(57) **CLAIM**

The ornamental design for a display screen with animated graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a first image in the sequence for a display screen with an animated graphical user interface, showing our new design.

FIG. 2 is a front view of a second image thereof; and, FIG. 3 is a front view of a third image thereof.

The broken lines of the graphical user interface are included for the purpose of illustrating environmental structure and portions of the article. The broken lines form no part of the claimed design. The broken lines showing the device and the rectangular display screen form no part of the claimed design. Each of the broken lines inside the rectangle show portions of the graphical user interface and form no part of the claimed design.

The appearance of the transitional image sequentially transitions between images shown in FIGS. 1 through 3. The process or period in which one image transitions to another image forms no part of the claimed design.
