(57) **CLAIM**

We claim the ornamental design for a display screen or portion thereof with animated graphical user interface for indicating automation function configuration, as shown and described.

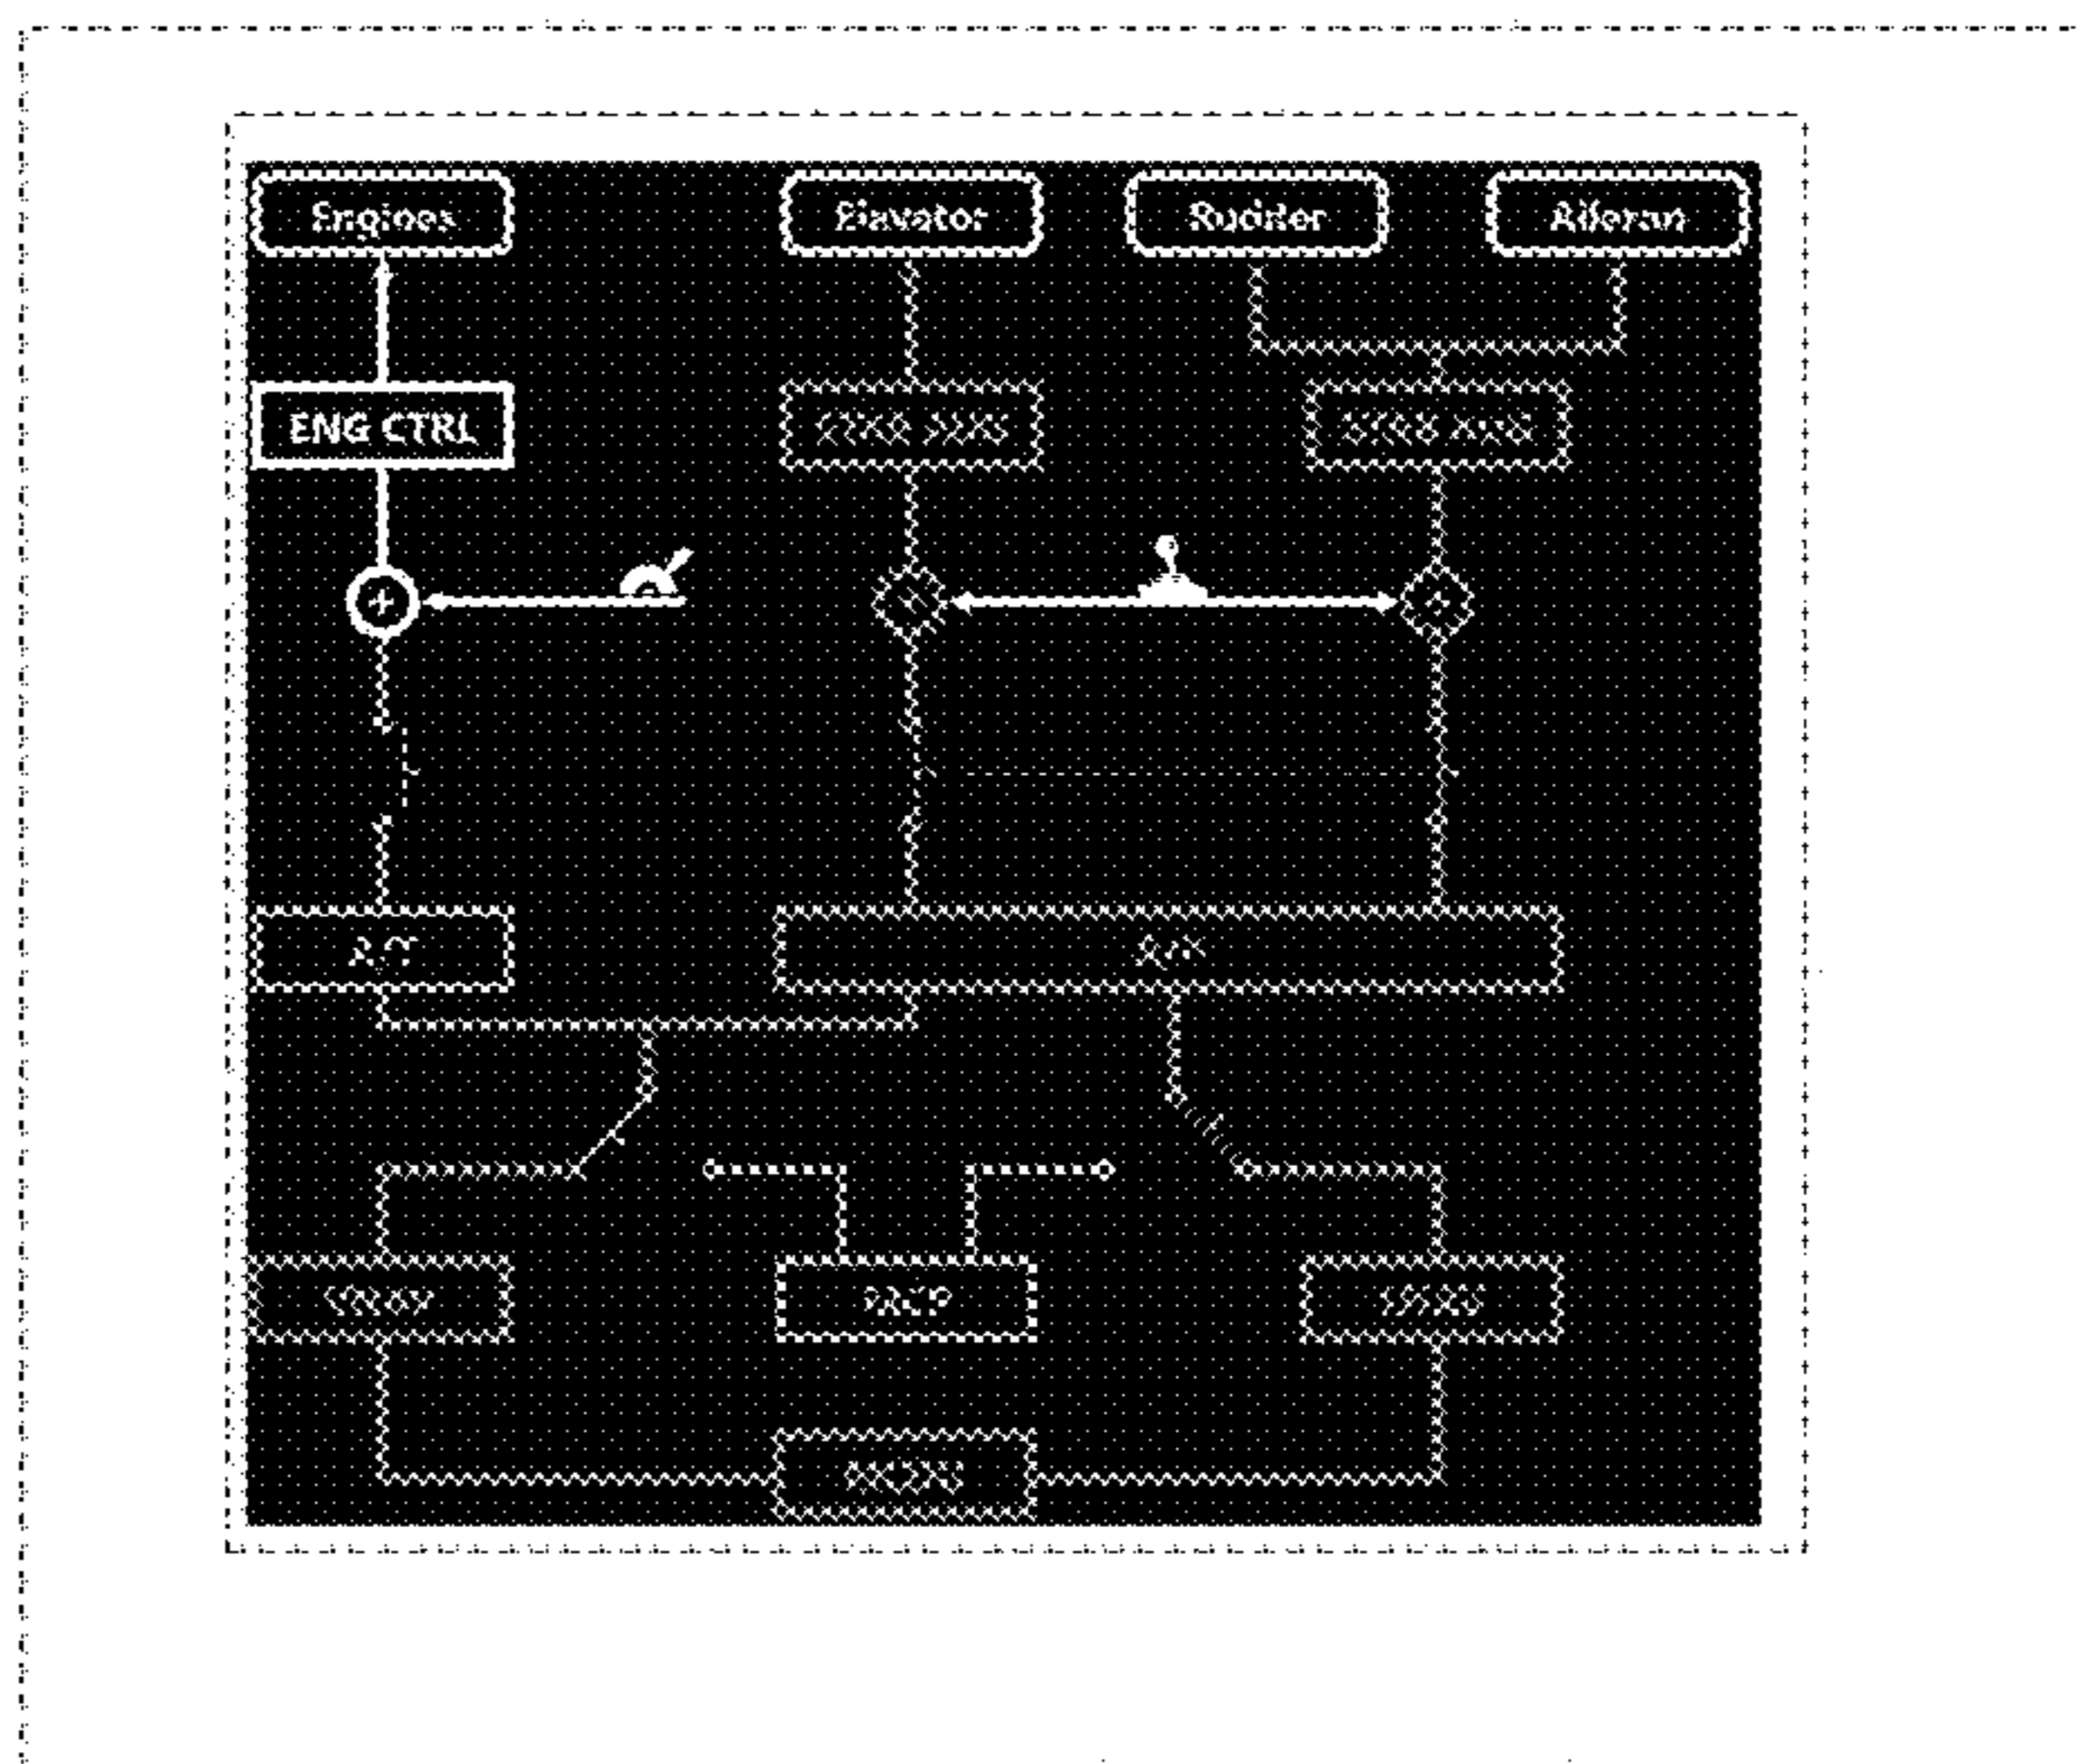

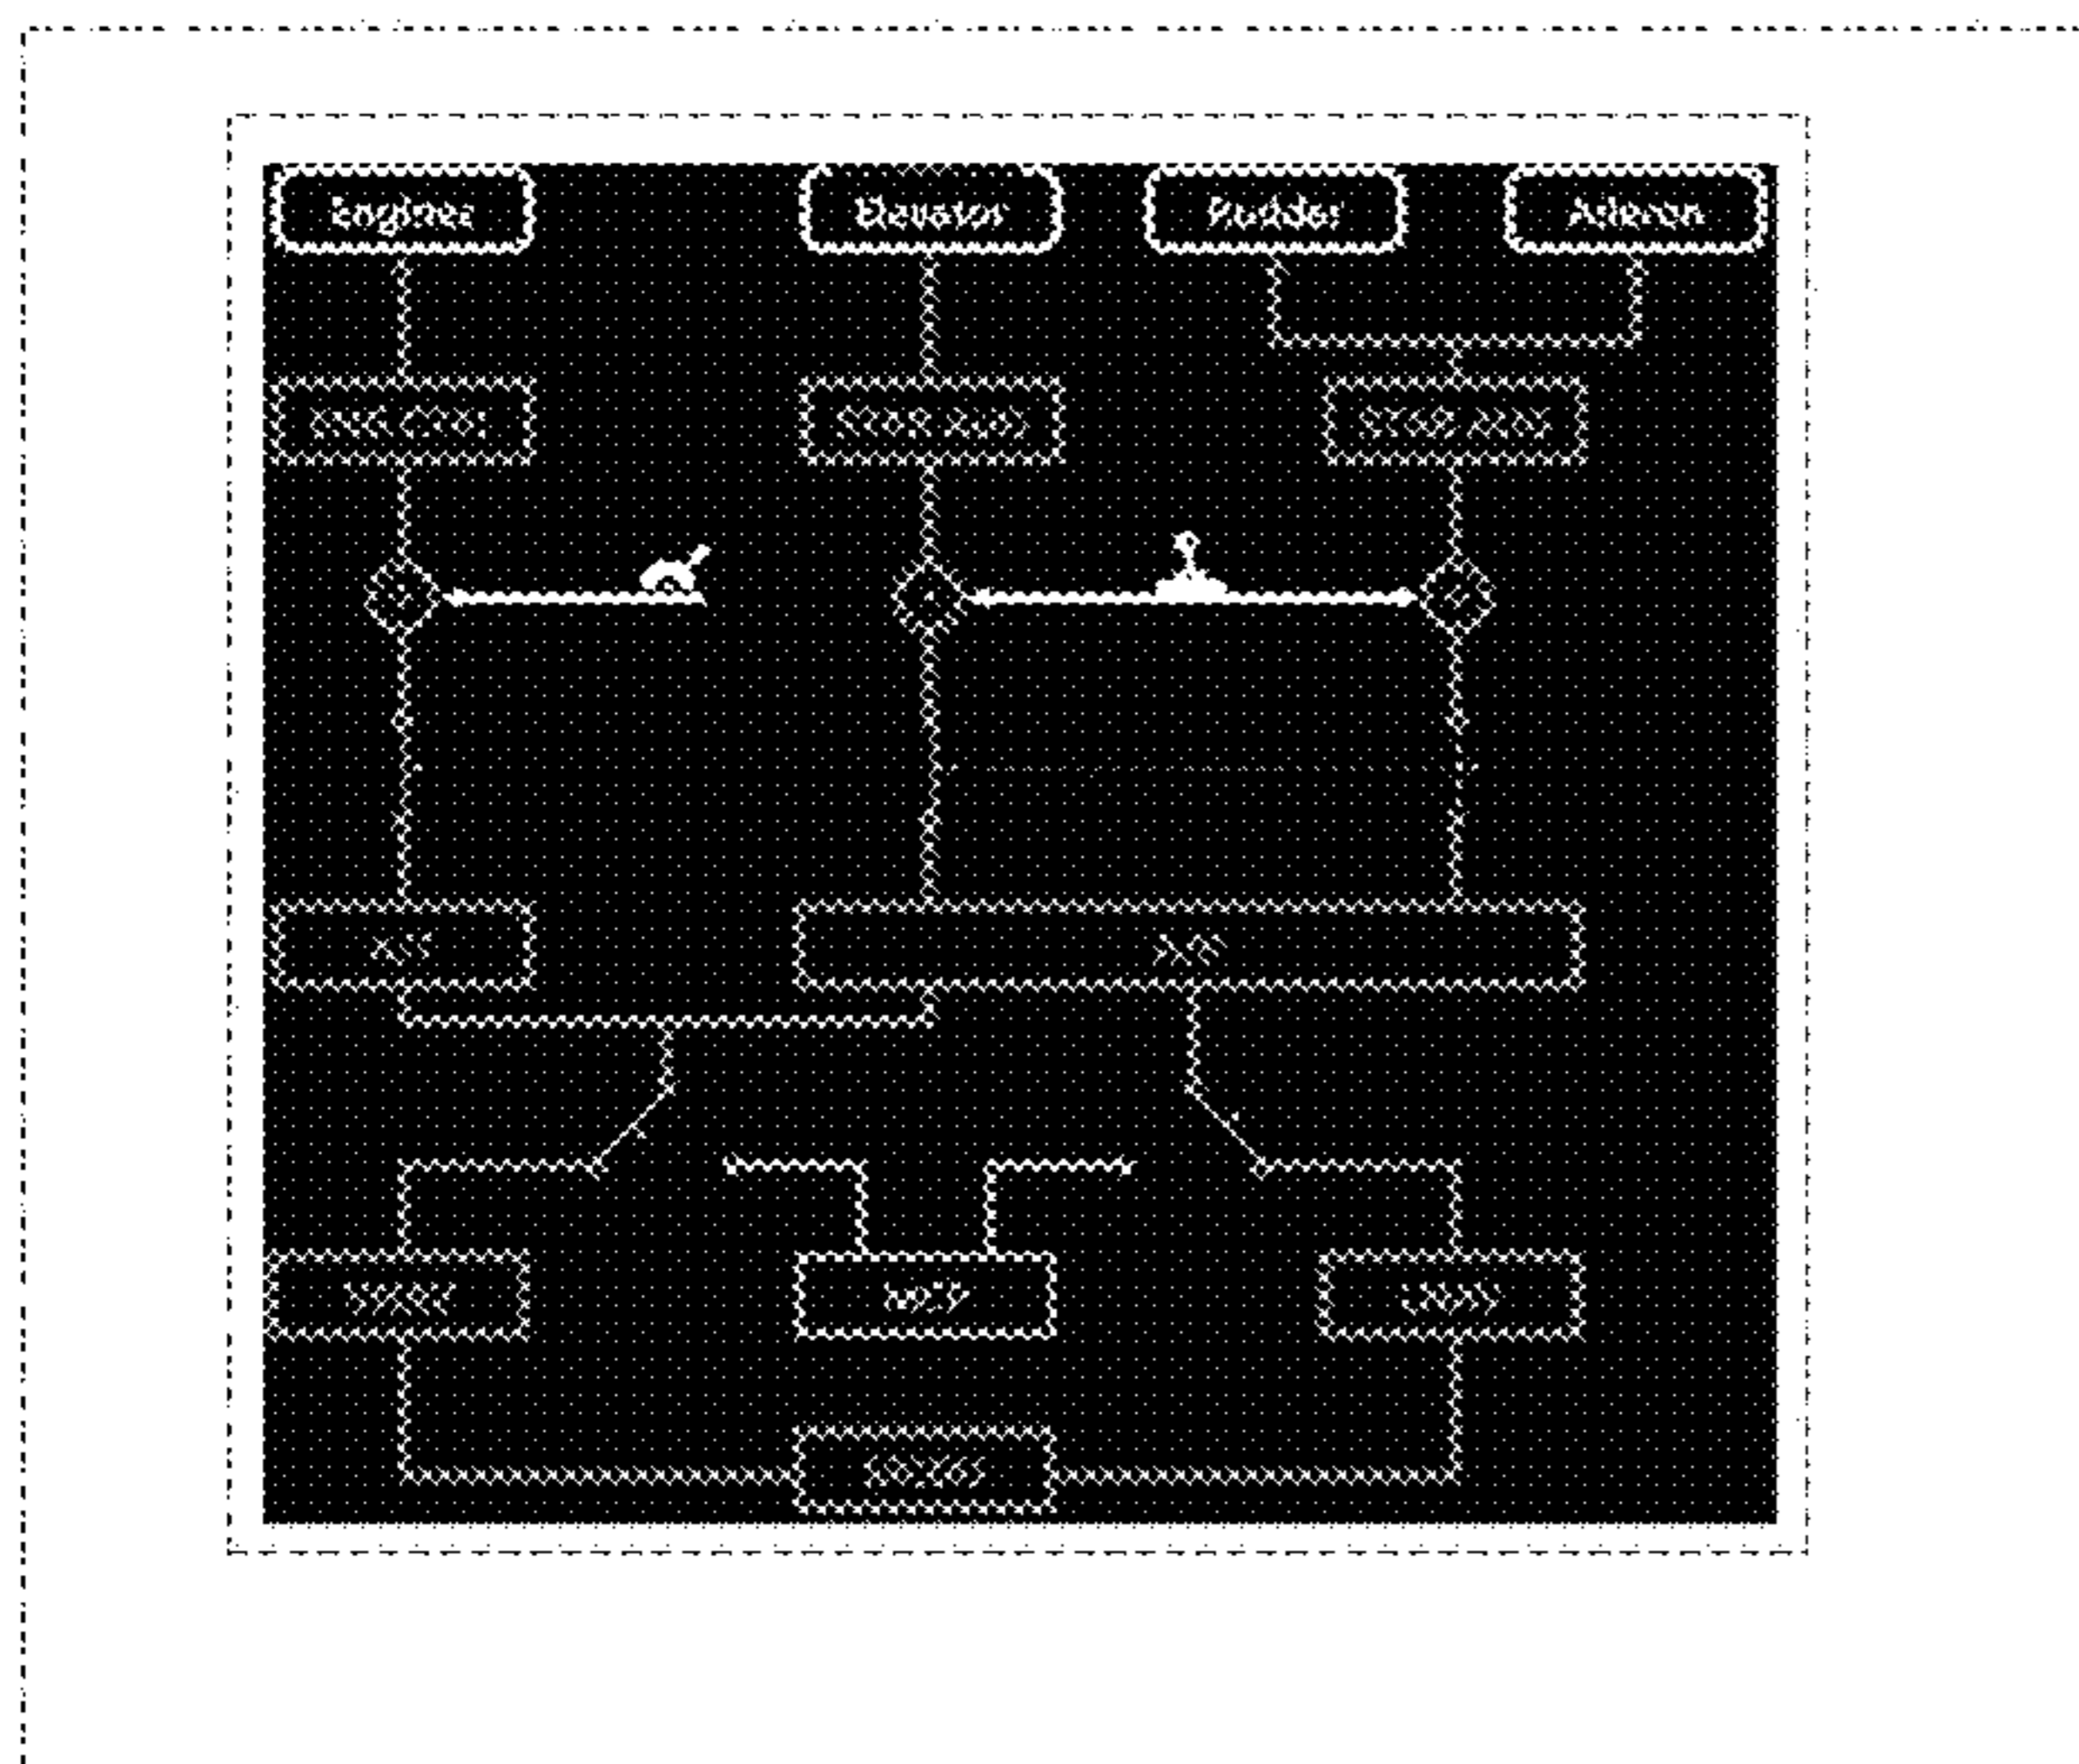

DESCRIPTION

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawing(s) will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front elevation view of an animated flight deck display screen or portion thereof in a first state; and, FIG. 2 is a front elevation view thereof in a second state. The ornamental design that is claimed is shown in solid lines in the drawings, with the gray dashed line forming part of the claimed design. The broken line showing the flight deck display screen is for illustrative purposes only and forms no part of the claimed design.

The appearance of the transitional image sequentially transitions between the images shown in FIGS. 1-2. The process or period in which one image transitions to another image forms no part of the claimed design.
