(57) **CLAIM**

The ornamental design for a fin for vehicles, as shown and described.

DESCRIPTION

FIG. 1 is a front perspective view of a fin for vehicles, vessels, and the like in accordance with the present invention.
FIG. 2 is a left side elevational view thereof.
FIG. 3 is a right side elevational view thereof, which is a mirror image of the left side.
FIG. 4 is a front elevational view thereof.
FIG. 5 is a rear elevational view thereof.
FIG. 6 is a top plan view thereof.
FIG. 7 is a front perspective view of a second embodiment of a fin for vehicles, vessels, and the like in accordance with the present invention.
FIG. 8 is a front elevational view thereof.
FIG. 9 is a rear elevational view thereof; and,
FIG. 10 is a top plan view thereof.
The features shown in dot-dash lines in the various Figures are for illustrating environmental structure and form no part of the claimed design.
The dashed lines in FIGS. 1, 4, 5, & 6, and the break in FIGS. 7, 8, 9, and 10, represent an indeterminate width between two applications of the design to a single article, applied in mirror image to either side of a fin. The design envisioned contains a second portion whose image is mirror symmetrical to the one shown.
