroscope to be used; the present design is made of a transparent material; in reproduction 1.2, transparent perspective view; 1.1: perspective view; 1.2: transparent perspective view; 1.3: front view; 1.4: back view; 1.5: top view; 1.6: bottom view; 1.7: right view; 1.8: left view; 1.9: A-A cross-sectional view; 1.10: reference view showing the relationship with the spectroscope.

The broken lines showing the spectroscope are for the purpose of illustrating environmental subject matter and form no part of the claimed design.
