(57) **CLAIM**

The ornamental design for a display screen with graphical user interface for an automated staining apparatus or portion thereof, as shown and described.

DESCRIPTION

The sole FIGURE is front view of a display screen with graphical user interface showing our new design of which the outermost broken line rectangle shows a display screen and forms no part of the claimed design.

The dash-dash broken lines are included for the purpose of illustrating portions of the display screen and graphical user interface that form no part of the claimed design. The dot-dot broken lines also illustrate portions of the graphical user interface that form no part of the claimed design.
