(57)CLAIM

The ornamental design for a display screen with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a display screen with graphical user interface according to the claimed design.

FIG. 2 is a rear view of the display screen with graphical user interface.

FIG. 3 is a left side view of the display screen with graphical user interface.

FIG. 4 is a right side view of the display screen with graphical user interface.

FIG. 5 is a top view of the display screen with graphical user interface; and,

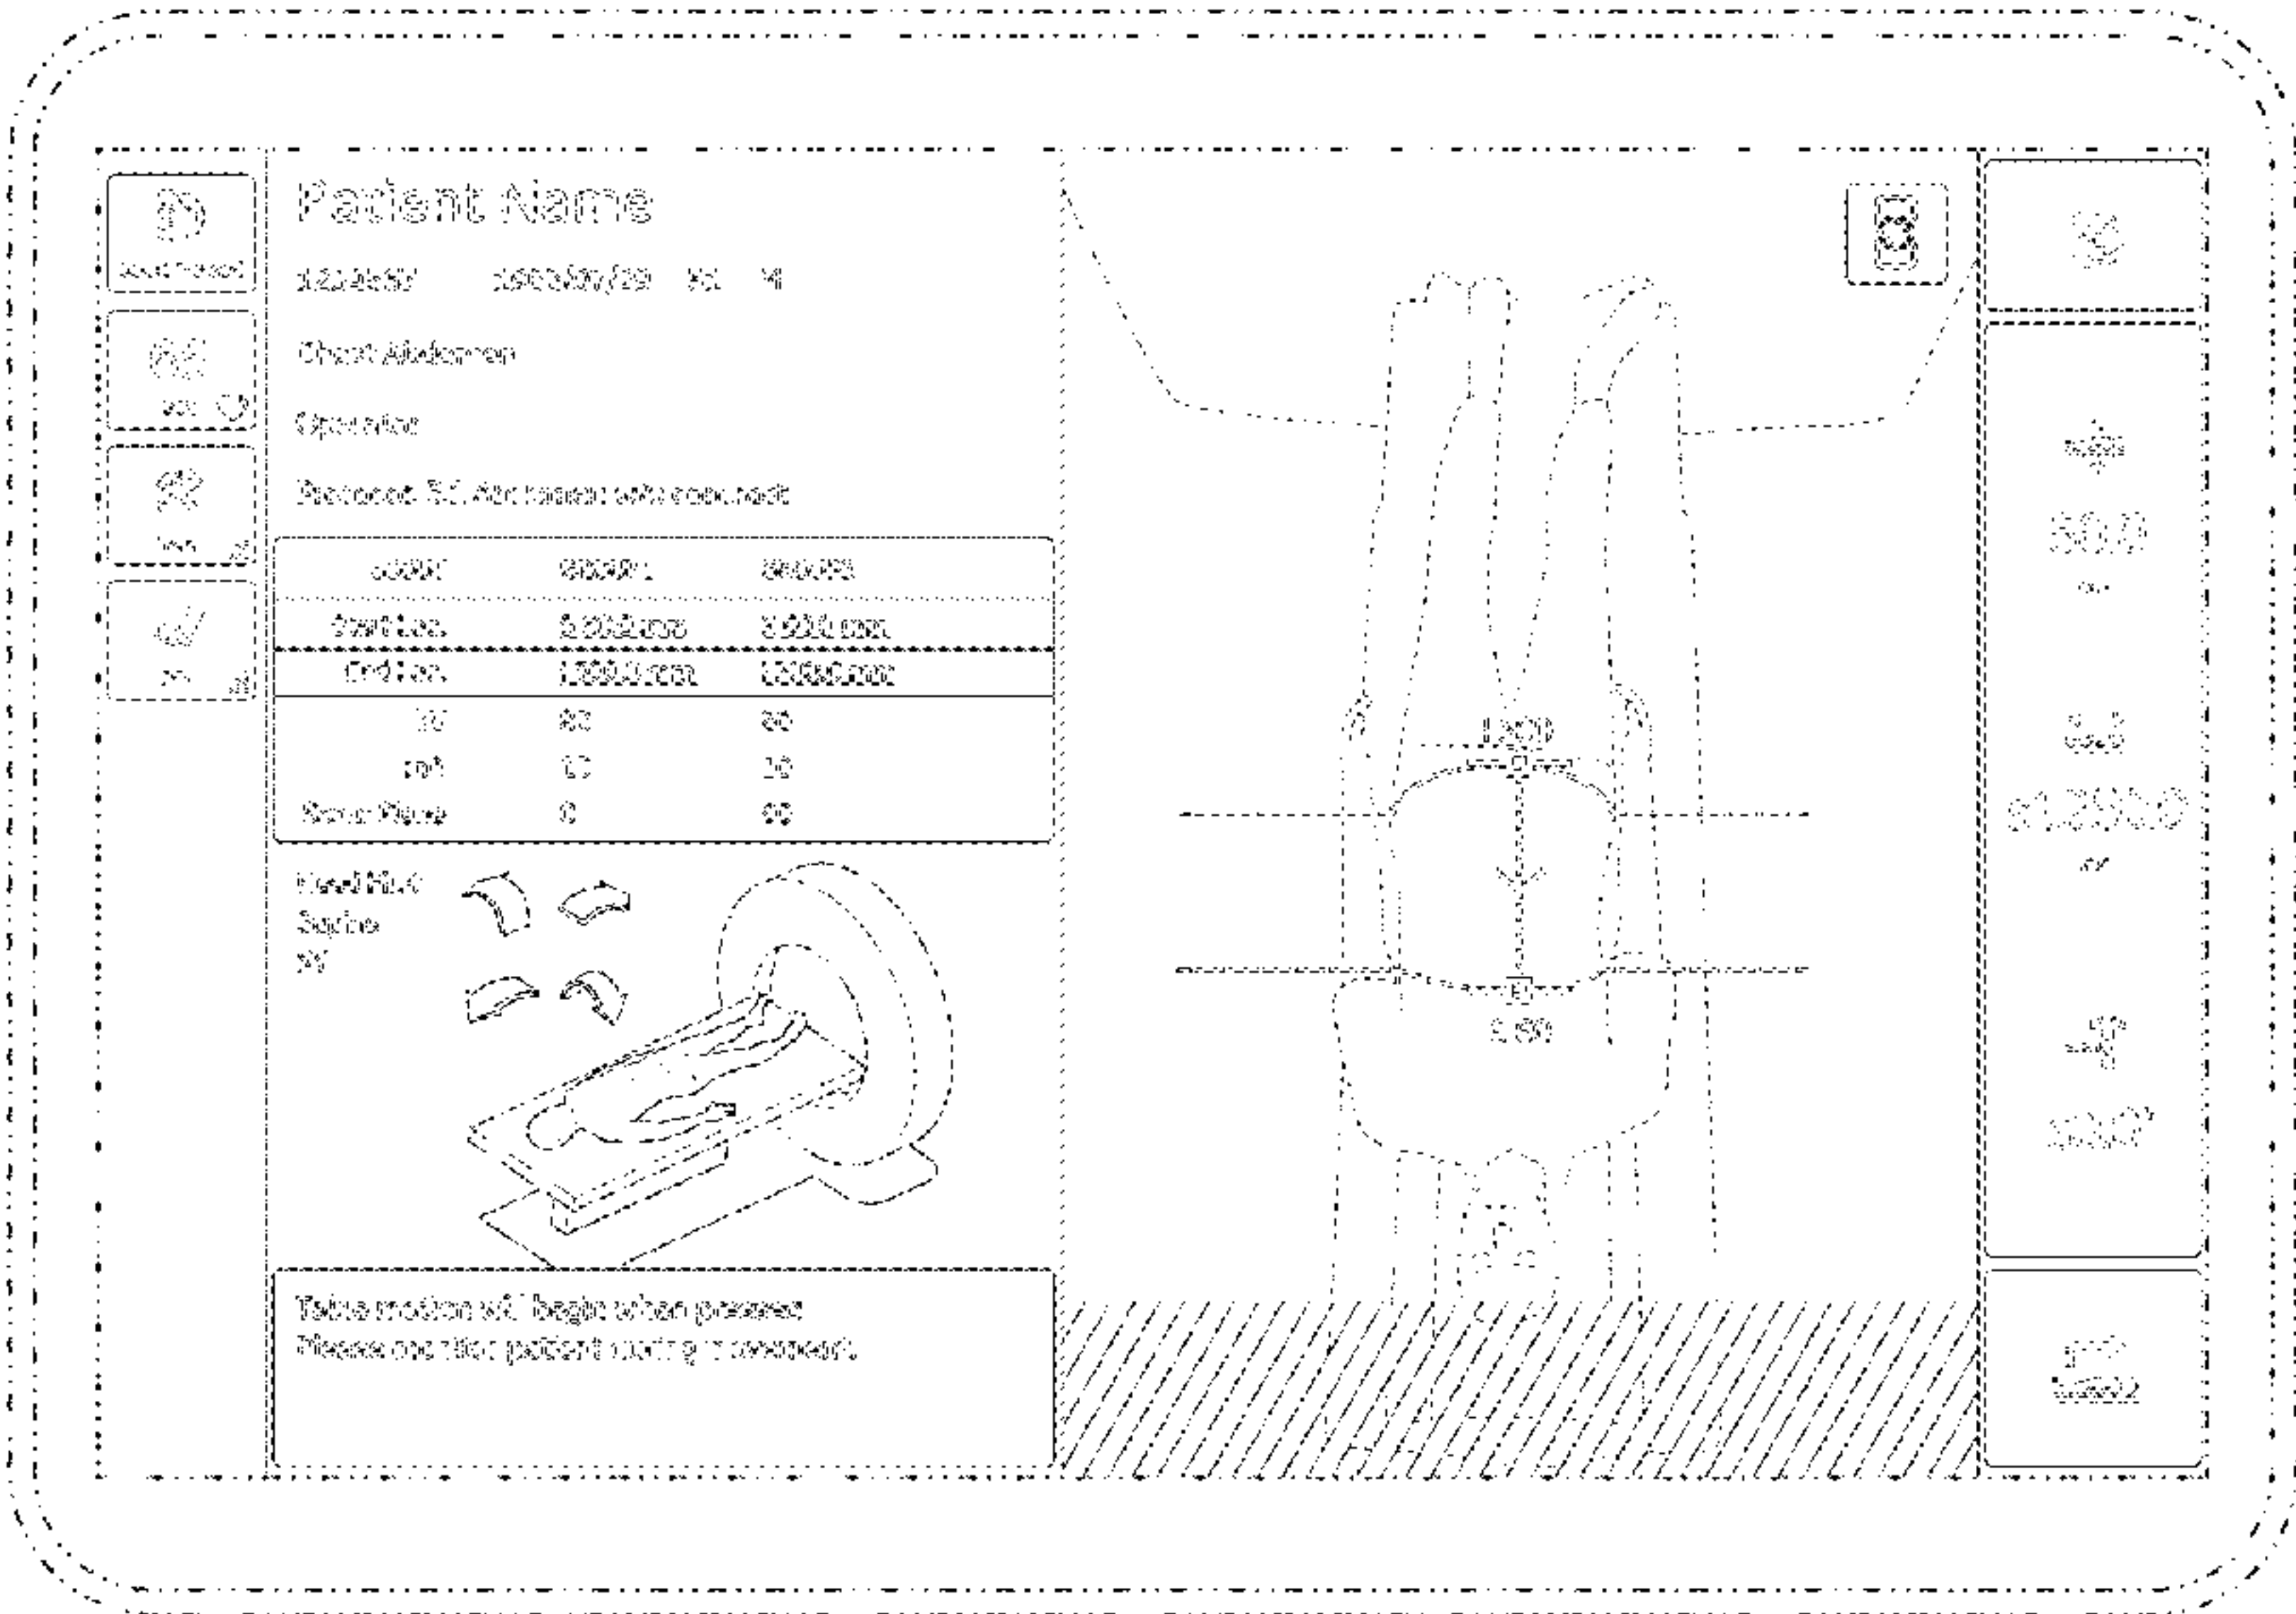

FIG. 6 is a bottom view of the display screen with graphical user interface.

The dash-dot-dot broken lines in the drawings show a device with display screen and form no part of the claimed design.

The dash-dash broken lines in the drawings show portions of the graphical user interface that form no part of the claimed design.

The outlined, broken line paths shown across the broken line human body on the right side in FIG. 1 form part of the claimed design.

1 Claim, 6 Drawing Sheets
