(57) **CLAIM**

The ornamental design for a compression roller, as shown and described.

DESCRIPTION

FIG. 1 is a perspective view of a compression roller according to the present invention.

FIG. 2 is a distal/roller end view of the compression roller of FIG. 1.

FIG. 3 is a proximal/handle end view of the compression roller of FIG. 1.

FIG. 4 is a left side view of the compression roller of FIG. 1, the right side view being a mirror image thereof.

FIG. 5 is a plan view of the compression roller of FIG. 1.

FIG. 6 is a bottom view of the compression roller of FIG. 1.

FIG. 7 is a perspective view of a portion of the compression roller of FIG. 1.

FIG. 8 is a perspective view of a portion of the compression roller showing a detail indicated in FIG. 7; and,

FIG. 9 is a plan view of a portion of the compression roller showing a detail indicated in FIG. 5.

The broken lines shown in the drawings illustrate portions of the compression roller that form no part of the claimed design.

1 Claim, 4 Drawing Sheets
