(57) **CLAIM**

The ornamental design for a weight-balancing headset, as shown and described.

DESCRIPTION

FIG. 1 is a front planar view of a weight-balancing headset showing my new design in which a single-earpiece and rotatable wireless enabled mic boom are visible in a first position, and a battery cap is visible in a closed position opposite the mic boom;

FIG. 2 is a left planar view thereof, the left side of the single earpiece and rotatable mic boom being visible herein;

FIG. 3 is a right planar view thereof, the right side of a battery pack being visible herein;

FIG. 4 is a rear, planar view thereof;

FIG. 5 is a bottom view thereof;

FIG. 6 is an upper view thereof;

FIG. 7 is a front planar view of a weight-balancing headset showing my new design in which the single-earpiece and rotatable enabled mic boom are visible in a second position, and a battery cap is visible in an open position opposite the mic boom;

FIG. 8 is an upper left perspective view thereof;

FIG. 9 is an enlarged view of a portion 9-9 thereof; and,

FIG. 10 is an upper right perspective view of the headset wherein the boom is rotated back into the first position as shown in FIG. 1.

Wherein the ornamental design of the weight-balancing headset provides balance of a weight of one side of the monaural headset with a weight of another side of the headset; and wherein objects of the environment illustrated in broken lines form no part of the claimed design.

1 Claim, 8 Drawing Sheets
