(57) **CLAIM**

The ornamental designs for a display screen of an industrial assets condition monitoring system with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 shows a front view of a display screen of an industrial assets condition monitoring system with graphical user interface, according to a first embodiment of the claimed design; and,

FIG. 2 shows a front view of a display screen of an industrial assets condition monitoring system with graphical user interface, according to a second embodiment of the claimed design.

The outermost broken-line rectangle illustrates the perimeter of a display screen and forms no part of the claimed design. The remaining broken lines illustrate surface ornamentation features and form no part of the claimed design.

1 Claim, 2 Drawing Sheets
